Information provided by Parties in accordance with Article 7 of the Montreal Protocol on Substances that Deplete the Ozone Layer

Report by the Secretariat

Introduction

1. The present report is prepared pursuant to paragraph (c) of Article 12 of the Montreal Protocol and contains information received by the Secretariat, as at 22 September 2009, pursuant to Article 7 of the Protocol.
2. Article 7 of the Montreal Protocol provides:
 - (a) That, for base-year data,¹ “each Party shall provide to the Secretariat, within three months of becoming a Party, statistical data on its production, imports and exports of each of the controlled substances in Annex A for the year 1986 ... in Annexes B and Annex C for the year 1989

* UNEP/OzL.Pro.21/1.

** UNEP/OzL.Pro/ImpCom/43/1.

1 In the present report, “base year” means the first year for which Parties are required to report data for a particular substance. “Baseline” means the level of production or consumption used as the basis for phase-out schedules. For example, for Parties operating under paragraph 1 of Article 5, 1986 is the base year for Annex A substances, while the average of the 1995–1997 production or consumption levels constitutes the baseline for control measures. Similarly, 1989 is the base year for Parties not operating under paragraph 1 of Article 5 for hydrochlorofluorocarbons (HCFCs), whereas the baseline is equal to 1989 HCFC consumption plus 2.8 per cent of 1989 chlorofluorocarbon (CFC) consumption.

[and] in Annex E, for the year 1991, or the best possible estimates of such data where actual data are not available ...”;

(b) That, for annual data, “each Party shall provide to the Secretariat statistical data on its annual production (as defined in paragraph 5 of Article 1) of each of the controlled substances listed in Annexes A, B, C and E and, separately, for each substance, amounts used for feedstock, amounts destroyed by technologies approved by the Parties, and imports from and exports to Parties and non-Parties respectively, for the year during which provisions concerning the substances in Annexes A, B, C and E respectively entered into force for that Party and for each year thereafter ... Data shall be forwarded not later than nine months after the end of the year to which the data relate”;

(c) That, for annual data on recovered substances, “each Party shall provide to the Secretariat separate statistical data of its annual imports and exports of each of the controlled substances listed in Group II of Annex A and Group I of Annex C that have been recycled”.

3. Throughout the present report and its annexes, negative values for calculated production for a given year imply that quantities destroyed or exported for feedstock uses exceeded production for that year. Similarly, negative values for calculated consumption indicate that exports for the year exceeded production and imports, implying that the exports came from stockpiles. Figures in the present report and its annexes relating to quantities of controlled substances have been rounded to one decimal point in accordance with the guidance provided at the Eighteenth Meeting of the Parties (document UNEP/OzL.Pro.18/10, paragraphs 145–147).

4. Table 1 lists the annexes to the present report and outlines their content.

**Table 4
Base-year reporting obligations under paragraphs 1 and 2 of Article 7**

9. Article 7 also provides that Parties should submit best possible estimates of the data referred to above where actual data are not available.
10. Based on the treaties that Parties have ratified so far and the dates of ratification thereof, no Parties are in non-compliance with the requirement to report their base-year data under paragraphs 1 and 2 of Article 7.
11. Based on the treaties that Parties have ratified and the dates of ratification thereof, all Parties except Andorra have submitted their base-year data as required. Andorra, whose details are listed in table 5, only recently ratified the instruments, whose base-year reporting obligations the Party is yet to meet.

Table 5
Parties that have not yet reported base-year data

<i>Party</i>	<i>Annexes for which base-year data have not been reported</i>	<i>Remarks</i>
Andorra	A (1986), B (1989), C (1989), E (1991)	Party was required to report base-year data by 26 July 2009. Ratified the Montreal Protocol and the London and Copenhagen Amendments on 26 January 2009.

