**Fourteenth Meeting of the Parties to
the Montreal Protocol on
Substances that Deplete
the Ozone Layer**

Rome, 25 - 29 November 2002

Item 4 (d) of the annotated provisional agenda of the preparatory segment*

Discussion on issues relating to the Montreal Protocol: Reporting of data**INFORMATION PROVIDED BY THE PARTIES IN ACCORDANCE WITH ARTICLE 7 OF THE
MONTREAL PROTOCOL ON SUBSTANCES THAT DEplete THE OZONE LAYER****Report of the secretariat****Introduction**

1. The present report contains information received by the Secretariat, as of 18 October 2002, pursuant to Article 7 of the Montreal Protocol on Substances that Deplete the Ozone Layer.

2. Article 7 of the Montreal Protocol specifies as follows:

(a) That for base-year data,** “Each Party shall provide to the Secretariat, within three months of becoming a Party, statistical data on its production, imports and exports of each of the controlled substances in Annex A for the year 1986 ... Annexes B and ... C for the year 1989 [and] Annex E for the year 1991, or the best possible estimates of such data where actual data are not available ...”;

(b) That for annual data, “Each Party shall provide to the Secretariat statistical data on its annual production (as defined in paragraph 5 of Article 1) of each of the controlled substances listed in Annexes A, B, C and E and, separately for each substance, amounts used for feedstocks, amounts destroyed by technologies approved by the Parties, and imports from and exports to Parties and non-Parties respectively, for the year during which provisions concerning the substances in Annexes A, B, C, and E respectively

* UNEP/OzL.Pro/14/1

** In the present report, the “base year” means the first year for which Parties are required to report data for a particular substance. The term “baseline” means the level of production/consumption used as the basis for the phase-out schedules. For example, for Article 5 Parties, 1986 is the base year for Annex A substances, while the average of the 1995-1997 production/consumption levels constitutes the baseline for the control measures. Similarly, 1989 is the base year for non-Article 5 Parties for HCFCs, whereas the baseline is equal to the 1989 HCFC consumption plus 2.8 per cent of the 1989 CFC consumption.

K0263066 111102

For reasons of economy, this document is printed in a limited number. Delegates are kindly requested to bring their copies to meetings and not to request additional copies.

entered into force for that Party and for each year thereafter ... Data shall be forwarded not later than nine months after the end of the year to which the data relate”;

(c) That for annual data on recovered substances, “Each Party shall provide to the Secretariat separate statistical data on its annual imports and exports of each of the controlled substances listed in Group II of Annex A and Group I of Annex C that have been recycled”.

3. Throughout the present report and its appendices, negative values for calculated production imply that quantities destroyed or export for feedstock uses exceeded production for that year. Similarly, negative values for calculated consumption indicate that exports for the year exceeded production and imports.

4. The following are annexed to the present report.

Appendix I (A, B and C)	2000 analysis of data on production and consumption, by groups of substances
Appendix II (A and B)	2000/2001 comparison of production, import and export of substances
Appendix III (A and B)	2000/2001 import and export of new and recovered substances
Appendix IV (A and B)	Recovered ODS imported and exported by parties in 2000/2001
Appendix V (A and B)	2000/2001 data reported for laboratory and analytical uses
Appendix VI (A and B)	Summary by region – 2000/2001 analysis of data on production and consumption
Appendix VII (A, B and C)	1999 analysis of data on production and consumption, by groups of substances
Appendix VIII (A, B and C)	2001 analysis of data on production and consumption, by groups of substances
Appendix IX (A and B)	CFCs and Halons (Annex A) consumption/production baseline for Article 5 Parties
Appendix X (A and B)	Methyl Bromide (Annex E) consumption/production baseline data for Article 5 parties
Appendix XI	HCFCs (Annex C) production and consumption baseline data for non-article 5 parties
Appendix XII	Parties that have fully complied with reporting requirements for the period 1986 to 2001
Appendix XIII	Annex B production and consumption baseline data for Article 5 parties
Appendix XIV	Parties which have requested revision of baseline data

A. Status of ratification of the Montreal Protocol and its London, Copenhagen, Montreal and Beijing Amendments

5. As of 18 October 2002, 183 Parties had ratified the Montreal Protocol, 163 had ratified the London Amendment, 141 had ratified the Copenhagen Amendment, 84 had ratified the Montreal Amendment and 38 had ratified the Beijing Amendment.

B. Status of reporting of the base-year and baseline data

6. The Secretariat has analysed the submissions of base-year and baseline data from the Parties. The following Parties which are required to report have not reported such data.

