

Activities held in Oman on the occasion of the 2006 International Day for the Preservation of the Ozone Layer

On the occasion of the Ozone World Day, the Municipality of Barka implemented a number of lectures on the best and bad practices that are done by people towards the environment. The lectures included discussions on cleanliness, at home, school, and how to get rid of waste. Lectures on household waste, the importance of environment and its natural resources, how to protect the Ozone Layer, and the importance of the regular maintenance of the air conditioning units.
