TENTH MEETING OF THE PARTIES TO
THE MONTREAL PROTOCOL ON
SUBSTANCES THAT DEplete
THE OZONE LAYER
Cairo, 23-24 November 1998

REPORT OF THE SECRETARIAT ON INFORMATION PROVIDED BY
THE PARTIES IN ACCORDANCE WITH ARTICLE 7 AND 9
OF THE MONTREAL PROTOCOL

The reporting of data by the Parties to the Montreal Protocol
on Substances that Deplete the Ozone Layer

Report of the Secretariat

I. INTRODUCTION

1. The present report contains information received by the Secretariat (as at 10 September 1998) pursuant to Articles 7 and 9 of the Montreal Protocol on Substances that Deplete the Ozone Layer.
2. Article 7 of the Montreal Protocol specifies that:

(a) Base-year data.^{*} Each Party shall provide to the Secretariat, within three months of becoming a Party, statistical data on its production, imports and exports of each of the controlled substances in Annex A for the year 1986, Annexes B and C for the year 1989 and Annex E for 1991 or the best possible estimates of such data where actual data are not available;

* In the present report, the "base year" means the first year for which Parties are required to report data for a particular substance. The term "baseline" means the level of production/consumption used as the basis for the phase-out schedules, for example, for Article 5 Parties, the year 1986 is the "base year" for Annex A substances, while the average of the 1995-1997 consumption/production levels constitutes the "baseline" for the control measures. Similarly, 1989 is the base year for HCFCs whereas the baseline is 1989 HCFC consumption plus 2.8 per cent of 1989 CFC consumption.

Na.98-2761 091098

/...

(b) Annual data. Each Party shall provide to the Secretariat statistical data on its annual production (as defined in paragraph 5 of Article 1) of each of the controlled substances listed in Annexes A, B, C and E and, separately, for each substance, for the year during which provisions concerning the substances in Annexes A, B, C and E respectively entered into force for that Party and for each year thereafter. Data shall be forwarded not later than nine months after the end of the year to which the data relate;

(c) Annual data on recycling. Each Party shall provide to the Secretariat separate statistical data on its annual imports and exports of each of the controlled substances listed in Group II of Annex A and Group I of Annex C that have been recycled.

3. Research, development, public awareness and exchange of information. Article 9 specifies that every two years each Party shall submit to the Secretariat a summary of its activities under that Article 9, i.e., on research, development, public awareness and exchange of information.

II. STATUS OF RATIFICATION OF THE MONTREAL PROTOCOL, THE LONDON AND COPENHAGEN AMENDMENTS

4. As at 10 September 1998, 168 Parties had ratified the Montreal Protocol and 123 had ratified the London Amendment, 80 had ratified the Copenhagen Amendment, while the Montreal Amendment had been ratified by only three Parties.

III. STATUS OF REPORTING THE BASE-YEAR AND BASELINE DATA

5. The Secretariat has analysed the submissions of base-year and baseline data from the Parties. The following Parties have not reported such data as indicated below:

(a) Base-year (1986) data for Annex A substances:

(i) Parties operating under Article 5:

Overdue by:

6 months-1 year: Suriname

1-2 years: Burundi, Madagascar and Republic of Moldova.

Over 2 years: Antigua and Barbuda, Chad, Comoros, Democratic Republic of the Congo, Democratic People's Republic of Korea, Grenada, Kiribati, Liberia, Libyan Arab Jamahiriya, Marshall Islands, Micronesia (Federated States of) Mongolia, Nepal, Nicaragua, Nigeria, Paraguay, Vanuatu and Yemen.

(ii) Parties not operating under Article 5:

Overdue by:

6 months-1 year: Tajikistan

Over 2 years: Turkmenistan.

(b) Base-year (1989) data for Annex B substances (for those Parties that have ratified the London Amendment):

(i) Parties operating under Article 5:

Overdue by:

Over 2 years: Antigua and Barbuda, Comoros, Democratic Republic of the Congo, Grenada, Liberia, Marshall Islands, Mongolia, Nepal, Paraguay and Vanuatu.

(ii) Parties not operating under Article 5:

Overdue by:

6 months-1 year: Tajikistan.

Over 2 years: Turkmenistan.

(c) Base-year data for 1989 - HCFCs (for those Parties that have ratified the London Amendment):

(i) Parties operating under Article 5:

Overdue by:

Over 2 years: Antigua and Barbuda, Comoros, Democratic Republic of the Congo, Fiji, Grenada, Liberia, Marshall Islands, Mongolia, Nepal, Paraguay and Vanuatu.

(ii) Parties not operating under Article 5:

6 months-1 year: Tajikistan.

Over 2 years: Turkmenistan.

(d) Base-year (1991) data for Annex E substance (for Parties that have ratified the Copenhagen Amendment):

(i) Parties operating under Article 5:

6 months-1 year: Saint Vincent and the Grenadines.

1-2 years: Democratic Republic of the Congo.

/...

Over 2 years: Antigua and Barbuda, Barbados, Liberia, Marshall Islands, Mongolia, Thailand and Vanuatu.

(ii) Parties not operating under Article 5: None.

