FIFTEENTH MEETING OF THE PARTIES
TO THE MONTREAL PROTOCOL ON
SUBSTANCES THAT DEplete THE
OZONE LAYER

Nairobi, 10-14 November 2003

Item 3 (j) of the annotated provisional agenda of the preparatory segment*

Discussion on the issues and on draft decisions: reporting of data

**INFORMATION PROVIDED BY THE PARTIES IN ACCORDANCE WITH ARTICLE 7 OF THE
MONTREAL PROTOCOL ON SUBSTANCES THAT DEplete THE OZONE LAYER**

Introduction

1. The present report contains information received by the Secretariat, as of 6 October 2003, pursuant to Article 7 of the Montreal Protocol on Substances that Deplete the Ozone Layer.

2. Article 7 of the Montreal Protocol specifies as follows:

(a) That, for base-year data,¹ “Each Party shall provide to the Secretariat, within three months of becoming a Party, statistical data on its production, imports and exports of each of the controlled substances in Annex A for the year 1986 ... Annexes B and ... C for the year 1989 [and] Annex E for the year 1991, or the best possible estimates of such data where actual data are not available ...”;

* UNEP/OzL.Pro/15/1.

¹ In the present report, the “base year” means the first year for which Parties are required to report data for a particular substance. The term “baseline” means the level of production or consumption used as the basis for the phase-out schedules. For example, for Article 5 Parties, 1986 is the base year for Annex A substances, while the average of the 1995-1997 production or consumption levels constitutes the baseline for the control measures. Similarly, 1989 is the base year for non-Article 5 Parties for HCFCs, whereas the baseline is equal to the 1989 HCFC consumption plus 2.8 per cent of the 1989 CFC consumption.

(b) That for annual data, “Each Party shall provide to the Secretariat statistical data on its annual production (as defined in paragraph 5 of Article 1) of each of the controlled substances listed in Annexes A, B, C and E and, separately for each substance, amounts used for feedstocks, amounts destroyed by technologies approved by the Parties, and imports from and exports to Parties and non-Parties respectively, for the year during which provisions concerning the substances in Annexes A, B, C, and E respectively entered into force for that Party and for each year thereafter ... Data shall be forwarded not later than nine months after the end of the year to which the data relate”;

(c) That, for annual data on recovered substances, “Each Party shall provide to the Secretariat separate statistical data on its annual imports and exports of each of the controlled substances listed in Group II of Annex A and Group I of Annex C that have been recycled”.

3. Throughout the present report and its annexes, negative values for calculated production imply that quantities destroyed or export for feedstock uses exceeded production for that year. Similarly, negative values for calculated consumption indicate that exports for the year exceeded production and imports, implying that the exports came from stockpiles.

4. The following are annexed to the present report:

- Annexes I A and B** – 2002 analysis of data on production and consumption by groups of substances
- Annex II** – 2002 comparison of production, import and export of substances

C. Status of reporting of the baseline data by Article 5 Parties (Article 5 paragraphs 3 and 8 ter)

7. Baseline data for Article 5 Parties are defined under Article 5, paragraphs 3 and 8 ter, and are required in order to determine compliance with the control measures under Articles 2A-2I of the Protocol. Baseline data for Annex A substances for Article 5 Parties are defined as the average for 1995-1997. For Parties that have ratified the London Amendment, baseline data for Annex B substances for Article 5 Parties are defined as the average for 1998-2000. For Parties that have ratified the Copenhagen Amendment, baseline data for Annex E substance for Article 5 Parties are defined as the average for 1995-1998.

8. The Article 5 Parties listed in the following table have not reported the required data for one or more of the years required for the establishment of the indicated baselines (see annexes IX-XIV to the present report).

10. The previously reported and the revised baseline data are given in annex XVII to the present report. Additional information provided by the Parties to support the requests for changes in baseline has been provided to the Implementation Committee for consideration.

D. Status of annual data reporting for the period 1986-2002 (Article 7, paragraphs 3 and 4)

11. Under Article 7, paragraphs 3 and 4, of the Montreal Protocol, all Parties are required to report the data for each year to the Secretariat. The Secretariat has checked the status of ODS data reporting for the period 1986-2002 and a total of 31 non-Article 5 Parties and 86 Article 5 Parties have complied fully with the ODS reporting requirements under Article 7, paragraphs 3 and 4, of the Protocol. A list of those Parties is given in annex XVI to the present report. The Secretariat has sent reminders regarding missing data to the Parties concerned.

12. In accordance with Article 7, paragraph 4, States members of the European Community are required to report to the Secretariat only the data on production of controlled substances; Community-wide consumption data are reported by the European Community. The Secretariat considers all States members of the European Community that have reported zero production of controlled substances or have ceased production since 1992 (Austria, Belgium, Denmark, Finland, Ireland, Luxembourg, Portugal and Sweden) as maintaining zero production unless they report otherwise to the Secretariat.

13. The following Parties, none of which has reported any data on ozone-depleting substances (ODS), are temporarily classified as operating under Article 5 of the Protocol: Cape Verde, Djibouti, Guinea Bissau, Liberia, Rwanda, Sao Tome and Principe, Somalia and Suriname.

