Report by the Secretariat

Introduction

1. The present report contains information received by the Secretariat, as of 20 August 2007, pursuant to Article 7 of the Montreal Protocol on Substances that Deplete the Ozone Layer.

2. Article 7 of the Montreal Protocol provides:

(a) That for base year data,¹ “[e]ach Party shall provide to the Secretariat, within three months of becoming a Party, statistical data on its production, imports and exports of each of the controlled substances in Annex A for the year 1986 ... in Annex B and Groups I and II of Annex C for the year 1989 [and] in Annex E, for the year 1991, or the best possible estimates of such data where actual data are not available ...”;

* UNEP/OzL.Pro.19/1.

** UNEP/OzL.Pro.ImpCom/39/1.

¹ In the present report, “base year” means the first year for which Parties are required to report data for a particular substance. “Baseline” means the level of production or consumption used as the basis for phase-out schedules. For example, for Article 5 Parties, 1986 is the base year for Annex A substances, while the average of the 1995–1997 production or consumption levels constitutes the baseline for control measures. Similarly, 1989 is the base year for non-Article 5 Parties for HCFCs, whereas the baseline is equal to 1989 HCFC consumption plus 2.8 per cent of 1989 CFC consumption.

(b) That for annual data, “[e]ach Party shall provide to the Secretariat statistical data on its annual production (as defined in paragraph 5 of Article 1) of each of the controlled substances listed in Annexes A, B, C and E and, separately, for each substance, amounts used for feedstock, amounts destroyed by technologies approved by the Parties, and imports from and exports to Parties and non Parties respectively, for the year during which provisions concerning the substances in Annexes A, B, C and E respectively entered into force for that Party and for each year thereafter. ... Data shall be forwarded not later than nine months after the end of the year to which the data relate”;

(c) That for annual data on recovered substances, “[e]ach Party shall provide to the Secretariat separate statistical data of its annual imports and exports of each of the controlled substances listed in Group II of Annex A and Group I of Annex C that have been recycled”.

3. Throughout the present report and its annexes, negative values for calculated production for a given year imply that quantities destroyed or exported for feedstock uses exceeded production for that year. Similarly, negative values for calculated consumption indicate that exports for the year exceeded production and/or imports, implying that the exports came from stockpiles. Figures in the present report and its annexes relating to quantities of controlled substances have been rounded to the indicated number of decimal points.

4. Table 1 below lists the annexes to the present report and outlines their content.

Table 1: Annexes to the present report

Annex(es)	Description

VI	Consumption baseline data for Parties operating under Article 5 (all annex groups)