(e) Baseline data for Annex A substances for Parties operating under Article 5 - average of 1995 - 1997. The following Parties operating under Article 5 have not reported data for 1995, 1996 or 1997 and the Secretariat is therefore unable to determine their baseline for the phase-out of Annex A substances:

Antigua and Barbuda, Argentina, Bahamas, Bangladesh, Barbados, Benin, Bolivia, Bosnia and Herzegovina, Brazil, Burkina Faso, Burundi, Cameroon, Central African Republic, Chad, China, Congo, Democratic People's Republic of Korea, Democratic Republic of the Congo, Cote d'Ivoire, Cyprus, Dominican Republic, Ecuador, Ethiopia, Fiji, Gambia, Georgia, Grenada, Guatemala, Guinea, Guyana, Honduras, India, Indonesia, Iran (Islamic Republic of), Kenya, Kiribati, Lebanon, Lesotho, Liberia, Libyan Arab Jamahiriya, Malawi, Maldives, Mali, Marshall Islands, Micronesia (Federated States of), Mongolia, Mozambique, Myanmar, Namibia, Nepal, Niger, Nigeria, Pakistan, Papua New Guinea, Paraguay, Qatar, Republic of Moldova, Romania, Saint Kitts and Nevis, Saint Lucia, Samoa, Saudi Arabia, Slovenia, Sri Lanka, Sudan, Suriname, Swaziland, Syrian Arab Republic, Thailand, Togo, Trinidad and Tobago, Turkey, Tuvalu, Uganda, United Arab Emirates, United Republic of Tanzania, Vanuatu, Venezuela, Viet Nam, Yugoslavia, Zambia and Zimbabwe.

6. The following Parties are temporarily classified as operating under Article 5 of the Protocol: Belize, Burundi, Chad, Comoros, Democratic People's Republic of Korea, Grenada, Kiribati, Liberia, Madagascar, Marshall Islands, Micronesia (Federated States of), Mongolia, Suriname, Tonga, Tuvalu and Vanuatu.

7. Decision VI/5, paragraph (a), of the Sixth Meeting of the Parties, held on 6-7 October 1994, provides that:

"(ii) A country may only be classified temporarily as operating under Article 5 for a period of two years applicable from the time of adoption of the present decision. After this period, Article 5 status can no longer be extended without data reporting as required by the Protocol, unless the country has sought the assistance of the Executive Committee and the Implementation Committee. In this case, the extension period shall not exceed two years;"

"(iii) A developing country temporarily classified as operating under Article 5 would lose the status if it does not report base-year data as required by the Protocol within one year of the approval of its country programme and its institutional strengthening by the Executive Committee, unless otherwise decided by the Meeting of the Parties",

8. Liberia has been classified temporarily as an Article 5 Party for more than two years and has not yet reported data. It has also not sought the assistance of the Executive Committee of the Multilateral Fund or the Implementation Committee. It is thus liable to lose the status of operating under Article 5 of the Protocol.

9. Of the Parties temporarily classified as Article 5, for which country programmes have been approved by the Executive Committee, the Democratic People's Republic of Korea has not yet submitted its

/...

base-year data although more than one year has passed since the approval. It is thus liable to lose the status of operating under Article 5 of the Protocol.

10. The Tenth Meeting of the Parties may wish to consider the situation of the Democratic People's Republic of Korea and Liberia in light of decision VI/5, paragraph (a).

IV. REPORTING OF DATA FOR 1996

11. All Parties are required by Article 7 to report to the Secretariat the data for each year. In accordance with Article 7, paragraph 4, States members of the European Community are required to report to the Secretariat only the data on production of controlled substances. The Community-wide consumption data are reported by the European Community.

12. An analysis of the data reported by the Parties under Article 7 of the Protocol for the year 1996 is attached as annex I to the present report. Of the 163 Parties required to report, 135 Parties (94 Article 5 and 41 non-Article 5) have reported data. The symbol "N.R." has been used throughout the annex to indicate non-reporting by a Party.

13. The Parties operating under Article 5 that did not report data for 1996 are: Antigua and Barbuda, Bangladesh, Bosnia and Herzegovina, Chad, Congo, Democratic People's Republic of Korea, Democratic Republic of the Congo, Grenada, Guatemala, Kiribati, Liberia, Libyan Arab Jamahiriya, Madagascar, Maldives, Marshall Islands, Micronesia (Federated States of), Mongolia, Nepal, Nigeria, Samoa, Saudi Arabia, Solomon Islands, Togo, Tuvalu, Vanuatu, Yugoslavia and Zambia. Of the Parties that have not reported data for 1996, Bangladesh, Chad, Congo, Democratic People's Republic of Korea, Guatemala, Maldives, Nigeria, Samoa, Togo, Yugoslavia and Zambia have country programmes approved by the Executive Committee. Funds allocated to these Parties by the Multilateral Fund total \$10.5 million, and funds actually disbursed by the Fund to these Parties, as at March 1998, exceed \$3 million.

14. The Secretariat has checked the status of ODS data-reporting for the years 1986-1996 and sent reminders regarding missing data to all the Parties concerned. Thirty-five Parties not operating under Article 5 and 67 Parties operating under Article 5 have fully complied with the ODS reporting requirements under Article 7 of the Protocol. A list of these Parties is presented in annex XI below. However, the following seven Parties have never reported any ODS data for the years 1986-1997: Kiribati, Democratic People's Republic of Korea, Liberia, Marshall Islands, Micronesia (Federated States of), Tuvalu and Vanuatu. The following 11 Parties have not reported ODS data for the years 1995-1997: Antigua and Barbuda, Bangladesh, Bosnia and Herzegovina, Burundi, Grenada, Libyan Arab Jamahiriya, Madagascar, Mongolia, Saudi Arabia, Solomon Islands and Yugoslavia.

