GRUPO DE TRABAJO DE COMPOSICIÓN ABIERTA
DE LAS PARTES EN EL PROTOCOLO DE MONTREAL
RELATIVO A LAS SUSTANCIAS QUE AGOTAN LA CAPA DE OZONO
21ª reunión
Montreal, Canadá, 23 a 25 de julio de 2002

Lista de Partes que no desean recibir productos ni equipos cuyo funcionamiento continuado depende de sustancias enumeradas en los anexos A y B del Protocolo de Montreal

De conformidad con el párrafo 5 de la decisión X/9 de la décima reunión de las Partes en el Protocolo de Montreal, la secretaría distribuye a título de información para las Partes, como anexo al presente documento, la lista de Partes que no desean recibir productos ni equipos cuyo funcionamiento continuado depende de sustancias enumeradas en los anexos A y B del Protocolo de Montreal.

K02-60700.s 220402 220402

Para economizar recursos, sólo se ha impreso un número limitado de ejemplares del presente documento. Se ruega a los delegados que lleven sus propios ejemplares a las reuniones y eviten solicitar otros.

Algeria

Antigua and Barbuda – does not want to import vehicles, equipment and other systems which use ODS in their operations from Japan, Taiwan, Republic of Korea, Malaysia, Hong Kong, Indonesia, Singapore, Mexico, Brazil and Venezuela.

Argentina -Does not wish to import aerosol products whose functioning relies on Annex A substances for their propulsion, except for medical uses and cleaning of electronic circuits. By law 24040 the production of aerosols dependent on Annex A substances is prohibited since December 1993, except for the uses mentioned above.

Australia - except portable fire extinguishers where:

- (a) the product is essential for medical, veterinary, defence, industrial safety or public safety purposes; and no practical alternative exists to the use of scheduled substances in the operation or manufacture, as the case requires, of the product if it is to continue to be effective for such a purpose;
- (b) because of the requirements of a law concerning the manufacture or use of the product, there is no practical alternatives to the use of the scheduled substances in the operation or manufacture, as the case requires, of the product; or
- (c) the product is for use in conjunction with the calibration or scientific, measuring or safety equipment.