7. Base-year (1986) data for Annex A substances:

(a) Article 5 Parties:

- (i) Overdue by 6 months to 1 year: Nauru and Sao Tome and Principe;
 - (ii) Overdue by 1 to 2 years: Cambodia, Cape Verde, Palau, Rwanda, Sierra Leone and Somalia;
 - (iii) Overdue by over 2 years: Albania, Angola, Democratic Republic of the Congo, Djibouti, Federated States of Micronesia, Haiti, Liberia, Libyan Arab Jamahiriya, Nigeria, Oman, Suriname, Tonga and Vanuatu;
 - (b) Non-Article 5 Parties: None.
8. Base-year (1989) data for Annex B substances (for Parties that have ratified the London Amendment):
- (a) Article 5 Parties:
 - (i) Overdue by 6 months to 1 year: Federated States of Micronesia, Honduras, Madagascar and Sao Tome and Principe;
 - (ii) Overdue by 1 to 2 years: Cape Verde, Libyan Arab Jamahiriya, Moldova, Nigeria, Palau, Sierra Leone, Somalia and Yemen;
 - (iii) Overdue by over 2 years: Democratic Republic of the Congo, Djibouti, Haiti, Liberia, Marshall Islands, Oman, Paraguay, Togo and Vanuatu;
 - (b) Non-Article 5 Parties: None.
9. Base-year (1989) data for Annex C, Group I – HCFCs (for Parties that have ratified the London Amendment):
- (a) Article 5 Parties:
 - (i) Overdue by 6 months - 1 year: Federated States of Micronesia, Honduras, Madagascar and Sao Tome and Principe;
 - (ii) Overdue by 1-2 years: Cape Verde, Libyan Arab Jamahiriya, Moldova, Nigeria, Palau, Sierra Leone, Somalia and Yemen;
 - (iii) Overdue by over 2 years: Democratic Republic of the Congo, Djibouti, Haiti, Liberia, Marshall Islands, Oman, Paraguay, Togo and Vanuatu;
 - (b) Non-Article 5 Parties: None.
10. Base-year (1991) data for Annex E substance (for Parties that have ratified the Copenhagen Amendment):
- (a) Article 5 Parties;
 - (i) Overdue by 6 months to 1 year: Federated States of Micronesia, Madagascar and Sao Tome and Principe;
 - (ii) Overdue by 1 to 2 years: Cape Verde, Nigeria, Palau, Sierra Leone, Somalia and Yemen;
 - (iii) Overdue by over 2 years: Djibouti, Haiti, Liberia, Marshall Islands and Vanuatu;

(b) Non-Article 5 Parties: None.

11. Baseline data for Annex A substances for Article 5 Parties - average for 1995-1997: The following 16 Article 5 Parties have not reported data for 1995, 1996 or 1997 and the Secretariat is therefore unable to determine their baselines for the phase-out of Annex A substances (see appendix IX): Angola, Cambodia, Cape Verde, Djibouti, Federated States of Micronesia, Haiti, Lao People's Democratic Republic,¹ Liberia, Nauru, Palau, Rwanda, Sao Tome and Principe, Sierra Leone, Somalia, Suriname and Vanuatu.

12. Baseline data for Annex B substances for Article 5 Parties - average for 1998-2000: The following 20 Article 5 Parties which have ratified the London Amendment have not reported some or all data for 1998, 1999 or 2000 and the Secretariat is therefore unable to determine their baselines for the phase-out of Annex B substances (see appendix XIII): Cape Verde, Côte d'Ivoire, Democratic Republic of the Congo, Djibouti, Dominica, Federated States of Micronesia, Grenada, Haiti, Liberia, Malawi, Mozambique, Nicaragua, Palau, Saint Kitts and Nevis, Saint Vincent and the Grenadines, Sao Tome and Principe, Sierra Leone, Somalia, Uganda and Vanuatu.

13. Baseline data for Annex E substance for Article 5 Parties - average for 1995-1998: the following 18 Article 5 Parties which have ratified the Copenhagen Amendment have not reported some or all data for 1995, 1996, 1997 or 1998 and the Secretariat is therefore unable to determine their baselines for the phase-out of Annex E substance (see appendix X): Cape Verde, Democratic Republic of Congo, Djibouti, Federated States of Micronesia, Fiji, Gabon, Haiti, Democratic People's Republic of Korea, Liberia, Maldives, Marshall Islands, Nigeria, Palau, Saint Kitts and Nevis, Sao Tome and Principe, Sierra Leone, Somalia and Vanuatu.

14. Change of baseline data by Parties (Decision XIII/15): The following seven Parties have requested a change in data for one or more of the years that form part of the baseline years:

Table 1

Party	Years	Annex Baseline Affected
Belize	1995 – 1997	Annex A (CFCs)
Bulgaria	1991	Annex E (Methyl bromide)
Paraguay	1995 – 1997	Annexes A and E
Qatar	1995 – 1997	Annex A (Halon)
Sri Lanka	1997	Annex A (CFCs)
Uganda	1995 – 1999	Annex E (Methyl bromide)
Yemen	1995 – 1998	Annexes A, B and E

15. The previously reported and the revised data are given in appendix XIV to the present report. Additional information provided by the Parties to support the requests for changes in baseline has been provided to the Implementation Committee for consideration.

D. Status of reporting for the period 1986 – 2001 (data reporting requirements)

16. The following 13 Parties, none of which has reported any data on ozone-depleting substances (ODS), are temporarily classified as operating under Article 5 of the Protocol: Cambodia, Cape Verde, Djibouti, Federated States of Micronesia, Liberia, Nauru, Palau, Rwanda, Sao Tome and Principe, Sierra Leone, Somalia, Suriname and Vanuatu.