V. REMARKS ON THE DATA SUBMITTED

15. In the present report, both production and consumption figures are weighted with the ozone-depleting potential of the substances. The figures analysed in the present section are for the calendar year January-December 1996.

16. Parties not operating under Article 5 that have reported data for 1996 show an average reduction of 95 per cent in production of chlorofluorocarbons (CFCs), 100 per cent in halon production, 104 per cent in the production of other fully halogenated CFCs, 109 per cent in the production of carbon tetrachloride, 98 per cent in the production of methyl chloroform and 4 per cent in the production of methyl bromide.

/...

Production of hydrochlorofluorocarbons (HCFCs) shows an increase of 120 per cent. In the same period, these Parties reduced consumption of CFCs by almost 97 per cent, halons by 99 per cent, other fully halogenated CFCs by 100 per cent, carbon tetrachloride by 100 per cent, methyl chloroform by 100 per cent and methyl bromide by 14 per cent. Consumption of HCFCs has increased by 69 per cent compared to the 1989 consumption (see annex X below).

17. Eight Parties operating under Article 5 (Argentina, Brazil, China, India, Mexico, Republic of Korea, Romania and Venezuela) reported data on production for 1996. The production of CFCs went up by 146 per cent, halons by 302 per cent and HCFCs by 71 per cent. There was no reported production of other fully halogenated CFCs and methyl bromide either for 1996 or the base years. The production of carbon tetrachloride was reduced by 154 per cent and methyl chloroform by 87 per cent. In the same period, Parties operating under Article 5 increased consumption of CFCs by 22 per cent, halons by 17 per cent, other fully halogenated CFCs by 44 per cent, HCFCs by 109 per cent compared to the 1989 HCFC consumption (see annex X below) and methyl bromide by 89 per cent. Consumption of carbon tetrachloride was reduced by 66 per cent and methyl chloroform by 50 per cent. It is noteworthy that of the Parties operating under Article 5 that have reported data for 1996, 49 Parties have reported zero consumption of halons and carbon tetrachloride, and 47 Parties have reported zero consumption of methyl chloroform.

18. Overall, the Parties (Article 5 and non-Article 5) that reported data for 1996 decreased production of CFCs by 85 per cent, halons by 77 per cent, other fully halogenated CFCs by 104 per cent, carbon tetrachloride by 122 per cent, methyl chloroform by 98 per cent and methyl bromide by 4 per cent. Only the production of HCFCs was increased by 115 per cent.

19. The data also show the overall consumption of CFCs to have decreased by 84 per cent, halons by 79 per cent, other fully halogenated CFCs by 97 per cent, carbon tetrachloride by 89 per cent, methyl chloroform by 96 per cent, compared to 1986. The consumption of HCFCs declined by 40 per cent compared to the 1989 baseline (1989 HCFC consumption plus 2.8 per cent of 1989 CFC consumption). The consumption of methyl bromide declined by 5 per cent.

20. Figure 1 and figure 2 on pages 15 and 16 below show the changes in the production of CFCs and halons between 1986, 1995 and 1996, but only for those Parties that have reported data for all three years. In 1996, Parties operating under Article 5 had increased production of CFCs by 64,718 tonnes, from 44,338 tonnes in 1986 to 109,056 tonnes and increased production of halons by 40,024 tonnes, from 11,200 tonnes in 1986 to 51,224 tonnes. The production of CFCs in these Parties has increased marginally from 1995 to 1996. In the same period, Parties not operating under Article 5 decreased production of CFC by 853,983 tonnes, from 904,596 in 1986 tonnes to 50,613 tonnes in 1996 and the production of halons decreased from 109,926 tonnes to 909 tonnes. Figure 3 and figure 4 on pages 17 and 18 below show the changes in the consumption of CFC and halons between 1986, 1995 and 1996. In 1996, Parties operating under Article 5 increased the consumption of CFC by 36,429 tonnes, from 115,049 tonnes in 1986 to 151,478 tonnes in 1996 and increased consumption of halons by 12,362 tonnes, from 29,864 tonnes to 42,226 tonnes. However, the consumption of CFCs in these Parties decreased from 1995 to 1996. In the same period, Parties not operating under Article 5 decreased consumption of CFCs by 904,927 tonnes, from 928,280 tonnes, in 1986 to 23,353 tonnes in 1996, and the consumption of halons by 155,280 tonnes from 156,276 tonnes to 996 tonnes. Figure 5 and figure 6 on pages 19 and 20 below show the production and consumption patterns of CFCs by regions in 1986, 1995 and 1996, and figure 7 and figure 8 on pages 21 and 22 below show the same information for the halons.

21. The Secretariat analysed the data for production and consumption for all Parties with reference to the control measures applicable for 1996. Where the data appears to indicate non-compliance with the control measures, the Parties concerned have been contacted for clarification. In most cases the deviations

/...

are accounted for by approved essential uses or increased production for meeting the basic domestic needs of the Parties operating under Article 5.

22. Table 1 shows all the cases of deviation from the consumption reduction schedules as revealed by the data submitted. At its twentieth meeting in Geneva on 6-7 July 1998, the Implementation Committee, considered the cases contained in table 1 and requested further information as regard to phase-out plans and phase-out benchmarks to be submitted to the Secretariat by 30 September 1998. As at 10 September, no further information has been received by the Secretariat from the Parties concerned.

