

Seychelles Activities to Celebrate the 2008 International Ozone Day

Seychelles will be holding a week activity and the main event will be on the 16 September, 2008.

Activities will be as follows:

- One day workshop for all environmental teachers plus secondary students on ozone depletion and its effect on human health, marine life and plants
- Ozone programs will be transmitted on radio, television and newspapers
- Donation of training equipments for refrigerant technicians to our National Institute of Technology under our TPMP Funding
- Song competitions on Ozone layer, republication of the Primary Pack by UNEP for primary students/Teachers