¹ The Lao People's Democratic Republic reported consolidated data for the baseline years instead of reporting in the correct format, and have been requested to resubmit the data in the correct format.

17. Subparagraphs (ii) and (iii) of paragraph (a) of decision VI/5 of the Sixth Meeting of the Parties to the Montreal Protocol read as follows:

- “(ii) A country may only be classified temporarily as operating under Article 5 for a period of two years applicable from the time of adoption of the present decision. After this period, Article 5 status can no longer be extended without data reporting as required by the Protocol, unless the country has sought the assistance of the Executive Committee and the Implementation Committee. In this case, the extension period shall not exceed two years;”
- “(iii) A developing country temporarily classified as operating under Article 5 would lose the status if it does not report base-year data as required by the Protocol within one year of the approval of its country programme and its institutional strengthening by the Executive Committee, unless otherwise decided by the Meeting of the Parties.”

18. All the Parties temporarily classified as operating under Article 5 of the Protocol (with the exception of Nauru) are receiving assistance from the Executive Committee of the Multilateral Fund, the World Bank or other agencies to implement their phase-out strategies by establishing and/or implementing their country programmes.

19. The Implementation Committee may wish to note the situation of the Parties temporarily classified as operating under Article 5.

20. The Secretariat has checked the status of ODS data reporting for the period 1986-2001 and has sent reminders regarding missing data to the Parties concerned. A total of 32 non-Article 5 Parties and 69 Article 5 Parties have complied fully with the ODS reporting requirements under Article 7 of the Protocol. A list of those Parties is given in appendix XII to the present report.

E. Reporting of data for 2000 and 2001

21. Under Article 7 of the Montreal Protocol, all Parties are required to report the data for each year to the Secretariat. In accordance with Article 7, paragraph 4, States members of the European Community are required to report to the Secretariat only the data on production of controlled substances; Community-wide consumption data are reported by the European Community. The Secretariat treats all States members of the European Community that have reported zero production of controlled substances or have ceased production since 1992 (Austria, Belgium, Denmark, Finland, Ireland, Luxembourg, Portugal and Sweden) as maintaining zero production unless they report otherwise to the Secretariat.

22. An analysis of the data for 2000 reported by the Parties under Article 7 of the Protocol is given as appendix I to the present report while the analysis of the data for 2001 is given as appendix VIII. Of the 175 Parties required to report in 2000, 154 (112 Article 5 and 42 non-Article 5) have reported data. Of the 180 Parties required to report in 2001, 120 (86 Article 5 and 34 non-Article 5) have reported. The abbreviation “N.R.” has been used throughout the appendices to indicate non-reporting by a Party.

23. By 30 September 2001, 96 Parties had reported data for 2000 in accordance with Article 7 of the Protocol. Since then, a further 58 Parties have reported data for 2000. By 30 September 2002, 91 Parties had reported data for 2001 in accordance with Article 7 of the Protocol. Since then, a further 29 Parties have reported data for 2001. The reporting dates of each Party are shown in the relevant appendices.

24. The following 18 Article 5 Parties have not reported data for 2000: Angola, Côte d’Ivoire, Djibouti, Dominica, Federated States of Micronesia, Grenada, Haiti, Kiribati, Liberia, Malawi, Mauritania, Mozambique, Nicaragua, Saint Kitts and Nevis, Suriname, Uganda, Vanuatu and Yugoslavia.

25. The following 47 Article 5 Parties have not reported data for 2001: Antigua and Barbuda, Bangladesh, Botswana, Cambodia, Cape Verde, Central African Republic, China, Cyprus, Democratic People's Republic of Korea, Djibouti, Dominica, Ethiopia, Federated States of Micronesia, Fiji, Gambia, Grenada, Guyana, India, Indonesia, Kiribati, Lesotho, Liberia, Madagascar, Malawi, Maldives, Mali, Marshall Islands, Mauritania, Mozambique, Nepal, Nicaragua, Nigeria, Pakistan, Palau, Qatar, Saint Kitts and Nevis, Saint Lucia, Saudi Arabia, Sierra Leone, Somalia, South Africa, Suriname, Swaziland, Uganda, Vanuatu, Yugoslavia and Zambia.

26. The following three non-Article 5 Parties have not reported data for 2000: Norway, Turkmenistan and Uzbekistan.

27. The following 11 non-Article 5 Parties have not reported data for 2001: Azerbaijan, Germany, Greece, Kazakhstan, Latvia, Liechtenstein, Russian Federation, Spain, Switzerland, Turkmenistan and Uzbekistan.

F. Remarks on the data submitted for 2000 and 2001

28. In the present report, both production and consumption figures are weighted with the ozone-depleting potential (ODP) of the substances. The figures analysed in the present section are for the calendar years January-December 2000 and January-December 2001.

