

Republic of Tajikistan

International Day for the Preservation of the Ozone Layer, 16 September 2010

The following measures are planned:

1. Meeting with schoolchildren and speech on “We protect the ozone layer for the life on the Earth”;
2. Meeting with entrepreneurs and refrigeration technicians, whose activity is connected with ODS use, on “Reduction and complete elimination of ODS emissions to the atmosphere”;
3. Dissemination of thematic literature, dedicated to ozone layer protection, among schools and refrigeration servicing enterprises;
4. Preparation and issue of 2 brochures on “Atmospheric ozone and its role for the Earth”, and “Ecological consequences of ozone layer depletion”;
5. Message on republican radio on “We protect the ozone layer for the life on the Earth”;
6. Speech and demonstration of video-film on the central republican TV channel on “16th September – International Day on Ozone Layer Protection. Interconnection of climate change and ozone layer depletion”;
7. Preparation and publication of “Changing Ozone Layer” Article in central republican newspaper.

In realization of above-mentioned measures, the associates NOU, Committee on Environment Protection, scientists and NGOs will take part.
