Programme**

**Twenty-Sixth Meeting of the Parties to
the Montreal Protocol on Substances
that Deplete the Ozone Layer**
Paris, 17–21 November 2014
Item 4 (j) of the provisional agenda for the preparatory
segment *
**Montreal Protocol issues: compliance and reporting
issues considered by the Implementation Committee**

**Implementation Committee under the
Non-Compliance Procedure for the
Montreal Protocol**
Fifty-third meeting
Paris, 14 and 15 November 2014
Items 3 and 5–8 of the provisional agenda**

Information provided by parties in accordance with Articles 7 and 9 of the Montreal Protocol on Substances that Deplete the Ozone Layer

Report by the Secretariat

Summary

The key aspects of the information contained in the present report are summarized below for the convenience of the parties in their consideration of the report.

<i>Issue</i>	<i>Status</i>
Ratification of amendments	<ul style="list-style-type: none"> All 197 parties to the Montreal Protocol have ratified the London, Copenhagen and Montreal amendments to the Protocol 196 parties to the Protocol have ratified the Beijing Amendment 1 party, Mauritania, has yet to ratify the Beijing Amendment
Reporting pursuant to Article 9 for 2012 and 2013	<ul style="list-style-type: none"> 1 party submitted a report in 2013 2 parties submitted information in 2012
Annual Article 7 data reporting for 2012 and 2013	<ul style="list-style-type: none"> Data reporting for 2013: 162 out of 197 parties have reported Data reporting for 1986–2012: all 197 parties required to report have done so
Compliance with control measures for 2012 and 2013	<ul style="list-style-type: none"> For 2013, 154 out of 162 parties are in compliance with their obligations; 3 parties have non-compliance issues and 5 parties have yet to clarify or confirm their compliance status For 2012, 195 out of 197 parties were in compliance and 2 parties had non-compliance issues

* UNEP/OzL.Conv.10/1/Rev.1-UNEP/OzL.Pro.26/1/Rev.1.

** UNEP/OzL.Pro/ImpCom/53/R.1.

Accounting for chlorofluorocarbon (CFC) essential-use exemptions and methyl bromide critical-use exemptions for 2013	<ul style="list-style-type: none"> • Both parties with CFC essential-use exemptions have accounted for them • All 4 parties with methyl bromide critical-use exemptions have accounted for them
Reporting of export destinations and exports to non-parties for 2012 and 2013	<ul style="list-style-type: none"> • There are no cases of exports to non-parties in 2012 or 2013 • 23 parties reported exports in 2013 and all of them have specified destination countries for some or all of the exports • 33 parties reported exports in 2012; 98 per cent (by weight) of those exports had their destination countries specified, and 29 of the 33 parties included information on export destinations
Reporting of import sources and imports from non-parties for 2012 and 2013	<ul style="list-style-type: none"> • There are no cases of imports from non-parties in 2012 or 2013 • There was 1 non-party importing bromochloromethane (BCM) from parties, which contravenes the trade ban with non-parties • 142 parties have so far reported importing during 2013, of which 38 have specified the source countries for some or all of their imports • 164 parties reported imports in 2012; 31 included information on import sources, and 43 per cent (by weight) of the imports had their source countries specified
Cases of stockpiling in 2012 and 2013	<ul style="list-style-type: none"> • 4 parties have so far reported stockpiling for 2013 • 4 parties reported on 5 cases of stockpiling in 2012
Process-agent reporting for 2012 and 2013	<ul style="list-style-type: none"> • 3 parties have reported so far for 2013 • All 4 parties that are allowed process agent uses have reported for 2012
Revision of hydrochlorofluorocarbon (HCFC) baseline data	<ul style="list-style-type: none"> • Requests by 2 parties for the revision of their HCFC baseline data were recommended for approval by the Implementation Committee at its fifty-second meeting • 1 other party has submitted a request for change of baseline for consideration by the Implementation Committee at its fifty-third meeting
Production in 2012 of CFCs, halons and carbon tetrachloride	<ul style="list-style-type: none"> • 3 parties reported production of about 222,000 metric tonnes of CFCs; over 99 per cent of that production was for feedstock uses and the rest was for exempted uses • 3 parties reported production of about 1,500 metric tonnes of halons, all for feedstock use • 11 parties reported production of about 200,000 metric tonnes of carbon tetrachloride; over 96 per cent was for feedstock use and the rest was unintentional by-production that was later destroyed
Feedstock use in 2012	<ul style="list-style-type: none"> • 13 parties reported close to 1.2 million metric tonnes of ozone-depleting substances being used for feedstock applications
Destruction of ozone-depleting substances in 2012	<ul style="list-style-type: none"> • 21 parties reported destruction of about 11,000 metric tonnes of ozone-depleting substances in 2012
Response by parties to decision XXIV/14 on "Reporting of zero in Article 7 data reporting forms" for 2012 and 2013	<ul style="list-style-type: none"> • In 2013, 33 per cent of the reporting parties submitted forms with some blank cells; response rate to requests for clarification was 26 per cent • In 2012, 37 per cent of the reporting parties submitted forms with some blank cells; response rate to requests for clarification was 21 per cent