C. Status of reporting of baseline data by Parties operating under paragraph 1 of Article 5 (Article 5, paragraphs 3 and 8 ter)

12. Paragraphs 3 and 8 ter of Article 5 define the baseline data required from Parties operating under paragraph 1 of Article 5 to determine compliance with the control measures under Articles 2A–2I of the Protocol, as amended and adjusted by Article 5. The baseline data requirements for Parties operating under paragraph 1 of Article 5 are indicated in table 6.

Table 6
Baseline data for Parties operating under paragraph 1 of Article 5

<i>Annex</i>	<i>Baseline for consumption or production</i>	<i>Ratification required to bind the Party</i>
A	Average for 1995–1997	Montreal Protocol
B	Average for 1998–2000	London Amendment
E	Average for 1995–1998	Copenhagen Amendment

13. Based on the treaties that Parties operating under paragraph 1 of Article 5 have ratified, the dates of ratification thereof, and the annual data reported so far by Parties, no Parties are in non-compliance with the requirement to report baseline data under paragraphs 3 and 8 ter of Article 5.

D. Status of compliance with annual data-reporting requirements (Article 7, paragraphs 3 and 3 bis) for the period 1986–2008

14. Paragraph 3 of Article 7 of the Montreal Protocol provides that all Parties are required to report data for a given year to the Secretariat not later than nine months after the end of that year. For the period 1986–2007, all Parties are in full compliance with their data-reporting obligations under paragraph 3 of Article 7.

15. For 2008, of the 193 Parties required to report data, 144 (37 Parties not operating under paragraph 1 of Article 5 and 107 so operating) have met their data-reporting obligations as at 22 September 2009. The calculated production and consumption data reported for 2008 are presented in annexes I (a), I (b) and I (c) to the present report.

16. Decision XX/12 encouraged Parties to continue to report consumption and production data as soon as figures were available and preferably by 30 June each year, as agreed in decision XV/15. By 30 June 2009, of the 193 Parties required to report data for the year 2008, 64 (52 Parties operating under paragraph 1 of Article 5 and 12 not so operating) had reported data for 2008.

17. Under Article 7, Parties are required to report data for 2008 by 30 September 2009. Since the present report has been prepared prior to that date, the remaining Parties that have not reported for 2008 will be reviewed in an addendum to the present report to list those Parties that will be in non-compliance with the obligation to report 2008 data by the end of September 2009.

E. Other details of data reported for 2008

18. The following three Parties were granted essential-use exemptions for chlorofluorocarbons for 2008: European Community (200 metric tonnes), Russian Federation (352 metric tonnes) and United States of America (385 metric tonnes). All have submitted to the Secretariat their reporting accounts on the quantities and uses of ozone-depleting substances produced and consumed for essential uses in accordance with paragraph 9 of decision VIII/9, which provides for Parties that have been granted essential-use exemptions for previous years to submit their report by 31 January each year.

19. Similarly, the following seven Parties were granted critical-use exemptions for methyl bromide for 2008: Australia (48.45 metric tonnes), Canada (42.179 metric tonnes), European Community member States Poland (12.995 metric tonnes) and Spain (232.151 metric tonnes), Israel (860.672 metric tonnes), Japan (443.775 metric tonnes) and United States of America (4,595.04 metric tonnes). All have submitted their reporting accounts for 2008 in accordance with decision XVI/6.

20. The following nine Parties not operating under paragraph 1 of Article 5 reported production of controlled ozone-depleting substances for 2008: Canada, Czech Republic, Germany, Israel, Italy, Netherlands, Russian Federation, Spain and United States of America. Other producing Parties are yet to report data for 2008.

21. The following two Parties operating under Article 5 have reported production of controlled ozone-depleting substances for 2008: Argentina and Mexico. Other producing Parties are yet to report data for 2008.

22. Production of methyl bromide in 2008 was reported by Israel and United States of America. Exports of methyl bromide in 2008 were reported by the following eight Parties: Australia, El Salvador, European Community, Israel, Mexico, New Zealand, Singapore and United States of America.

