Conference of Plenipotentiaries
on the Protection of the Ozone Layer
Vienna, 18-22 March 1985

Draft Resolution on a Protocol Concerning Chlorofluorocarbons
(Proposal based on discussions in the informal negotiating meeting)

The Conference,

- Noting with appreciation that a Convention for the Protection of the Ozone Layer was opened for signature in Vienna on 22 March 1985;
- Bearing in mind decision 8/7B adopted on 29 April 1980 by the Governing Council of UNEP
- Considering that the Convention is an important step to protect the Ozone Layer from modifications due to human activities;
- Noting that Article 2 of the Convention establishes an obligation to take appropriate measures to protect human health and the environment against adverse effects resulting or likely to result from human activities which modify or are likely to modify the ozone layer;
- Recognizing the possibility that world-wide emissions and use of fully-halogenated chlorofluorocarbons (CFCs) and other chlorine-containing substances can significantly deplete and otherwise modify the ozone layer, leading to potentially adverse effects on human health, crops, marine life, materials and climate, and recognizing at the same time the need to further assess possible modifications and their potentially adverse effects;
- Mindful of the precautionary measures for controlling emissions and use of CFCs that have already been taken at national and regional levels, but recognizing that such measures might not be sufficient for protecting the ozone layer;
- Determined therefore to continue negotiations on the development of a protocol to control equitably global production, emissions and use of CFCs;
- Mindful that special consideration should be given to the particular situation of developing countries;
- Noting the considerable progress made by the Ad-Hoc Working Group of Legal and Technical Experts for the Elaboration of a Global Framework Convention for the Protection of the Ozone Layer to develop a protocol concerning CFCs, but further noting that the Working Group was not in a position to complete its work on the protocol:

1. Pending the entry into force of the Convention, requests the Executive Director of UNEP, on the basis of the work of the Ad Hoc Working Group, to convene a Working Group to continue work on a protocol that addresses both