23. There follows a summary of information regarding compliance, phase-out plans, phase-out benchmarks and financial support with respect to the Parties listed in table 1:

(a) Azerbaijan:

- ODS data reports: 1986-1996 - all data reported; 1997 - data not reported;
- Ratification of the London Amendment: 12 June 1996;
- Country programme, including phase-out plans and phase-out benchmarks in preparation;
- Financial support: \$325,000 approved by the Global Environment Facility (GEF);

(b) Belarus:

- ODS data reports: 1986-1996 - all data reported; 1997 - data not reported;
- Ratification of the London Amendment: 10 June 1996;
- Country programme: draft prepared by COWIconsult, submitted May 1995, does not contain a phase-out plan or phase-out benchmarks;
- Financial support: \$6,900,000 approved by GEF in May 1997;
- Decisions of the Parties specific to Belarus: VII/17, on compliance with the Montreal Protocol by Belarus;

(c) Czech Republic:

- ODS data reports: 1986-1996 - all data reported; 1997 - data not reported;
- Ratification of the London Amendment: 18 December 1996;
- Country programme: completed March 1997, including phase-out plan as per the Montreal Protocol schedule;
- Financial support: \$2,300,000 approved by GEF in August 1994;
- Decisions of the Parties specific to the Czech Republic: VIII/24, on non-compliance with halon phase-out by 1994; IX/32, on non-compliance with the freeze on consumption of

/...

methyl bromide in 1995;

(d) Estonia:

- ODS data reports: 1986-1996 - reported data only for 1995 and 1996; data for 1997 not reported;
- Not yet ratified the London Amendment;
- Country programme including phase-out plan and benchmarks in preparation;
- Financial support: \$245,000 allocated by GEF in February 1997;

(e) Latvia:

- ODS data reports: 1986-1996 - all data reported; 1997 data not reported;
- Not yet ratified the London Amendment;
- Country programme submitted March 1997, including a plan for phase-out by the year 2000 but no phase-out benchmarks.
- Financial support: \$1,350,000 allocated by GEF;
- Decisions of the Parties specific to Latvia: VIII/22 and IX/29, on compliance with the Montreal Protocol by Latvia;

(f) Lithuania:

- ODS data reports: 1986-1996 - all data reported; 1997 data not reported;
- Not yet ratified the London Amendment;
- Country programme submitted March 1997, including a plan for phase-out by the year 2000 but no phase-out benchmarks;
- Financial support: \$4,420,000 allocated by GEF;
- Decisions of the Parties specific to Lithuania: VIII/23 and IX/30, on compliance with the Montreal Protocol by Lithuania;

(g) Russian Federation:

- ODS data reports: 1986-1996 - all data reported; 1997 data not reported;
- Ratification of the London Amendment on 13 January 1992;
- Country programme submitted in October 1995, including a phase-out plan and phase-out benchmarks, corrected in November 1995, for production of Annex A, Group I substances;

/...

- Financial support: \$34,600,000 approved by GEF in two tranches in May 1995 and April 1996;
- Decisions of the Parties specific to the Russian Federation: VII/18, VIII/25 and IX/31, on compliance with the Montreal Protocol by the Russian Federation;
- Data reported for 1996 indicates that the Russian Federation has reduced production of Annex A, Group I substances to 16,770 ODP tonnes and thus it conforms with the phase-out benchmark of production of 28,000 ODP tonnes for 1996 it has provided;

(h) Ukraine:

- ODS data reports: 1986-1996 - data for 1989, 1990 and 1991 is missing; data for 1997 not reported;
- Ratification of the London Amendment on 6 February 1997;
- Country programme, including phase-out plan and phase-out benchmarks, in preparation;
- Financial support: \$22,858,000 approved by GEF;
- Decision by the Parties specific to Ukraine: VII/19, on compliance with the Montreal Protocol by Ukraine;

(i) Uzbekistan:

- ODS data reports: 1986-1996 - all data reported; 1997 data not reported;
- Ratification of the London Amendment on 10 June 1998;
- Country programme submitted by June 1998, including a plan for phase-out by the year 2000 but no phase-out benchmarks;
- Financial support: \$348,000 approved by GEF in October 1995.

24. The Parties may wish to consider the situation of Azerbaijan, Czech Republic, Belarus, Estonia, Latvia, Lithuania, Russian Federation, Ukraine and Uzbekistan in light of the control measures provided in the Montreal Protocol in Articles 2A, 2B, 2C, 2D, 2E, 2F and 2H.

Table 1

Deviation from the consumption reduction schedules by Parties in 1996

Party	Substances					
	A/I	A/II	B/I	B/II	B/III	E/I
Reduction required	-100%	-100%	-100%	-100%	-100%	Freeze
Azerbaijan	-5%	-85%			-50%	

/...

Belarus	-79%	-91%	-65%	-69%	-45%	
Czech Republic*	-99%					
Estonia					+150%	
Latvia	-95%			-17%		
Lithuania	-95%	-98%	+238%	-93%	-97%	
Russian Federation	-88%	-97%	-95%	-99%		Increase
Ukraine	-70%	-75%	-92%	Increase	Increase	Increase
Uzbekistan	-39%			Increase	Increase	

* Note. Partially accounted for under the global exemption for laboratory and analytical uses. The Czech Republic also claimed essential uses, but as it did not obtain essential-use approval from the Parties, there is a case of non-compliance.

25. Table 2 shows all cases of deviation from production schedules as revealed by the data submitted. The situation of the Parties listed in table 2 was a subject of review of by the Implementation Committee at its twentieth meeting, and no reference is made with respect to recommendations by the Implementation Committee to each of the Parties concerned.