29. Global total changes in production and consumption of ODSs in 2000 are shown in appendix I A. The following 15 non-Article 5 Parties have reported data on production for 2000: Canada, Czech Republic, France, Germany, Greece, Israel, Italy, Japan, Netherlands, Poland, Russian Federation, Spain, Ukraine, United Kingdom of Great Britain and Northern Ireland and United States of America.

30. The following nine Article 5 Parties have reported data on production in 2000: Argentina, Brazil, China, Democratic People's Republic of Korea, India, Lebanon, Mexico, Romania and Venezuela.

31. The data for 2000 show also that 80 Article 5 Parties reported zero consumption of halons. Similarly, 66 Article 5 Parties reported zero consumption of carbon tetrachloride and 65 Article 5 Parties reported zero consumption of methyl chloroform.

32. The figures below show production and consumption trends, weighted in terms of ODP, in non-Article 5 Parties for Annex A and B substances which are supposed to have been phased out in those Parties.

Production and consumption trends in non-Article 5 Parties (for substances that should have been phased out)

Annex A Group I (CFCs) production Annex A Group I (CFCs) consumption

Annex A Group II (halons) production Annex A Group II (halons) consumption

Annex B Group II (CCl₄) productionAnnex B Group II (CCl₄) consumption

Annex B Group III (methyl chloroform) production Annex B Group III (methyl chloroform) consumption

33. Global changes for 2001 are shown in appendix VIII A. The following 11 non-Article 5 Parties have reported data on production for 2001: Canada, Czech Republic, France, Israel, Italy, Japan, Netherlands, Republic of Korea, Ukraine, United Kingdom of Great Britain and Northern Ireland and United States of America.

34. The following six Article 5 Parties have reported data on production for 2001: Argentina, Brazil, Republic of Korea, Mexico, Romania and Venezuela.

35. The data for 2001 show that 60 Article 5 Parties reported zero consumption of halons. Similarly, 53 Article 5 Parties reported zero consumption of carbon tetrachloride and 56 Article 5 Parties reported zero consumption of methyl chloroform.

36. The Secretariat analysed the production and consumption data, for both 2000 and 2001, for all Parties, with reference to the applicable control measures. Where the data appear to indicate non-compliance with the control measures, the Parties concerned have been contacted for clarification. In a number of cases, for non-Article 5 Parties, the deviations were accounted for by approved essential uses, laboratory uses or increased production for meeting the basic domestic needs of Article 5 Parties.

37. Tables 2A and 2B below show all cases of deviation from the consumption reduction schedules revealed by the data submitted by non-Article 5 Parties for the years 2000 and 2001 respectively, hereinafter referred to as “deviations”. For the year 2000, six countries, Armenia, Belarus, Bulgaria, Latvia, the Russian Federation and Ukraine, reported consumption data that deviated from either their set benchmarks or their obligations under the Protocol, that is, the deviations were not accounted for by exempted or allowed applications. Similarly, for the year 2001, the consumption deviations for the following nine Parties have not yet been accounted for by exempted or allowed applications: Armenia, Belarus, Bulgaria, European Community, Israel, Japan, Norway, Ukraine and United States of America.

38. However, Armenia has applied for Article 5 status, an issue which will be discussed at the Fourteenth Meeting of the Parties to the Montreal Protocol. Belarus indicated that its failure to meet its benchmarks for 2000 was attributable to an illegal import which the Government succeeded in intercepting. Bulgaria has already requested a revision of its baseline data for methyl bromide, and the matter is under consideration by the Implementation Committee. Also, the Russian Federation reported that because of the planned closure of production facilities for Annex A and B substances by the end of 2000, it was stockpiling them. The Secretariat was unable to follow up the situation in 2001 as the Russian Federation had not yet reported data for that year. It is expected that some of the deviations, especially for 2001 (table 2B) will be accounted for by exempted laboratory and analytical uses once the concerned Parties reply.