I. Introduction

1. The present report has been prepared pursuant to paragraph (c) of Article 12 of the Montreal Protocol on Substances that Deplete the Ozone Layer and contains information received by the Secretariat, as at 8 October 2014, pursuant to Article 7 of the Protocol.

2. Table 1 lists the annexes to the present report together with their titles. Annex I outlines how the Secretariat derives the annual calculated production and calculated consumption for parties using the provisions of the Protocol and its decisions.

Table 1

Annexes to the present report

<i>Annex</i>	<i>Description</i>
I	Deriving calculated production and calculated consumption
II	Key obligations associated with the Protocol and its amendments
III	Control measures for 2013 for parties not operating under paragraph 1 of Article 5
IV	Control measures for 2013 for parties operating under paragraph 1 of Article 5
V	Production and consumption of ozone-depleting substances: comparison of 2013 with baseline
VI	Production and consumption of ozone-depleting substances: comparison of 2012 with baseline
VII	Summary by region: production and consumption of ozone-depleting substances: comparison of 2013 and 2012 with baseline
VIII	Production, import and export of ozone-depleting substances: comparison of 2013 and 2012 with baseline
IX	Import and export of new and recovered ozone-depleting substances in 2013 and 2012
X	Recovered ozone-depleting substances imported and exported by parties in 2013 and 2012
XI	Laboratory and analytical uses of ozone-depleting substances in 2013 and 2012
XII	Consolidated record of cases of excess production or consumption attributable to stockpiling in accordance with decision XXII/20
XIII	Reported feedstock uses of ozone-depleting substances
XIV	Number of parties reporting feedstock uses
XV	Destruction of ozone-depleting substances reported by parties

II. Information provided by parties

A. Status of ratification of the Montreal Protocol and its London, Copenhagen, Montreal and Beijing amendments

3. Table 2 presents the number of parties that have ratified the Vienna Convention and the Montreal Protocol and its amendments.¹

¹ The obligations of a party under the Montreal Protocol are determined by the amendments to the Protocol that a given party has ratified in addition to the obligations arising from the original Protocol.

Table 2

Ratification of the Vienna Convention and the Montreal Protocol and its amendments

<i>Instrument</i>	<i>Number of parties that have ratified the instrument</i>	<i>Percentage of parties to the Protocol</i>
Vienna Convention	197	–
Montreal Protocol	197	–
London, Copenhagen and Montreal amendments	197	100
Beijing Amendment	196	99.5

4. In all, 196 parties to the Montreal Protocol have ratified all of the amendments to the Protocol and are thus bound by all the provisions of the Protocol and its amendments.

5. The only amendment to the Protocol that has not been ratified by all parties to the Protocol is the Beijing Amendment, which has been ratified by all parties except Mauritania. Annex II summarizes the key data-reporting and other obligations under the Protocol and its amendments.