A. Status of ratification of the Montreal Protocol and its London, Copenhagen, Montreal and Beijing Amendments

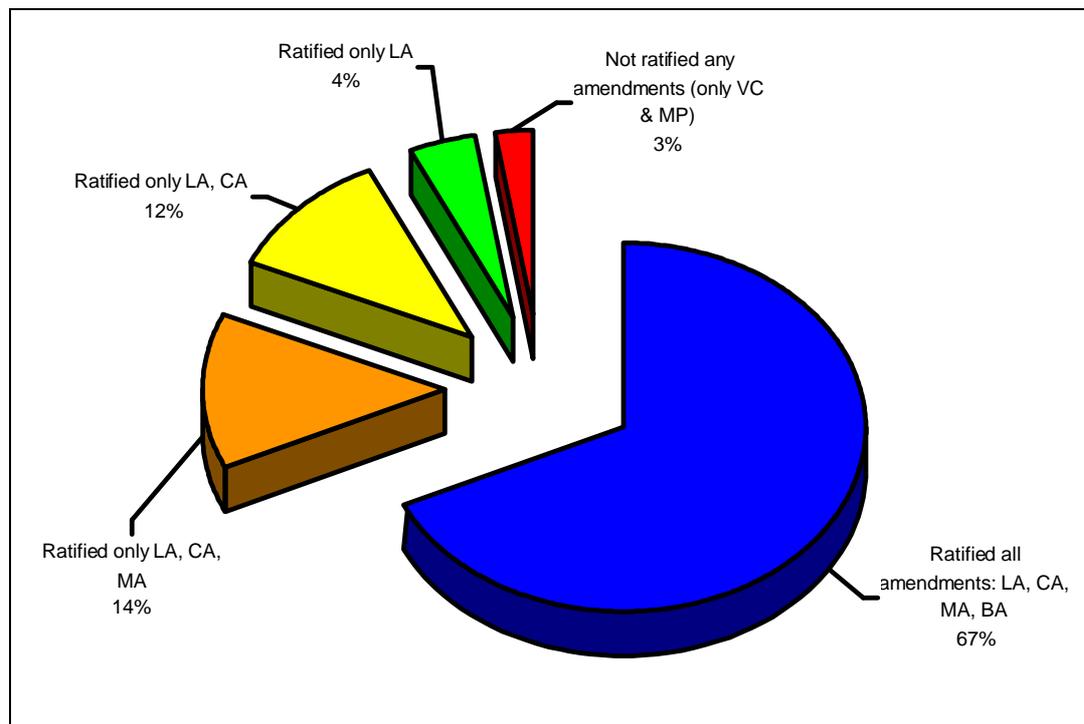

5. The obligations of a Party under the Montreal Protocol are determined by the amendments to the Protocol that a Party has ratified. Table 2 below summarizes the number of ratifications as of 20 August 2007.

Table 2: Summary of the status of ratification as of 20 August 2007

Instrument	Number of Parties that have ratified the instrument
Vienna Convention	191
Montreal Protocol	191
London Amendment	186
Copenhagen Amendment	178
Montreal Amendment	156
Beijing Amendment	130

6. Figure 1 depicts the status of ratification of the amendments in terms of the percentage of Parties to the Montreal Protocol that have ratified the various amendments.

Figure 1: Status of ratification of the amendments to the Montreal Protocol

(VC = Vienna Convention | MP = Montreal Protocol | LA = London Amendment
CA = Copenhagen Amendment | MA = Montreal Amendment | BA = Beijing Amendment)

7. Table 3 below summarizes the data reporting obligations and control measures associated with the various amendments of the Protocol:

Table 3: Obligations associated with the various amendments to the Protocol

Instrument	Reporting requirements and control measures
Montreal Protocol	Annex A, Groups I and II
London Amendment	Annex B, Groups I, II and III, and Annex C, Group I (reporting requirement only)
Copenhagen Amendment	Annex C, Groups I and II, and Annex E, Group I
Beijing Amendment	Annex C, Group III

B. Status of reporting of base-year data (Article 7, paragraphs 1 and 2)

8. Table 4 below summarizes the reporting obligations under paragraphs 1 and 2 of Article 7, which Parties assume upon ratification of the various instruments under the Protocol, and the length of time after ratification that a Party has to fulfil these obligations:

Table 4: Base year reporting obligations under paragraphs 1 and 2 of Article 7

Ratification	Annexes for which reporting is required	Base year to be reported	Period within which report is required
Montreal Protocol	A	1986	3 months
London Amendment	B and C	1989	6 months
Copenhagen Amendment	E	1991	6 months

9. Article 7 also provides that Parties should submit best possible estimates of the data referred to above where actual data are not available.

10. Based on the treaties that they have ratified and the dates of ratification of those treaties, all the Parties have submitted their base-year data as required, with the exception of the two Parties listed in the table 5 below. Those two Parties have only recently ratified the instruments whose base-year reporting obligations they have yet to meet.

Table 5: Parties that have not yet reported base year data

Party	Annexes for which base year data have not been reported	Remarks
1. Equatorial Guinea*	A (1986)	Ratified the Montreal Protocol on 6 September 2006
2. Montenegro*	A (1986), B (1989), C (1989), E (1991)	Ratified the Montreal Protocol, and the London and Copenhagen Amendments on 23 October 2006

* Both Equatorial Guinea and Montenegro have not reported any data and are therefore temporarily classified as operating under Article 5 until their data has been received.

11. The Implementation Committee will consider the issue of non-reporting of base-year data and make recommendations to the Meeting of the Parties.

C. Status of reporting of baseline data by Parties operating under Article 5 (Article 5, paragraphs 3 and 8 ter)

12. Paragraphs 3 and 8 ter of Article 5 define the baseline data required from Parties operating under Article 5 in order to determine compliance with the control measures under Articles 2A–2I of the Protocol, as amended and adjusted by Article 5. The baseline data requirements for Parties operating under Article 5 are indicated in table 6 below.