Table 2

Deviation from production reduction schedules by Parties in 1996

Party	Substances					
	A/I	A/II	B/I	B/II	B/III	E/I
Reduction required	-100%	-100%	-100%	-100%	-100%	Freeze
Czech Republic*	-99%					
Russian Federation	-84%	-97%	93%	99%		
Ukraine				Increase		Increase

* Note. Deviation accounted for by essential uses that were not approved by the Parties.

26. A comparison of the production, import and export of substances by the Parties that have reported data for both the base years and 1996 is attached to the present report as annex II. The total exports of ODSs from Parties operating under Article 5 has increased from 49,299 tonnes to 58,101 tonnes, while the total exports of Parties not operating under Article 5 decreased from 438,674 tonnes to 73,398 tonnes between 1996 and the base years. The total imports of ODSs to Parties operating under Article 5 increased from 138,415 tonnes to 174,158 tonnes, while the imports of Parties not operating under Article 5 decreased from 278,199 tonnes to 43,777 tonnes between the base years and 1996.

27. Exports of CFCs (Annex A, Group I substances) from the Parties operating under Article 5 had increased in 1996 by 665 per cent compared to 1986 and exports of halons (Annex A, Group II substances) by 853 per cent. These large increases are accounted for by increased exports of CFCs from seven Parties, and by increased exports of halons from one Party. At the same time, exports of CFCs from the Parties not operating under Article 5 have decreased by 80 per cent and exports of halons have decreased by 100 per cent.

28. Imports of CFCs to the Parties operating under Article 5 amounted to 90 per cent of the total imports, but exports from these Parties amounted to only 43 per cent of the total exports. This indicates that the needs of the Parties operating under Article 5 were satisfied in 1996 also by exports from Parties not operating under Article 5. The total quantity of CFCs exported in 1996 closely matches the total quantity imported. It is noteworthy that total exports of halons reported in 1996 were 53 per cent larger than the total imports (see annex III below). Also noteworthy is the large total quantity of used halons imported in 1996 by two Parties compared to the small quantity of total halons exported that year by three Parties. One Party that has reported an export of a large quantity of new halons has also reported that most of its enterprises did not report separately data on new and recycled halons.

29. Exports of carbon tetrachloride from Parties operating under Article 5 decreased by 90 per cent compared to the base year and exports from Parties not operating under Article 5 have decreased by 56 per cent. The negative production quantities reported for carbon tetrachloride in Annex II to the report reflect the intensive use of carbon tetrachloride as feedstock: In 1996, 389,125 ODP tonnes were used globally for feedstock, compared to a net production of only 323,432 ODP tonnes.

30. Exports of methyl chloroform (Annex B, Group III substance) from Parties operating under Article 5 have decreased in 1996 by 81 per cent compared to the base year, and exports from Parties not operating

/...

under Article 5 have decreased by 92 per cent.

31. Exports of methyl bromide (Annex E substance) have been reported by only nine Parties not operating under Article 5, and increased in 1996 by 8 per cent compared to the base year. The total quantity of imports of methyl bromide reported closely matches the total quantity of exports reported.

32. The following Parties have reported on the types and quantities of Annex A and Annex B substances they exported in 1996 and their destinations, as provided by decision VII/9, paragraph 4: Croatia, Czech Republic, Estonia, France, Hungary, Italy, Lithuania, Netherlands, Norway, Poland, Republic of Korea, Romania, Russian Federation, Slovenia and United States of America. The following Parties have reported on the types and quantities of exports of Annex A and B substances but not on the destination of the exports: Argentina, Austria, Brazil, Canada, China, European Community, Fiji, India, Japan, Latvia, Mauritius, Mexico, Singapore, Turkey and Venezuela. Forty-five other Parties have reported that they do not export any Annex A or Annex B substances.

33. The following Parties reported data on annual imports and exports of used and recycled ODS for 1996: Canada, Croatia, European Community, Iceland, Israel, Lithuania, Norway, Poland, Russian Federation, Switzerland and United States of America (see annex IV to this report). None of these Parties have provided any information on the origin of the imports or destination of the exports. However, all Parties that have reported exports of used and recycled ODS have also reported on their recycling facilities.

34. Parties that have submitted data regarding the global essential-use exemption for laboratory and analytical uses in 1996 are listed in annex V. The United States America has also submitted, as provided in paragraph 4 of annex II to the report of the Sixth Meeting of the Parties, a detailed report on the application, specific test standards or procedures requiring the use of ODS and published instructions, standards, specifications and regulations requiring the use of ODS, as are relevant to the United States of America.

35. In its decision VIII/9, paragraph 9, the Eighth Meeting of the Parties requested each of the Parties that had essential-use exemptions granted for previous years, to submit at the beginning of 1998, their report in a format approved at the meeting, by 31 January of each year.

36. According to the information submitted to the Secretariat and the 1998 of the Technology and Economic Assessment Panel report, the following Parties submitted their reporting account for 1996: Australia, Canada, Czech Republic, European Community, Hungary, Israel, Japan, Poland, Russian Federation, Switzerland and United States. The essential use exemption for Czech Republic was not approved by the Parties.

37. The following Parties submitted their reporting account for 1997: Australia, Canada, Hungary, Japan, Poland and Switzerland. Four Parties did not submit their reporting account for 1997.