Table 2A

Deviation from consumption reduction schedules by non-Article 5 Parties in 2000

Party	Annex/Group of substances and control measures for 2000							Comments
	A I	A II	B I	B II	B III	C I	E I	
	-100%	-100%	-100%	-100%	-100%	Freeze	-25%	
Armenia**	-99%							A I: Cases of deviation – country has applied for Article 5 status
Australia	-99.95%							A I: Approved essential uses ¹
Azerbaijan	-82%							Within phase-out plan negotiated with the Parties ⁴
Belarus*				-92%				Not within phase-out plan negotiated with the Parties⁴ due to illegal ODS imports
Bulgaria							13.2^z	E I: Case of deviation: Party has already requested a baseline change
Canada	-99.9%			-99.99%	-99.999%			A I: Approved essential uses ¹ B II, B III: Laboratory and analytical use ³
Czech Republic	-99.9%							A I: Laboratory and analytical use ³
Estonia	-92%							Within benchmarks provided by the Party ⁴
European Community	-99%				-99.99%			A I: Approved essential uses¹ B III: Case of deviation²
Hungary	-99.99%							A I: Approved essential uses ¹
Japan				-99.97%				B II: Laboratory and analytical use ³
Kazakhstan*	-57%	-99%		-97%	-93%	7%	8%	Negotiated phase-out plan with benchmarks starts in 2002 ⁴
Latvia	-99%							Not within phase-out plan negotiated with the Parties⁴
Lithuania	-99%							Within phase-out plan negotiated with the Parties ⁴
Poland	-96%			-99.7%				A I: Approved essential uses ¹ B II: Laboratory and analytical use ³
Russian Federation*	-76%	-94%	-91%					A I, A II, B I: Cases of deviation – due to stockpiling
Slovakia	-99.9%			-99.98%				A I, B II: Laboratory and analytical use ³
Slovenia	-99.99%			0.189 ^z				A I, B II: Laboratory and analytical use ³
Switzerland				-23%	-99.98%			B II, B III: Laboratory and analytical use ³
Tajikistan*	-87%			0.03 ^z				Negotiated phase-out plan with benchmarks starts in 2002 ⁴
Ukraine	-82%		-97%					Not within phase-out plan negotiated with the Parties⁴
United States of America	-99%				-99%			A I: Approved essential uses ¹ and production for Article 5 Parties ⁵ B III: Production for Article 5 Parties ⁵
* Parties which have not ratified the Copenhagen Amendment. ** Parties which have not ratified the London and Copenhagen Amendments. ^z Consumption baseline of zero – hence increase given in ODP tons. ¹ Essential uses exemption approved by the Meeting of Parties. ² Party reported that the substances were produced and/or imported or produced for exempted essential uses but no approval was granted by the Parties and no indication was given that it was for laboratory and analytical uses. ³ Party reported that the substances were imported for laboratory and analytical uses (see appendix V A to the present report) ⁴ Countries with economies in transition and with GEF-funded programmes. Benchmarks were negotiated between the Implementation Committee and the Party (except where indicated that benchmarks were provided by the Party) and submitted to the Meeting of the Parties for approval. ⁵ Party reported that the substances were produced for supply to Article 5 countries but substance was not exported within the same year.

* Parties which have not ratified the Copenhagen Amendment. ** Parties which have not ratified the London and Copenhagen Amendments. ^Z Consumption baseline of zero – hence increase given in ODP tons. ¹ Essential uses exemption approved by the Meeting of Parties. ² Party reported that the substances were produced and/or imported or produced for exempted essential uses but no approval was granted by the Parties and no indication was given that it was for laboratory and analytical uses. ³ Party reported that the substances were imported for laboratory and analytical uses (see appendix V B to the present report) ⁴ Countries with economies in transition and with GEF-funded programmes. Benchmarks were negotiated between the Implementation Committee and the Party (except where indicated that benchmarks were provided by the Party) and submitted to the Meeting of the Parties for approval. ⁵ Party reported that the substances were produced for supply to Article 5 countries but substance was not exported within the same year.								

39. Tables 3A and 3B below show all cases of deviation from the production reduction schedules revealed by the data submitted by non-Article 5 Parties for the years 2000 and 2001 respectively, also referred to as “deviations”.

40. Table 3A shows that the deviations from the production reduction schedule for the Netherlands and the Russian Federation in the year 2000 are not accounted for by exempted or allowed applications. Similarly, Table 3B shows that the deviations for the year 2001 for France, Japan, the Netherlands and the United States of America have yet to be accounted for by exempted or allowed applications.

Table 3A

Deviation from production reduction schedules by non-Article 5 Parties in 2000

Party	Annex/Group of substances and control measures for 2000						Comments

Japan				-99.8%	-95%		B II: Case of deviation² B III: Production for Article 5 Parties ³
Netherlands	-77%						A I: Case of deviation
United States of America	-99.8%			-95%	-99%		A I, B II, B III: Cases of deviation
¹ Essential uses exemption approved by the Meetings of the Parties. ² Party reported that the substances were imported for laboratory and analytical uses (see appendix V B to the present report). ³ Party reported that the substances were produced for supply to Article 5 Parties.							

41. A comparison of production, imports and exports of ODS by the Parties for 2000 and 2001 is attached to the present report as appendix II A and II B respectively. The comparison is for Parties that have reported both their annual data for 2000 or 2001 and also their base-year data.

42. Exports of methyl bromide in 2000 were reported by five Article 5 Parties and seven non-Article 5 Parties. Exports of methyl bromide in 2001 were reported by four Article 5 Parties and nine non-Article 5 Parties.

43. The following 26 Parties reported on the types and quantities of Annex A and Annex B substances which they exported in 2000 and their destinations, as required under paragraph 4 of decision VII/9: Antigua and Barbuda, Argentina, Bahamas, Brazil, China, Colombia, Costa Rica, Croatia, Estonia, European Community, France, Germany, Japan, Lithuania, Malta, Mauritius, Mexico, Netherlands, New Zealand, Romania, Russian Federation, Singapore, Turkey, United Kingdom of Great Britain and Northern Ireland, United States of America and Venezuela.

44. A further five Parties, India, Latvia, Lebanon, Sweden and Trinidad and Tobago, reported exports of Annex A and B substances in 2000 but not the destinations of the exports.