14. Subparagraphs (ii) and (iii) of paragraph (a) of decision VI/5 of the Sixth Meeting of the Parties to the Montreal Protocol read as follows:

“(ii) A country may only be classified temporarily as operating under Article 5 for a period of two years applicable from the time of adoption of the present decision. After this period, Article 5 status can no longer be extended without data reporting as required by the Protocol, unless the country has sought the assistance of the Executive Committee and the Implementation Committee. In this case, the extension period shall not exceed two years;

“(iii) A developing country temporarily classified as operating under Article 5 would lose the status if it does not report base-year data as required by the Protocol within one year of the approval of its country programme and its institutional strengthening by the Executive Committee, unless otherwise decided by the Meeting of the Parties.”

15. All the Parties temporarily classified as operating under Article 5 of the Protocol are receiving assistance from the Executive Committee of the Multilateral Fund, to implement their phase-out strategies including data reporting, by establishing or implementing their country programmes.

16. The Parties may wish to note the situation of the Parties temporarily classified as operating under Article 5.

E. Status of compliance with the reporting requirements for 2002

17. An analysis of the data for 2002 reported by the Parties under Article 7 of the Protocol is given as annex I to the present report. As of 6 October 2003, of the 183 Parties required to report in 2002, 129 (96 Article 5 and 33 non-Article 5) have reported data.

18. By 30 September 2003, 114 Parties (including non-producing members of the European Community) had reported data for 2002 within the deadline in accordance with Article 7 of the Protocol. Since then, a further 15 Parties have reported data for 2002. The reporting dates of each Party are shown in the relevant annexes. A Party has used the abbreviation "N.R." throughout the annexes to indicate non-reporting.

19. The following Article 5 Parties have not reported data for 2002: Albania, Algeria, Bahamas, Botswana, Cape Verde, Central African Republic, Chad, Chile, Colombia, Cuba, Cyprus, Djibouti, Dominican Republic, Egypt, Federated States of Micronesia, Grenada, Guinea, India, Lao People's Democratic Republic, Lesotho, Liberia, Libyan Arab Jamahiriya, Madagascar, Marshall Islands, Mauritania, Mozambique, Nepal, Panama, Republic of Korea, Republic of Moldova, Romania, Rwanda, Saint Lucia, Sao Tome and Principe, Seychelles, Solomon Islands, Somalia, South Africa, Suriname, Uganda, United Republic of Tanzania, Zambia and Zimbabwe.

20. The following Article 5 Parties have reported data for the control period 1 July 2001-31 December 2002 (see annex XVIII of the present report): Bangladesh, Costa Rica, Cuba, Ecuador, Gabon, Ghana, Morocco and Namibia.

21. The following non-Article 5 Parties have not reported data for 2002: Germany, Italy, Latvia, Liechtenstein, Monaco, New Zealand, Russian Federation, Spain, Switzerland, Turkmenistan and United States of America.

22. The following Article 5 Parties have reported data on production in 2002: Argentina, Brazil, China, Democratic People's Republic of Korea, Mexico and Venezuela.

23. The following non-Article 5 Parties have reported data on production for 2002: Canada, Czech Republic, France, Greece, Israel, Japan, Netherlands, Ukraine and United Kingdom of Great Britain and Northern Ireland.

24. The data for 2002 shows also that 73 Article 5 Parties reported zero consumption of halons. Similarly, 69 Article 5 Parties reported zero consumption of carbon tetrachloride, 71 Article 5 Parties reported zero consumption of methyl chloroform and only 44 Article 5 Parties have reported zero consumption of methyl bromide.

25. A comparison of production, imports and exports of ODS by the Parties for 2002 is attached to the present report as annex II. The comparison is for Parties that have reported both their annual data for 2002 and also their baseline data.

26. The following Parties reported on the types and quantities of Annex A and Annex B substances which they exported in 2002 and their destinations, as required under paragraph 4 of decision VII/9: Antigua and Barbuda, Argentina, Brazil, China, Croatia, Czech Republic, European Community, France, Japan, Lebanon, Mexico, Netherlands, Serbia and Montenegro, Singapore, Thailand and Venezuela. The only Party that reported exports of Annex A or B substances in 2002 but not the destinations of the exports was Malta.

27. Exports of methyl bromide in 2002 were reported by six Article 5 Parties (Brazil, China, Croatia, El Salvador, Lebanon and Singapore), and seven non-Article 5 Parties (Australia, Canada, European Community, France, Israel, Japan and Ukraine).

28. Information reported on new as opposed to recovered imports and exports for the year 2002 is presented in annex III while information on recovered and reclaimed ODSs for 2002 is presented in annex IV.

29. Parties that submitted production or consumption data under the global essential-use exemption for laboratory and analytical uses for the years 2002 are listed in annex V.