38. Annex VI to the present report provides an analysis of data on 1996 ODS production and consumption in five regions (Africa, Asia, Eastern Europe, Latin America and the Caribbean and Western Europe and Others) for groups of substances as compared to the base years. Consumption of CFCs in Asia was 60.3 per cent of global consumption, 19.3 per cent in Latin America and the Caribbean, 10.4 per cent in Eastern Europe, 5.1 per cent in Africa and 5.0 per cent in Western Europe and Others. Production of CFCs in Asia was 53.8 per cent, 20.8 per cent in Western Europe and Others, 15.9 per cent in Latin America and the Caribbean, 10.5 per cent in Eastern Europe and 0 per cent in Africa. Halons are produced in Asia (98.0 per cent) and in East Europe (2.0 per cent) and consumption is 92.3 per cent in Asia, 3.5 per cent in Eastern Europe, 2.6 per cent in Africa, 1.5 per cent in Latin America and the Caribbean and 0 per cent in Western Europe and Others.

VI. DATA FOR THE YEAR 1995

39. The 1995 data were analysed and placed before the Ninth Meeting of the Parties in 1997. Since then, more data have been received from the Parties. In total, 136 Parties (97 operating under Article 5 and 39 not operating under Article 5) have reported, out of the 152 Parties required to report. Annex VII to the present report contains an analysis of the updated 1995 data.

40. Parties not operating under Article 5 that reported data for 1995 showed an average reduction in production of CFCs of 86 per cent, halons of 99 per cent, other fully halogenated CFCs, of 103 per cent, carbon tetrachloride of 97 per cent, methyl chloroform, of 86 per cent and methyl bromide of 7 per cent. The same Parties increased production of HCFCs by 106 per cent. Consumption of CFCs was reduced by 90 per cent, halons by 99 per cent, other fully halogenated CFCs by 98 per cent, carbon tetrachloride by 114 per cent, methyl chloroform by 83 per cent and methyl bromide by 2 per cent. HCFC consumption increased by 94 per cent compared to 1989 consumption (see annex X).

41. Parties operating under Article 5 that reported data for 1995 showed an average increase in the production of CFCs of 145 per cent and halons of 266 per cent. There was no reported production of other fully halogenated CFCs, just as in 1989. Production of HCFCs increased by 68 per cent, methyl bromide by 159 per cent, while production of carbon tetrachloride was reduced by 160 per cent and methyl chloroform by 88 per cent. The same Parties increased consumption of CFCs by 44 per cent, halons by 2 per cent, but the consumption of carbon tetrachloride was reduced by 65 per cent and methyl chloroform by 37 per cent. Consumption of other fully halogenated CFCs increased by 582 per cent, methyl bromide by 123 per cent and HCFCs by 120 per cent compared to 1989 HCFC consumption (see annex X).

42. Overall, the Parties (Article 5 and non-Article 5) that reported data for 1995 showed a reduction in the production of CFCs of 78 per cent, halons of 79 per cent, other fully halogenated CFCs of 106 per cent, carbon tetrachloride of 114 per cent, methyl chloroform of 83 per cent and methyl bromide of 8 per cent. Production of HCFCs increased by 99 per cent.

43. Consumption of ODS by all Parties (Article 5 and non-Article 5) that reported data for 1995 showed an overall decrease in CFCs of 76 per cent, halons of 81 per cent, other fully halogenated CFCs of 87 per cent, carbon tetrachloride of 98 per cent and methyl chloroform of 75 per cent. Consumption of HCFC increased by 31 per cent compared to 1989 consumption (see annex X) and methyl bromide increased by 5 per cent.

VII. DATA FOR THE YEAR 1997

44. All Parties are required by Article 7 to the Protocol to report to the Secretariat the data for 1997 by the end of September 1998. Only 44 Parties have so far done so, 40 Parties operating under Article 5 (Algeria, Bahrain, Belize, Botswana, Brunei Darussalam, Cameroon, Chile, Colombia, Comoros, Costa Rica, Croatia, Dominica, Egypt, El Salvador, Ethiopia, Gabon, Gambia, Ghana, Jamaica, Jordan, Kuwait, Malaysia, Malta, Mauritania, Mauritius, Mexico, Morocco, Myanmar, Nepal, Nicaragua, Panama, Peru, Philippines, Senegal, Seychelles, Singapore, The former Yugoslav Republic of Macedonia, Tunisia, Uruguay and Yemen), and four Parties not operating under Article 5 (Bulgaria, Hungary, Luxembourg and Monaco). Annex VIII to the present report contains an analysis of the 1997 data.

45. For Parties operating under Article 5, the consumption baseline data for Annex A substances is

/...