23. There were no reported exports in 2008 of hydrobromofluorocarbons, although two Parties reported imports thereof.

24. Exports of bromochloromethane in 2008 were reported by the following three Parties: European Community, Israel and United States of America.

25. The following 21 Parties reported exports of ozone-depleting substances for 2008, together with export destinations, as required for Annex A and B substances under paragraph 4 of decision VII/9, and as further revised to include all other substances in decision XVII/16: Antigua and Barbuda, Argentina, Australia, Brazil, Canada, Croatia, Cuba, El Salvador, European Community, Fiji, Israel, Lebanon, Mauritius, Mexico, Netherlands, New Zealand, Russian Federation, Serbia, Singapore, Switzerland and United States of America. Five of these Parties – Argentina, Canada, European Community, Israel and United States of America – also reported exports of ozone-depleting substances for 2008 where some export quantities for individual destinations were not specified.

26. Two Parties – Trinidad and Tobago and Turkey – reported exports of ozone-depleting substances for 2008 but did not specify quantities for individual destinations for any of their exports.

27. Annex II to the present report contains a summary of the comparison of reported production, import and export of substances by the Parties for 2008.

28. Annex III to the present report contains a summary of the comparison of reported import and export of new and recovered substances for 2008.

29. Annex IV to the present report contains a list of the reported recovered ozone-depleting substances imported and exported by the Parties in 2008.

30. Parties that have submitted production or consumption data for laboratory and analytical uses for 2008 are listed in annex V to the present report.

31. Annex VI to the present report provides a summary by region of the calculated production and consumption data for 2008.
32. The calculated production and consumption data reported for 2007 are presented in annexes VII (a), VII (b) and VII (c) to the present report.

F. Status of compliance with the control measures for 2008 by Parties not operating under paragraph 1 of Article 5

33. The control measures applicable to Parties not operating under paragraph 1 of Article 5 for 2008 are summarized in table 7.

Table 7

Control measures applicable to Parties not operating under paragraph 1 of Article 5 for 2008

<i>Annex and group(s)</i>	<i>Control measures applicable in 2008 to production and consumption*</i>

34. For Parties not operating under paragraph 1 of Article 5, permitted deviations are limited to approved essential-use or critical-use exemptions, laboratory and analytical uses, and increased production for satisfying the basic domestic needs of Parties so operating. In reviewing compliance, the Secretariat also takes into account transfer of production rights between Parties.

35. Excess production or consumption attributable to stockpiling under the scenarios described in decision XVIII/17 are also recorded for information purposes only and are not subject to the non-compliance procedure, as directed by the Parties in that decision.

36. Table 8 shows all cases of deviation from the consumption-reduction schedules suggested by the data submitted by Parties not operating under paragraph 1 of Article 5 for the year 2008.

39. For Parties operating under paragraph 1 of Article 5, permitted deviations are currently limited to laboratory and analytical uses specified under decision XVII/13 and increased production for meeting the basic domestic needs of Parties operating under paragraph 1 of Article 5.

40. Excess production or consumption attributable to stockpiling under the scenarios described in decision XVIII/17 are recorded for information purposes only and are not subject to the non-compliance procedure, as directed in that decision.

41. Table 11 lists all cases of deviation from the consumption-reduction schedules suggested by the data submitted by Parties operating under paragraph 1 of Article 5 for 2008.

42. For Parties that may previously have been in non-compliance and that have decisions outlining plans of actions with time-specific benchmarks for return to compliance, the limits specified in those decisions are used as the primary determinant of that Party's adherence to its obligations to reduce its production and consumption levels. Since the decisions for such Parties call for close monitoring of the progress of those Parties with regard to their implementation of their plans of action, they are all included in the table of deviations below for information purposes.