F. Compliance of non-Article 5 Parties with the control measures for 2002

30. Non-Article 5 Parties are required to have phased out production and consumption of Annex A, B, C/II and C/III substances (except for quantities that Meetings of the Parties have allowed, approved or exempted), to freeze consumption of HCFCs (C/I) and to reduce consumption of methyl bromide by at least 50 per cent. The figures analysed in the present section are for the calendar year January-December 2002.

31. The Secretariat analysed the production and consumption data for the year 2002 for all Parties, with reference to the applicable control measures. Where the data appear to indicate non-compliance with the control measures, the Parties concerned have been contacted for clarification. In a number of cases, for non-Article 5 Parties, the deviations were accounted for by approved essential use exemptions, laboratory uses or increased production for meeting the basic domestic needs of Article 5 Parties. This has been indicated as appropriate in the tables below.

32. Table 4 below shows all cases of deviation from the consumption reduction schedules revealed by the data submitted by non-Article 5 Parties for the year 2002 respectively, hereinafter referred to as "deviations".

The Parties are Australia, European Community, Hungary, Japan, Poland, Russian Federation, Ukraine and United States of America.

G. Compliance of Article 5 Parties with the control measures for 2002

35. Article 5 Parties are required to freeze production and consumption of CFCs (A/I), Halons (A/II), methyl bromide (E/I), and to have phased out hydrobromofluorocarbons (HBFCs) (C/II) and bromochloromethane (C/III). Of the 96 Article 5 Parties that reported data for 2002, 32 exceeded their allowed consumption limits of CFCs, halons, methyl bromide or HBFCs. Table 6 below summarizes the consumption information from Parties which have reported consumption above their allowed limits. For CFCs for Parties whose consumption for either 2001 or 2002 exceeded their baseline, and pursuant to paragraph 2 of decision X/29 of the Meeting of the Parties, the Secretariat requested those Parties to report their consumption of Annex A, group I, substances for the control period 1 July 2001-31 December 2002. Parties that reported consumption for the control period below the baseline are excluded from the list. Similarly, Belize, Ethiopia and Nigeria (for CFCs), whose benchmarks and plans of action approved by the Parties start in 2003, have been excluded from table 6.

1. Congo, Democratic Republic of	E/I (methyl bromide)	1.32
2. Sierra Leone	A/I (CFCs)	80.84
	E/I (methyl bromide)	1.20

37. Of the Article 5 Parties which are producers and have reported data for 2002, only Argentina has reported production above its baseline for CFCs, and this extra production was for meeting the basic domestic needs of Article 5 Parties as allowed under the Protocol.

H. Data for 2001

38. The 2001 data were placed before the Fourteenth Meeting of the Parties, in 2002. Out of the 180 Parties required to report, 163 Parties (122 Article 5 and 41 non-Article 5) have reported to date. Annex VII to the present report contains an analysis of the updated 2001 data.

39. Table 8 lists Parties that were producers of ODS in 2001. In the case of non-Article 5 Parties, any ODS production that was carried out in that year is accounted for by either exempted or allowed categories under the Montreal Protocol.

I. Compliance by non-Article 5 Parties with control measure for data submitted for 2001

40. While data for 2001 were reviewed and placed before the Fourteenth Meeting of the Parties, Parties' status of compliance was not reviewed at that time for a variety of reasons (primarily, submission of data after the deadline). The Secretariat has analysed the production and consumption data for 2001 for such Parties with reference to the applicable control measures. Where the data appear to indicate non-compliance with the control measures, the Parties concerned have been contacted for clarification.

41. Table 9 shows all cases of deviation from the consumption reduction schedules revealed by the data submitted by non-Article 5 Parties for the year 2001, referred to as “deviations”. For 2001, Azerbaijan reported consumption data that deviate from the benchmarks approved by the Parties and its obligations under the Protocol (i.e., the deviations are not accounted for by exempted or allowed applications). Parties whose consumption was accounted for by approved, exempted or allowed uses are not included in table 9.

2. Latvia	E/I (methyl bromide)	15.3	8.76	Extra stock to be consumed in subsequent years

* Potential case of non-compliance

42. For the non-Article 5 Parties that reported late for the year 2001, there were no deviations from the production reduction schedules revealed by the data submitted.

J. Compliance by Article 5 Parties in 2001 with the freeze in consumption of substances in Annex A/I (CFCs)

43. For Article 5 Parties, the control measures applicable in 2001 are the requirement to freeze production and consumption of Annex A, group I, substances. While the status of compliance of most of the Article 5 Parties for 2001 was reviewed last year, a few Parties, whose status was not reviewed at that time either because of late reporting or for other reasons, are presented in table 10.

44. The following Article 5 Parties reported consumption for 2000 or 2001 for Annex A, group I, substances that is above their baseline, hence they are in a state of potential non-compliance. Parties that were subject to decisions on non-compliance at the Fourteenth Meeting of Parties have been excluded from the list, hence these listed below are those that had been left out.

K. Review by the Implementation Committee

45. The information in this report will be reviewed by the Implementation Committee under the non-compliance procedure of the Montreal Protocol at its meeting, to be held from 5 to 7 November 2003. The Committee will then make its recommendations to the Meeting of the Parties for its consideration.
