**The Ozone Secretariat
United Nations
Environment Programme
Executive Secretary
Ms. Tina Birmpili**

Dear Ms. Birmpili,

The State Agency on Environment Protection and Forestry of the Kyrgyz Republic presents its compliments to you and has honor to refer to the Decision XXVII/8: "Avoiding the unwanted import of products and equipment containing or relying on hydrochlorofluorocarbons".

In this decision, parties that do not permit the importation of products and equipment containing or relying on HCFCs from any source are invited to inform the Secretariat, on a voluntary basis, if they so choose, that they do not consent to the importation of such products and equipment. In accordance with the decision, the State Agency on Environment Protection and Forestry of the Kyrgyz Republic would like to inform the Secretariat that the Kyrgyzstan does not wish to receive products and equipment containing or relying on HCFCs, and kindly request you to include the country to the list of parties that do not want to receive products and equipment containing or relying on hydrochlorofluorocarbons and inform the exporting countries on that fact through existing mechanisms under the Montreal Protocol.

Please accept the assurances in our highest consideration.

Sincerely yours,

Mr. Sabir Atadzhanov
Director,
Vice-president of Bureau of the MOP 27