H. Production in 2008 of CFCs in Parties not operating under paragraph 1 of Article 5 to meet the basic domestic needs of Parties so operating (decision XVII/12(2))

44. By paragraph 2 of decision XVII/12, the Secretariat was requested to report the level of production of CFCs in Parties not operating under paragraph 1 of Article 5 to meet the basic domestic needs of Parties so operating as compared to their allowed production as set out in Article 2A of the Protocol and when doing so to include available data on transfer of production rights. Table 12 presents the reported information for 2008, in fulfilment of that requirement.

45. All the production transfers for 2008 were reported to the Secretariat by letters from both the source countries and the destination countries of those transfers, as required under paragraph 5 of Article 2 of the Montreal Protocol.

46. Paragraph 2 of decision XVII/12 also requested the Secretariat to include copies of affirmations from importing Parties submitted to the Secretariat by exporting Parties. Only Spain has submitted information in response to decision XVII/12. The latest of those submissions covers exports made during 2008 and 2009 and is included as annex VIII to the present report. While copies of affirmations were also submitted to the Secretariat, owing to confidentiality concerns by Spain, those affirmations are not included in the present report. Instead, the Party suggested that they could be made available upon request and subject to confidentiality rules.

I. Consolidated record of cases of stockpiling prepared in accordance with decision XVIII/17

47. By decision XVIII/17, the Parties requested the Secretariat to maintain a consolidated record of the cases in which Parties had explained that their situations of possible non-compliance were the consequence of scenarios outlined in that decision and to incorporate that record in the Secretariat's report on data submitted by the Parties in accordance with Article 7 of the Protocol.

48. In fulfilment of that request, the Secretariat has included the requested information as annex IX to the present report, based on information received by the Secretariat prior to 22 September 2009.

49. Decision XVIII/17 provides for the Twenty-First Meeting of the Parties to revisit this issue with a view to considering the need for further action.

Annex VIII – Information submitted by Spain on exports to meet the basic domestic needs of Parties operating under Article 5(1) (decision XVII/12(2))

SPAIN – 2008 and 2009 CFC PRODUCTION REPORT ON DECISION XVII/12

Introduction

Dec XVII/12 urges all non-Article 5 Parties that produce chlorofluorocarbons to meet the basic domestic needs of Article 5 Parties to ensure that such production is truly required by requesting a written affirmation from the prospective importing Party that the chlorofluorocarbons are required and that such importation would not result in its non-compliance, prior to exporting any chlorofluorocarbons to meet the basic domestic needs of Article 5 Parties. It also requests to include copies of these written affirmations when reporting chlorofluorocarbon production to meet the basic domestic needs of Article 5 Parties to the Ozone Secretariat under Article 7 of the Protocol.

The implementation of the paragraph above by Spain and the European Community was described in detail in 2007 report. Relevant information about 2008 and 2009 is included below together with a list of the requests of the written affirmations. Copies of the relevant documents are attached in electronic format. They contain confidential information from companies, so we suggest making them only available on request and subject to confidentiality rules.

As Spain is the only producing Party within the European Community, this report reflects the situation for all 27 Parties that are Member States of the European Community.

Implementation of Dec XVII/12 during 2008 and 2009

In 2008 and 2009, only one company physically produced CFCs in Europe (Arkema Quimica S.A.), which is located in Spain. It produced according to Spanish production rights, and also using transferred rights from France and United Kingdom.

The quantities of CFCs authorised to be produced for BDN in Spain in 2008 and 2009 were (in metric tonnes):

Authorized Production Rights	2008	2009
Spain	407,70	407,70
France	519,49	519,49
United Kingdom	525,00	525,00
Total	1452,19	1452,19

The total quantities search out by the letters requesting written affirmations were, according to the information received from the companies, 1479.12 metric tonnes for 2008 and 1880 metric tonnes for 2009.

The total quantities produced for BDN in Spain in 2008 were 1081.52 metric tonnes.

Around 26 letters were sent out and 7 replies were received in relation with 2008/2009 CFC production.
