THIRTEENTH MEETING OF THE PARTIES TO
THE MONTREAL PROTOCOL ON
SUBSTANCES THAT DEplete
THE OZONE LAYER

Colombo, 16-19 October 2001

Item 3(m) of the annotated provisional agenda of the preparatory segment

Addendum

REPORT OF THE SECRETARIAT ON INFORMATION PROVIDED BY THE PARTIES IN
ACCORDANCE WITH ARTICLE 7 OF THE MONTREAL PROTOCOL
ON SUBSTANCES THAT DEplete THE OZONE LAYER

A. Introduction

1. The present report contains additional information pursuant to Article 7 of the Montreal Protocol on Substances that Deplete the Ozone Layer received by the Secretariat between 20th August 2001 and 3 October 2001. Information contained in the document UNEP/OzL.Pro.13/3 has not been reproduced in this document.

B. Status of ratification of the Montreal Protocol and the London,
Copenhagen, Montreal and Beijing Amendments

2. As of 3 October 2001, 180 Parties had ratified the Montreal Protocol, 153 had ratified the London Amendment, 128 had ratified the Copenhagen Amendment, 63 had ratified the Montreal Amendment and the Beijing Amendment had been ratified by 11 Parties: Canada, Chile, Czech Republic, Finland, Gabon, Jordan, Luxembourg, New Zealand, Palau, Sierra Leone and Somalia.

C. Status of reporting of the base-year and baseline data

3. Kyrgyzstan has reported its baseline data for the years 1995 to 1998 allowing calculation of the new baselines for Annex A and Annex E substances.

4. Cyprus has reported data for 1999, and therefore complied fully with the ODS reporting requirements for the years 1986 to 1999.

5. Yemen reported revised data for the years 1986 and 1995 to 1998 which affects its baseline values for Annex A and Annex E substances. The data has been presented to the Implementation Committee for its consideration.

6. Similarly, Bulgaria reported revised data for Annex E substances (Methyl Bromide) for the years 1991 to 1998. The data has been presented to the Implementation Committee for its consideration.

D. Reporting of data for 1999

7. Cyprus and Yemen have reported data for 1999 in accordance with Article 7 of the Protocol while the Bahamas reported incomplete data. The Secretariat has provided the newly reported data in annex I to the present report.

E. Remarks on the data submitted for 1999

8. Various Parties have submitted explanations for deviations from the control measures for the year 1999 following requests from the Implementation Committee. These explanations have been presented to the Implementation Committee, which will discuss them during its 27th meeting and present its report to the Meeting of the Parties.

F. Compliance of Article 5 Parties with the freeze in consumption of substances in Annex A, Group I

9. A total of 12 Article 5 Parties have reported data for Annex A, Group I substances for the control period 1 July 1999 to 30 June 2000 (see annex II to the present report). Brazil, Burundi, Ghana, Jamaica, Malta and Togo have reported production and consumption figures that are within their baseline values and have therefore complied with the control measures.

10. Since 20 August 2001, the following 15 Article 5 Parties have now reported production and consumption data for Annex A, Group I substances for both 1999 and 2000 that is below their baselines: Colombia, Congo, Iran, Islamic Republic of, Malaysia, Moldova, Philippines, Seychelles, Singapore, South Africa, Sri Lanka, Thailand, Tunisia, United Arab Emirates, Venezuela and Zambia. They can therefore be assumed to have complied with the control measure of freezing both production and consumption of substances in Annex A, Group I for the control period 1 July 1999 to 30 June 2000, without insisting on data for the control period.

G. Data for 2000

11. Since 20 August 2001, a further 16 Non-Article 5 Parties and 22 Article 5 Parties have reported data for the year 2000 (see annex IIIa and IIIb of the present report).

Annex I, Article 5 Parties - 1999 Analysis of Data on Production and Consumption by Groups of Substances (ODP Tons)

	PRODUCTION			CONSUMPTION			Per Capita Consum.
	Year	Base	%Change	Year	Base	%Change	

Key

- AI - Substances of Annex A, Group I (CFCs). Production and Consumption base for Article 5 parties is calculated as the average of 1995, 1996 and 1997.
- AII - Substances of Annex A, Group II (Halon). Production and Consumption base for Article 5 parties is calculated as the average of 1995, 1996 and 1997.
- BI - Substances of Annex B, Group I (Other Halogenated CFCs)
- BII - Substance of Annex B, Group II (Carbon Tetrachloride)
- BIII - Substance of Annex B, Group III (Methyl Chloroform)
- CI - Substances of Annex C, Group I (HCFCs). The base consumption is 1989 calculated consumption of HCFCs plus 2.8% of 1989 calculated consumption of substances of Annex A, Group I.
- CII - Substances of Annex C, Group II (HBFCs)
- EI - Substance of Annex E, Group I (Methyl Bromide). Production and Consumption base for Article 5 parties is calculated as the average of 1995, 1996, 1997 and 1998.

Annex IIIb, Article 5 Parties - 2000 Analysis of Data on Production and Consumption by Groups of Substances (ODP Tons)

	PRODUCTION			CONSUMPTION			Per Capita Consum.
	Year	Base	%Change	Year	Base	%Change	

Key

- AI - Substances of Annex A, Group I (CFCs). Production and Consumption base for Article 5 parties is calculated as the average of 1995, 1996 and 1997.
- AII - Substances of Annex A, Group II (Halons). Production and Consumption base for Article 5 parties is calculated as the average of 1995, 1996 and 1997.
- BI - Substances of Annex B, Group I (Other Halogenated CFCs)
- BII - Substance of Annex B, Group II (Carbon Tetrachloride)
- BIII - Substance of Annex B, Group III (Methyl Chloroform)
- CI - Substances of Annex C, Group I (HCFCs). The base consumption is 1989 calculated consumption of HCFCs plus 2.8% of 1989 calculated consumption of substances of Annex A, Group I.
- CII - Substances of Annex C, Group II (HBFCs)
- EI - Substance of Annex E, Group I (Methyl Bromide). Production and Consumption base for Article 5 parties is calculated as the average of 1995, 1996, 1997 and 1998.