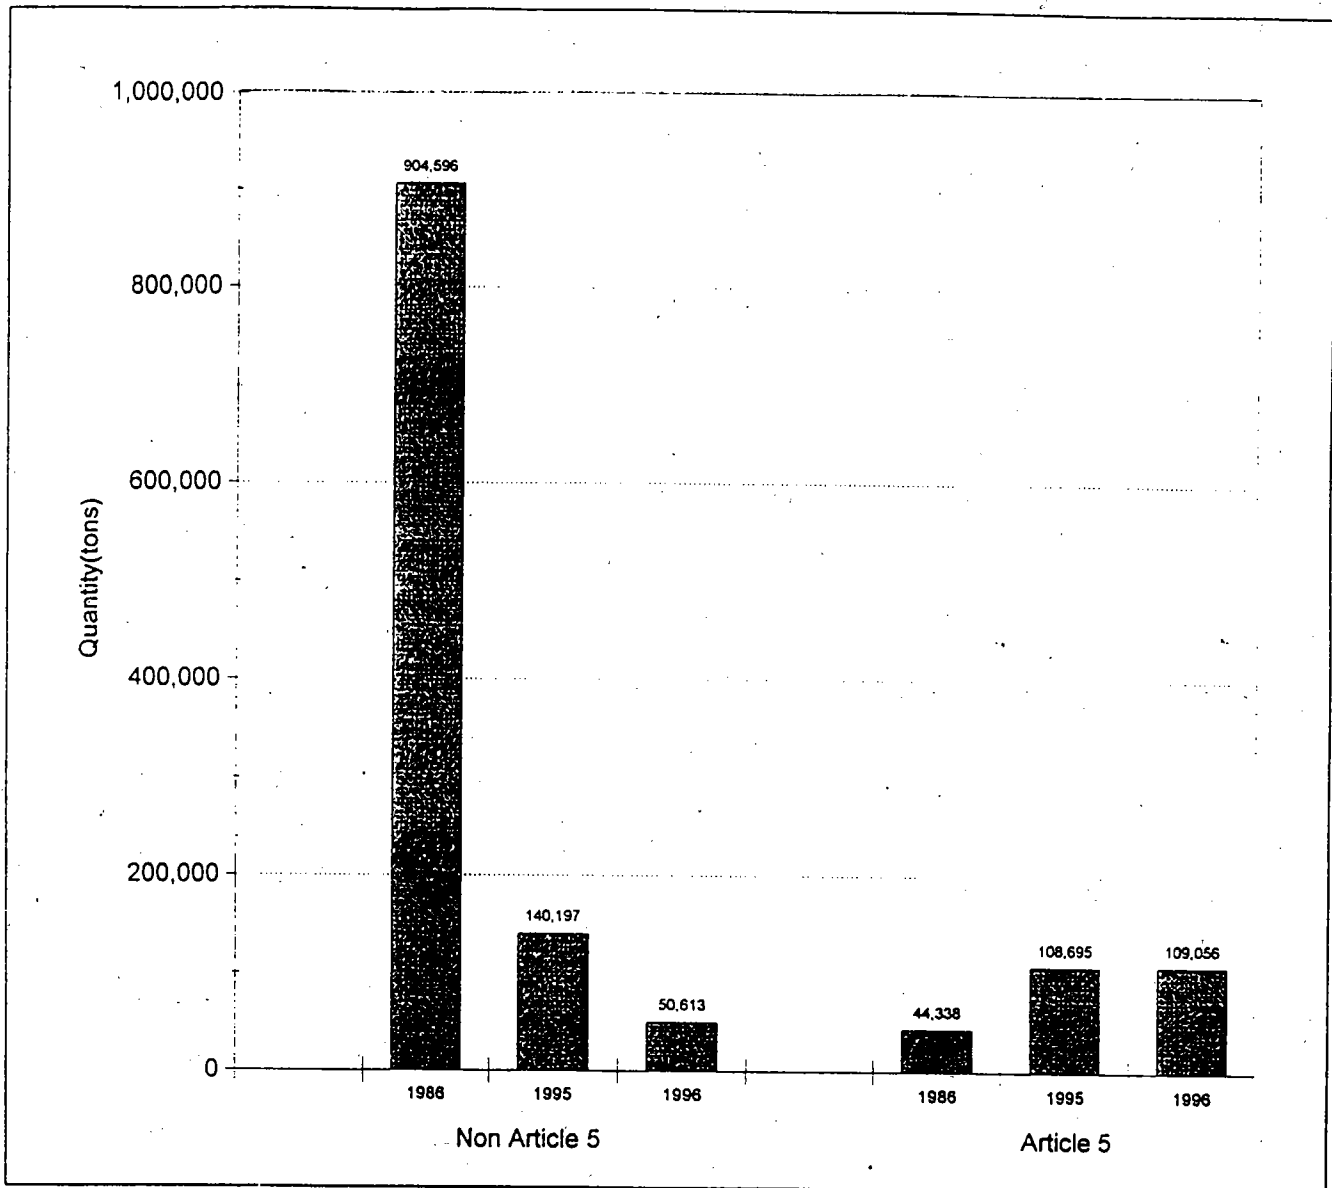

their average annual consumption over the period 1995 to 1997. Annex IX to the present report presents the consumption baseline data for Annex A substances for all Parties operating under Article 5 that have reported data for 1995, 1996 and 1997.

VIII. HCFC CONSUMPTION FOR 1989

46. Annex X to the present report provides the 1989 base-year consumption for each Party operating under Article 5 of the Protocol without adding 2.8 per cent of the 1989 calculated consumption of CFCs as required under paragraph 1 (a) of Article 2F of the Protocol. The formula given in that paragraph has been used in the calculation of HCFC baseline consumption data reported for 1995 and 1996 annexed to this report for both Parties not operating under Article 5 and Parties operating under Article 5.

1996 DATA FOR NON-ARTICLE 5 PARTIES

Key

- AI - Substances of Annex A, Group I (CFCs)
 AII - Substances of Annex A, Group II (Halons)
 BI - Substances of Annex B, Group I (Other Halogenated CFCs)
 BII - Substance of Annex B, Group II (Carbon Tetrachloride)
 BIII - Substance of Annex B, Group III (Methyl Chloroform)
 CI - Substances of Annex C, Group I (HCFCs). The base consumption is 1989 calculated consumption of HCFCs plus 2.8% of 1989 calculated consumption of substances of Annex A, Group I.
 CII - Substances of Annex C, Group II (HBFCs)
 EI - Substance of Annex E, Group I (Methyl Bromide)

Both production and consumption figures are multiplied by ozone depleting potential (ODP).