Table 6: Baseline data for Parties operating under Article 5

Annex	Baseline for consumption or production	Ratification required to bind the Party
A	Average for 1995–1997	Montreal Protocol
B	Average for 1998–2000	London Amendment
E	Average for 1995–1998	Copenhagen Amendment

13. Annexes V and VI to the present report contain the baseline data reported by Parties operating under Article 5 for substances in Annexes A, B and E.

14. Based on the treaties that Parties operating under Article 5 have ratified and the dates of ratification of those treaties, only two Parties operating under Article 5 have not reported the data for one or more of the years required for the establishment of the their baselines. Those Parties, which are listed in table 7 below, have only recently ratified the instruments whose base-year reporting obligations they have yet to meet.

Table 7: Parties operating under Article 5 that have not yet reported baseline data

Party	Annexes for which baseline data has not been reported	Remarks
1. Equatorial Guinea*	A/I, A/II	Ratified the Montreal Protocol on 6 September 2006
2. Montenegro*	A/I, A/II, B/I, B/II, B/III, E/I	Ratified the Montreal Protocol, and the London and Copenhagen Amendments on 23 October 2006

* Both Equatorial Guinea and Montenegro have not reported any data and are therefore temporarily classified as operating under Article 5 until their data has been received.

15. The Implementation Committee will consider the issue of non-reporting of baseline data, and make recommendations to the Meeting of the Parties.

D. Requests for revision of baseline data (decisions XIII/15 and XV/19)

16. By paragraph 5 of its decision XIII/15, the Meeting of the Parties advised Parties that request changes in reported baseline data to present their requests before the Implementation Committee which will work with the Ozone Secretariat and the Executive Committee to confirm the justification for the changes and present them to the Meeting of the Parties for approval.

17. On the basis of their submissions, the Implementation Committee is considering requests for revision of baseline data from the Parties listed below in table 8.

Table 8: Parties that have requested revision of reported baseline data

Party	Substance/annex for which revision of baseline data has been requested
1. Greece	CFCs (Annex A/I)
2. Saudi Arabia	Methyl bromide (Annex E/I)
3. Serbia*	Carbon tetrachloride (Annex B/II)
4. Turkmenistan	Methyl bromide (Annex E/I)
5. Ukraine	Methyl bromide (Annex E/I)
6. United Arab Emirates	Carbon tetrachloride (Annex B/II)

* Serbia has yet to clarify whether it sought to change its baseline data when it reported a baseline year's consumption data that differed from the Party's previously reported data.

18. The Implementation Committee will consider the requests for revision of baseline data and make recommendations to the Meeting of the Parties.

E. Status of compliance with annual data reporting requirements (Article 7, paragraphs 3 and 3 bis) for the period 1986 to 2006

19. Paragraph 3 of Article 7 of the Montreal Protocol provides that all Parties are required to report data for a given year to the Secretariat not later than nine months after the end of that year. For the period 1986 to 2005, all Parties are in compliance with their reporting obligations under Article 7 paragraph 3.

20. For the year 2006, of the 190 Parties required to report for the year, only 98 Parties (23 Parties not operating under Article 5 and 75 Parties operating under Article 5) have complied with their data reporting obligations as of 20 August 2007. Since the present report has been prepared prior to the expiry of the stipulated nine months, the remaining 92 Parties that have not reported for 2006 cannot be considered to be in non-compliance with their annual data reporting obligations.

21. The Implementation Committee will consider the cases of Parties that have not reported data for 2006 and make recommendations to the Meeting of the Parties.

F. Other details of data reported for 2006

22. Parties that have not yet reported 2006 data still have until 30 September 2007 to do so. Decision XVII/20 of the Seventeenth Meeting of the Parties, however, encouraged Parties to continue to report consumption and production data as soon as figures are available and preferably by 30 June each year, as agreed in decision XV/15 of the Fifteenth Meeting of the Parties. By 30 June 2007, 72 Parties (57 Parties operating under Article 5 and 15 Parties not operating under Article 5) had reported data for 2006.

23. Calculated production and consumption for 2006 based on the data received so far are presented in annexes Ia, Ib and Ic to the present report.

24. Annex II to the present report contains a list of the recovered ozone-depleting substances imported and exported by the Parties in 2006.

25. Parties that have submitted production or consumption data for laboratory and analytical uses for the year 2006 are listed in annex III to the present report.

