

**Activities held in Dominica on the occasion of the 2005 International Day for the Preservation of the Ozone Layer**

- Televised panel discussion on September 15, 2005. The discussion focused on "Understanding the Linkages" Ozone Depletion, Climate Change, Air Pollution & Severe Weather.
- On 16 September there was a nationwide speech by the Minister of Agriculture, Fisheries & the Environment, the Hon. Dr. Collin McIntyre.
- The Ozone Unit organized a national rally within the Capital City with the participation of schools, college, NGO groups and other stakeholders (approximately 500 persons). The rally terminated at a central location where short messages were provided by various officials.