45. The following 20 Parties reported on the types and quantities of Annex A and Annex B substances which they exported in 2001 and their destinations as required under paragraph 4 of decision VII/9: Argentina, Brazil, Colombia, Croatia, Denmark, Estonia, European Community, France, Japan, Lithuania, Malta, Mexico, Netherlands, Republic of Korea, Romania, Singapore, Slovakia, Turkey, United States of America and Venezuela.

46. The United Kingdom of Great Britain and Northern Ireland reported exports of Annex A and B substances in 2001 but not on the destinations of the exports.

47. Information on reported data on recovered and reclaimed ODSs for 2000 and 2001 is presented in appendix IV A and B while information on new as opposed to recovered imports and exports for those two years is presented in appendix III A and B.

48. A total of 53 Parties have reported information on reclamation facilities. Of those, the following 28 have reported that they do not have any reclamation facilities: Bahamas, Belarus, Brazil, Burkina Faso, Costa Rica, Gambia, Guatemala, Guinea, India, Iran (Islamic Republic), Jordan, Kuwait, Lebanon, Malaysia, Malta, Morocco, Myanmar, Nepal, Niger, Senegal, Sri Lanka, Sweden, Syrian Arab Republic, United Republic of Tanzania, Tunisia, Uruguay, Zambia and Zimbabwe.

49. The other 25 Parties reported various details of their reclamation facilities. Those Parties are: Australia, Austria, Belgium, Canada, Croatia, Czech Republic, Denmark, France, Germany, Hungary, Israel, Italy, Japan, New Zealand, Norway, Poland, Romania, Russian Federation, Saint Lucia, Singapore, Slovakia, South Africa, Thailand, United Kingdom of Great Britain and Northern Ireland and United States of America.

50. Parties that submitted production and/or consumption data under the global essential-use exemption for laboratory and analytical uses for the years 2000 and 2001 are listed in appendix V A and B.

51. According to the information submitted to the Secretariat, the following seven Parties which were required to report have indeed submitted their reporting accounts for 2000 in accordance with paragraph 9 of decision VIII/9: Australia, Canada, European Community, Hungary, Japan, Poland and United States of America. The Russian Federation has yet to submit its accounting framework for 2000.

52. All six Parties, Australia, European Community, Hungary, Japan, Poland and United States of America, which were granted essential use exemptions for 2001, have submitted their reporting accounts for that year.

53. Appendix VI A and B to the present report provides an analysis of data on ODS production and consumption, for the years 2000 and 2001, compared to the base years, for five regions (Africa, Asia, Eastern Europe, Latin America and the Caribbean, Western Europe and Others), for the groups of ODS. The figures below show the regional distribution of production and consumption of ODS in 2000.

Regional distribution of production and consumption of controlled ODS for the year 2000

Annex A Group I (CFCs) production

Annex A Group I (CFCs) consumption

Annex A Group II (halons) production

Annex A Group II (halons) consumption

Annex B Group II (CCL₄) production

Annex B Group II (CCL₄) consumption

Annex B Group III (methyl chloroform) production

Annex B Group III (methyl chloroform) consumption

Annex E (methyl bromide) production

Annex E (methyl bromide) consumption

G. Compliance of Article 5 Parties with the freeze in consumption of substances in Annex A Group I

54. Of the 112 Article 5 Parties that reported data for 2000, 25 exceeded their consumption baselines (average consumption for 1995, 1996 and 1997) of Annex A Group I substances. In pursuance of paragraph 2 of decision X/29 of the Meeting of the Parties, the Secretariat requested those 25 Parties to report their consumption of Annex A Group I substances for the control period 1 July 2000 to 30 June 2001. Table 4 below summarizes the information received to date from the 20 Parties which have reported consumption above the baseline in 2000, 2001 or in the control period.

Table 4

Article 5 Parties that have reported Annex A Group I consumption above the baseline in 2000, 2001 or the control period 1 July 2000 to 30 June 2001 (in ODP tons)

Country Name	Baseline Consumption	2000 Consumption	2001 Consumption	Control period 1/7/2000 to 30/6/2001 Consumption
Albania	40.8	61.9	68.8	
Bahamas	64.9	65.9		96.6
Bangladesh	580.4	805.0		739.7
Belize	16.0	15.5	28.0	
Bolivia	75.7	78.8	76.7	
Bosnia and Herzegovina	24.2	175.9	199.7	
Cameroon	256.9	368.7	364.1	
Comoros	2.5	2.7	1.9	
Ethiopia	33.8	39.2		34.6
Guatemala	224.6	187.9	265.0	
Libyan Arab Jamahiriya	716.7	985.4	985.4	
Maldives	4.6	4.6		
Malta	64.3	67.6	63.1	
Namibia	21.9	22.1	24.0	22.5
Nepal	27.0	94.0		94.0
Nigeria	3,650.0	4,094.8		
Pakistan	1,679.4	1,945.3		
Papua New Guinea	36.3	47.9	15.0	
Saint Vincent and the Grenadines	1.8	6.0	6.9	
Yemen	349.1	1,045.0	1,023.4	

55. Similarly, of the 86 Article 5 Parties that have reported data for 2001, eight had exceeded their consumption baselines of CFCs (see table 4). Of those eight, six had exceeded their consumption baselines for 2000. Also in pursuance of decision X/29, paragraph 2, the Secretariat requested those Parties to report their consumption of Annex A Group I substances for the control period 1 July 2000 to 30 June 2001.

