OPEN-ENDED WORKING GROUP OF THE PARTIES TO  
THE MONTEAL PROTOCOL

First session of the first meeting

Nairobi 21-25 August 1989

FINAL REPORT

CORREGENDUM

Paragraph 21 under D. Beneficiaries on page 7 should read as follows:

The Working Group also agreed that any financial or other support provided should be channeled through the Governments of the recipient countries and that agreements between the financing mechanisms and the national Governments would determine how support to their various enterprises, whether they are international, national or joint ventures, would be provided, as it was the Governments which were ultimately responsible for ensuring compliance with the Protocol. One delegation stressed that financial support should also be provided to those developing countries that have already undertaken activities to comply with the Montreal Protocol.