26. Annex IVa, IVb and IVc to the present report provide the complete 2005 data reported by the individual Parties.

27. All the Parties that were granted essential-use exemptions for 2006 have submitted to the Secretariat their reporting accounts on the quantities and uses of ozone-depleting substances produced and consumed for essential uses in accordance with paragraph 9 of decision VIII/9 of the Eighth Meeting of the Parties. Those Parties are the European Community, the Russian Federation and the United States of America.

28. Similarly, the following Parties were granted critical-use exemptions for 2006: Australia, Canada, European Community member States (Belgium, France, Germany, Greece, Ireland, Italy, Latvia, Malta, the Netherlands, Poland, Portugal, Spain, the United Kingdom of Great Britain and Northern Ireland), Israel, Japan, New Zealand, Switzerland and the United States of America. With the exception of Switzerland, all have submitted their reporting accounts for 2006 to the Secretariat.

G. Status of compliance with the control measures for 2006 by Parties not operating under Article 5

29. The control measures applicable to Parties not operating under Article 5 for 2006 are summarized in table 9 below.

Table 9: Control measures applicable to Parties not operating under Article 5 for 2006

Annex group(s)	Control measures applicable in 2006 to production and/or consumption*
A, B, C/II, C/III and E	Phase-out of production and consumption
C/I (HCFCs)	Production: Freeze at baseline levels Consumption: No greater than 65 per cent of the baseline

* Except for quantities allowed, approved or exempted by the Protocol or the Meeting of the Parties

30. For Parties not operating under Article 5, allowed deviations are limited to approved essential-use or critical-use exemptions, laboratory and analytical uses, and increased production for meeting the basic domestic needs of Parties operating under Article 5.

31. The figures analysed in the present section are for the calendar year 2006 for Parties that had reported by 20 August 2007. The Secretariat presents below the data on production and consumption that deviates from the applicable control measures for the year 2006 for all non-Article 5 Parties that have reported so far. Where the deviation from the control measures is not due to an allowed or exempted use, the Parties concerned have been contacted for clarification.

32. Table 10 below shows all cases of deviation from the consumption-reduction schedules suggested by the data submitted by Parties not operating under Article 5 for the year 2006.

Notes

“Possible non-compliance” means consumption is not fully accounted for by exempted or allowed uses and the excess consumption is yet to be clarified or accounted for and that the Party has had more than six weeks to respond

“Non-Compliance” means that the Party has provided information that, among other things, acknowledges a non-compliance situation.

38. As of 15 August, none of the Parties operating under Article 5 that are producers of controlled ozone-depleting substances had reported data showing deviations for 2006.

39. The Implementation Committee will consider the cases of non-compliance and possible non-compliance with the control measures by Parties operating under Article 5 and make appropriate recommendations to the Meeting of the Parties.

I. Production in 2006 of CFCs in Parties not operating under Article 5 to meet the basic domestic needs of Parties operating under Article 5 (decision XVII/12(2))

40. As requested in paragraph 2 of decision XVII/12, table 14 below presents the reported levels of production in 2006 of CFCs in Parties not operating under Article 5 to meet the basic domestic needs of Parties operating under Article 5, as compared to their allowed production as set out in Article 2A of the Protocol, together with available data on transfer of production rights.

* The basic domestic needs production allowance of the Netherlands is subject to confirmation.

** "NR" denotes Parties that have not yet reported their data under Article 7 for the year 2006.

41. The present report does not include copies of affirmations from importing Parties as required by decision XVII/12 because Greece, the only Party not operating under Article 5 that has so far reported any production for basic domestic needs for Parties operating under Article 5 for the year 2006, has not yet sent any such copies to the Secretariat. The Party has already been reminded by the Secretariat to send copies of the affirmations to the Secretariat.

J. Consolidated record of cases of stockpiling prepared in accordance with decision XVIII/17

42. By decision XVIII/17, the Meeting of the Parties requested the Secretariat to maintain a consolidated record of the cases in which the Parties have explained that their situations of possible non-compliance are the consequence of scenarios outlined in that decision and to incorporate that record in the Secretariat's report on data submitted by the Parties in accordance with Article 7 of the Protocol.

43. In fulfilment of that request, the Secretariat has prepared an addendum to the present report (UNEP/OzL.Pro.19/6/Add.1), entitled "Consolidated record of cases of stockpiling prepared in accordance with decision XVIII/17 of the Eighteenth Meeting of the Parties", which contains the requested information.