56. A total of nine Parties, Bangladesh, Chad, Cyprus, Gabon, Ghana, Mongolia, Niger, Oman and Peru, have reported CFC consumption for the control period which was below their baselines; consequently they have complied with the requirement to freeze their consumption. A total of five Parties, Bahamas, Bangladesh, Ethiopia, Namibia and Nepal, have reported CFC consumption that exceeds their baselines; consequently they have not complied with the requirement to freeze consumption for the control period. Another two Parties, Belize and Yemen, have requested a change in their baselines, an issue that is under consideration by the Implementation Committee.

57. Article 5 Parties Angola, Haiti and the Lao People's Democratic Republic have reported non-zero consumption of Annex A Group I substances for 2000 or 2001 but have not reported baseline data, hence their compliance status cannot be determined.

58. Of the 83 Article 5 Parties that have reported data for both 2000 and 2001, the following 62 reported consumption of Annex A Group I substances for both 2000 and 2001 below their baselines: Algeria, Argentina, Bahrain, Barbados, Benin, Brazil, Brunei Darussalam, Burkina Faso, Burundi, Chile, Colombia, Congo, Democratic Republic of the Congo, Costa Rica, Croatia, Cuba, Dominican Republic, Ecuador, Egypt, El Salvador, Georgia, Guinea, Honduras, Iran (Islamic Republic of), Jamaica, Jordan, Kenya, Kuwait, Kyrgyzstan, Lebanon, Malaysia, Mauritius, Mexico, Moldova, Morocco, Myanmar, Panama, Paraguay, Philippines, Republic of Korea, Romania, Samoa, Senegal, Seychelles, Singapore, Solomon Islands, Sri Lanka, Sudan, Syrian Arab Republic, United Republic of Tanzania, Thailand, the Former Yugoslav Republic of Macedonia, Togo, Tonga, Tunisia, Turkey, Tuvalu, United Arab Emirates, Uruguay, Venezuela, Viet Nam and Zimbabwe.

59. Further to decision X/29 of the Meeting of the Parties and as subsequently discussed by the Implementation Committee at its 21st meeting, the Secretariat recommends that those Parties should be assumed to have complied with the control measure of freezing consumption of substances in Annex A Group I effective 1 July 2000, in accordance with the Montreal Protocol, without insisting on their reporting data for the control period.

60. The following five Parties which are producers of CFCs reported data for Annex A Group I substances for 2000 showing production levels below their baselines: China, Democratic People's Republic of Korea, India, Mexico and Venezuela. The Democratic People's Republic of Korea, Mexico and Venezuela have also reported data for 2001 showing production levels below their baselines. Those three Parties may therefore be assumed to have complied with the control measure of freezing production of substances in Annex A Group I.

61. Since China and India have neither reported for 2001 nor for the control period, the Secretariat was unable to confirm whether they had complied with the freeze in production of the substances in Annex A Group I.

62. Argentina has reported data showing production of Annex A Group I substances for both 2000 and 2001 above its baseline. Argentina has also reported production of Annex A Group I substances for the control period above its baseline. However, Argentina indicated that it was using its 10 per cent allowance for meeting the basic domestic needs of Article 5 Parties, hence it had complied with the requirement to freeze production.

H. Data for 1999

63. The 1999 data were analysed and submitted to the Twelfth Meeting of the Parties, in 2000. Out of the 171 Parties required to report, 164 (120 Article 5 and 44 non-Article 5) have done so. Appendix VII to the present report contains an analysis of the updated 1999 data.

64. The changes relative to the base years in production and consumption of ODS in 1999 are shown in appendix VII A. The following 14 non-Article 5 Parties reported production of ODS in 1999: Canada, Czech Republic, France, Germany, Greece, Israel, Italy, Japan, Netherlands, Poland, Russian Federation, Spain, United Kingdom of Great Britain and Northern Ireland and United States of America.

65. The following article 5 Parties reported production of ODS in 1999: Argentina, Brazil, China, Democratic Republic of Korea, India, Mexico, Republic of Korea, Romania and Venezuela.

APPENDICES

Appendix Ia

Summary by Category - 2000 Analysis of Data on Production and Consumption by Groups of Substances (ODP Tons)

Only data from Parties that have reported both the base data and the year data are included in the summary.

* Population in thousands

** Annex A Production and Consumption base for Article 5 parties is calculated as the average of 1995, 1996 and 1997.

** Annex C Group I Consumption base is calculated as the sum of the 1989 consumption of HCFCs and 2.8% of the 1989 consumption of Annex A, Group I substances.

** Annex E Production and Consumption base for Article 5 parties is calculated as the average of 1995, 1996, 1997 and 1998.