1996 DATA FOR ARTICLE 5 PARTIES

Key

- AI - Substances of Annex A, Group I (CFCs)
 AII - Substances of Annex A, Group II (Halons)
 BI - Substances of Annex B, Group I (Other Halogenated CFCs)
 BII - Substance of Annex B, Group II (Carbon Tetrachloride)
 BIII - Substance of Annex B, Group III (Methyl Chloroform)
 CI - Substances of Annex C, Group I (HCFCs). The base consumption is 1989 calculated consumption of HCFCs plus 2.8% of 1989 calculated consumption of substances of Annex A, Group I.
 CII - Substances of Annex C, Group II (HBFCs)
 EI - Substance of Annex E, Group I (Methyl Bromide)

Both production and consumption figures are multiplied by ozone depleting potential (ODP).

1995 DATA FOR NON-ARTICLE 5 PARTIES

Key

- AI - Substances of Annex A, Group I (CFCs)
 AII - Substances of Annex A, Group II (Halons)
 BI - Substances of Annex B, Group I (Other Halogenated CFCs)
 BII - Substance of Annex B, Group II (Carbon Tetrachloride)
 BIII - Substance of Annex B, Group III (Methyl Chloroform)
 CI - Substances of Annex C, Group I (HCFCs). The base consumption is 1989 calculated consumption of HCFCs plus 2.8% of 1989 calculated consumption of substances of Annex A, Group I.
 CII - Substances of Annex C, Group II (HBFCs)
 EI - Substance of Annex E, Group I (Methyl Bromide).

Both production and consumption figures are multiplied by ozone depleting potential (ODP).

1995 DATA FOR NON-ARTICLE 5 PARTIES

Key

- AI - Substances of Annex A, Group I (CFCs)
 AII - Substances of Annex A, Group II (Halons)
 BI - Substances of Annex B, Group I (Other Halogenated CFCs)
 BII - Substance of Annex B, Group II (Carbon Tetrachloride)
 BIII - Substance of Annex B, Group III (Methyl Chloroform)
 CI - Substances of Annex C, Group I (HCFCs). The base consumption is 1989 calculated consumption of HCFCs plus 2.8% of 1989 calculated consumption of substances of Annex A, Group I.
 CII - Substances of Annex C, Group II (HBFCs)
 EI - Substance of Annex E, Group I (Methyl Bromide)

Both production and consumption figures are multiplied by ozone depleting potential (ODP).

1997 DATA FOR NON-ARTICLE 5 PARTIES

Key

- AI - Substances of Annex A, Group I (CFCs)
 AII - Substances of Annex A, Group II (Halons)
 BI - Substances of Annex B, Group I (Other Halogenated CFCs)
 BII - Substance of Annex B, Group II (Carbon Tetrachloride)
 BIII - Substance of Annex B, Group III (Methyl Chloroform)
 CI - Substances of Annex C, Group I (HCFCs). The base consumption is 1989 calculated consumption of HCFCs plus 2.8% of 1989 calculated consumption of substances of Annex A, Group I.
 CII - Substances of Annex C, Group II (HBFCs)
 EI - Substance of Annex E, Group I (Methyl Bromide)

Both production and consumption figures are multiplied by ozone depleting potential (ODP).

Annex XI

LIST OF PARTIES THAT HAD FULLY COMPLIED WITH THE REPORTING
REQUIREMENTS UNDER ARTICLE 7 AS OF 31 DECEMBER 1996

Non-Article 5 Parties

1. Austria
2. Azerbaijan
3. Belarus
4. Belgium
5. Bulgaria
6. Canada
7. Czech Republic
8. Denmark
9. European Community
10. Estonia
11. Finland
12. France
13. Germany
14. Greece
15. Hungary
16. Iceland
17. Ireland
18. Israel
19. Italy
20. Latvia
21. Liechtenstein
22. Lithuania
23. Luxembourg
24. Monaco
25. Norway
26. Poland
27. Portugal
28. Russian Federation
29. Slovakia
30. Spain
31. Sweden
32. Switzerland
33. United Kingdom of
Great Britain and
Northern Ireland
34. United States of
America
35. Uzbekistan

Article 5 Parties

1. Algeria
2. Argentina
3. Bahrain
4. Benin
5. Belize
6. Bolivia
7. Botswana
8. Brunei Darussalam
9. Burkina Faso
10. China
11. Cameroon
12. Central African Republic
13. Colombia
14. Costa Rica
15. Côte d'Ivoire
16. Croatia
17. Cuba
18. Dominican Republic
19. Ecuador
20. Egypt
21. El Salvador
22. Ethiopia
23. Gabon
24. Ghana
25. Gambia
26. Georgia
27. Guyana
28. Indonesia
29. Iran
30. Jamaica
31. Kenya
32. Kuwait
33. Lebanon
34. Lesotho
35. Macedonia
36. Malaysia
37. Mali
38. Malta
39. Mauritius
40. Mexico
41. Mozambique
42. Namibia
43. Niger
44. Pakistan
45. Panama
46. Philippines
47. Peru
48. Republic of Korea
49. Romania
50. Saint Kitts and
Nevis
51. Saint Vincent and
the Grenadines
52. Senegal
53. Seychelles
54. Sudan
55. Swaziland
56. Syrian Arab
Republic
57. South Africa