Appendix Ib, Non-Article 5 Parties - 2000 Analysis of Data on Production and Consumption by Groups of Substances (ODP Tons)

	PRODUCTION			CONSUMPTION			Per Capita
	Year	Base	% Change	Year	Base	% Change	Consum.
Key							
AI - Annex A, Group I (CFCs). Base for Article 5 parties is the average of 1995, 1996 and 1997. Base for non-Article 5 Parties is 1986.							
AII - Annex A, Group II (Halons). Base for Article 5 parties is the average of 1995, 1996 and 1997. Base for non-Article 5 Parties is 1986.							
BI - Annex B, Group I (Other Halogenated CFCs). Base for All Parties is 1989.							
BII - Annex B, Group II (Carbon Tetrachloride). Base for All Parties is 1989.							
BIII - Annex B, Group III (Methyl Chloroform). Base for All Parties is 1989.							
CI - Annex C, Group I (HCFCs). The base consumption is 1989 consumption of HCFCs plus 2.8% of 1989 consumption of CFCs.							
CII - Annex C, Group II (HBFCs).							
EI - Annex E, Group I (Methyl Bromide). Base for Article 5 parties is the average of 1995, 1996, 1997 and 1998. Base for non-Article 5 Parties is 1991.

* Population in thousands

** Annex A Production and Consumption base for Article 5 parties is calculated as the average of 1995, 1996 and 1997.

** Annex C Group I Consumption base is calculated as the sum of the 1989 consumption of HCFCs and 2.8% of the 1989 consumption of Annex A, Group I substances.

** Annex E Production and Consumption base for Article 5 parties is calculated as the average of 1995, 1996, 1997 and 1998.

Only data from Parties that have reported both the base data and the year data are included in the summary.

* Population in thousands

** Annex A Production and Consumption base for Article 5 parties is calculated as the average of 1995, 1996 and 1997.

** Annex C Group I Consumption base is calculated as the sum of the 1989 consumption of HCFCs and 2.8% of the 1989 consumption of Annex A, Group I substances.

** Annex E Production and Consumption base for Article 5 parties is calculated as the average of 1995, 1996, 1997 and 1998.

**Appendix VIIIb, Non-Article 5 Parties - 2001 Analysis of Data on Production and Consumption by Groups of Substances
(ODP Tons)**

PRODUCTION			CONSUMPTION			Per Capita
Year	Base	% Change	Year	Base	% Change	Consum.
Key						
AI - Annex A, Group I (CFCs). Base for Article 5 parties is the average of 1995, 1996 and 1997. Base for non-Article 5 Parties is 1986.						
AII - Annex A, Group II (Halons). Base for Article 5 parties is the average of 1995, 1996 and 1997. Base for non-Article 5 Parties is 1986.						
BI - Annex B, Group I (Other Halogenated CFCs). Base for Article 5 parties = average of 1998, 1999 and 2000. Base for non-Article 5 Parties is 1989.						
BII - Annex B, Group II (Carbon Tetrachloride). Base for Article 5 parties is the average of 1998, 1999 and 2000. Base for non-Article 5 Parties is 1989.						
BIII - Annex B, Group III (Methyl Chloroform). Base for Article 5 parties is the average of 1998, 1999 and 2000. Base for non-Article 5 Parties is 1989.						
CI - Annex C, Group I (HCFCs). The base consumption is 1989 consumption of HCFCs plus 2.8% of 1989 consumption of CFCs.						
CII - Annex C, Group II (HBFCs).						
EI - Annex E, Group I (Methyl Bromide). Base for Article 5 parties is the average of 1995, 1996, 1997 and 1998. Base for non-Article 5 Parties is 1991.

Appendix VIIIc, Article 5 Parties - 2001 Analysis of Data on Production and Consumption by Groups of Substances (ODP Tons)

	PRODUCTION			CONSUMPTION			Per Capita
	Year	Base	% Change	Year	Base	% Change	Consum.
Key							
AI - Annex A, Group I (CFCs). Base for Article 5 parties is the average of 1995, 1996 and 1997. Base for non-Article 5 Parties is 1986.							
AII - Annex A, Group II (Halons). Base for Article 5 parties is the average of 1995, 1996 and 1997. Base for non-Article 5 Parties is 1986.							
BI - Annex B, Group I (Other Halogenated CFCs). Base for Article 5 parties = average of 1998, 1999 and 2000. Base for non-Article 5 Parties is 1989.							
BII - Annex B, Group II (Carbon Tetrachloride). Base for Article 5 parties is the average of 1998, 1999 and 2000. Base for non-Article 5 Parties is 1989.							
BIII - Annex B, Group III (Methyl Chloroform). Base for Article 5 parties is the average of 1998, 1999 and 2000. Base for non-Article 5 Parties is 1989.							
CI - Annex C, Group I (HCFCs). The base consumption is 1989 consumption of HCFCs plus 2.8% of 1989 consumption of CFCs.							
CII - Annex C, Group II (HBFCs).							
EI - Annex E, Group I (Methyl Bromide). Base for Article 5 parties is the average of 1995, 1996, 1997 and 1998. Base for non-Article 5 Parties is 1991.