6. The Secretariat has previously advised non-parties to ratify the Beijing Amendment to avoid facing trade sanctions and has also written to parties that produce hydrochlorofluorocarbons (HCFCs), advising them of the HCFC control measures and of the restrictions on exports of HCFCs to non-parties to the Beijing Amendment. Additionally, the Secretariat has been liaising with and providing support to non-parties, including arranging missions to those countries, to facilitate the ratification of the outstanding amendments by those non-parties.

B. Reporting pursuant to Article 9 for the period 2012–2013

7. For 2013, Lithuania is the only party that submitted information pursuant to Article 9,² covering the period 2012–2013.

8. For 2012, Lithuania and Sweden are the only two parties that submitted information on Article 9 activities. The submission by Lithuania covers the period 2011–2012 while the submission by Sweden covers the period 2009–2011.

9. All submissions pursuant to Article 9 made by parties are posted on the website of the Secretariat under “Data reporting”.

C. Status of compliance with annual data-reporting requirements (Article 7, paragraphs 3 and 3 bis) for the period 1986–2013

10. For 2013, of the 197 parties required to report data,³ 162 parties (130 operating under paragraph 1 of Article 5 of the Protocol and 32 not so operating) have so far reported their data for 2013. A total of 72 parties reported data by 30 June 2014. The calculated production and consumption data reported so far for 2013 are presented in annex V to the present report.

11. The following parties are in non-compliance with the requirement to report the 2013 Article 7 data by 30 September 2014: Argentina, Austria, Azerbaijan, Bahamas, Bahrain, Bangladesh, Burkina Faso, Central African Republic, Croatia, Cyprus, Finland, Haiti, Hungary, Iraq, Ireland, Kuwait, Lao People’s Democratic Republic, Latvia, Libya, Liechtenstein, Luxembourg, Myanmar, Poland, Portugal, Qatar, Romania, San Marino, Saudi Arabia, Sierra Leone, Slovenia, Somalia, Sweden, Switzerland, Uzbekistan and Venezuela (Bolivarian Republic of).

12. For the period 1986–2012, all 197 parties required to report data annually under paragraph 3 of Article 7 (148 operating under paragraph 1 of Article 5 and 49 not so operating) are in full compliance with their data reporting obligations under Article 7. Eritrea, South Sudan and Yemen, which had been

² Article 9, which is about research, development, public awareness and exchange of information, requires each party to submit to the Secretariat a summary of the activities it has conducted pursuant to the Article within two years of the entry into force of the Protocol and every two years thereafter.

³ Paragraph 3 of Article 7 of the Protocol provides that each party shall provide to the Secretariat statistical data on its annual production of each of the controlled substances listed in Annexes A, B, C and E and, separately for each substance, amounts used for feedstock, amounts destroyed by technologies approved by the parties, and imports from and exports to parties and non-parties, respectively, for the year during which the provisions concerning the substances at issue entered into force for that party and for each year thereafter. It further provides that parties must provide such data not later than nine months after the end of the year to which the data relate.

mentioned in decision XXV/14 as not having reported their data for 2012, have since submitted their outstanding data.

13. Annex VI contains the calculated production and consumption data reported for 2012, while annex VII presents summary aggregate information on production and consumption, broken down by region, for 2012. Annex VIII presents aggregate summary information comparing production, imports and exports of ozone-depleting substances, broken down by Article 5 classification, for 2012 and 2013.

14. Aggregate or summary information on recycled ozone-depleting substances⁴ is presented in the following annexes to the present report:

(a) Annex IX. Imports and exports of new and recovered substances for 2012 and 2013;

(b) Annex X. Recovered ozone-depleting substances imported and exported by parties for 2012 and 2013.

15. By decision XXI/6, the global exemption for laboratory and analytical uses of ozone-depleting substances was extended until 31 December 2014. The amounts of ozone-depleting substances imported or produced for laboratory and analytical uses for 2012 and 2013 are shown in annex XI.

D. Status of compliance with the control measures for production and consumption for 2013 by parties not operating under paragraph 1 of Article 5

16. Table 3 lists all cases of consumption for 2013 that exceed the reduction schedules for parties not operating under paragraph 1 of Article 5, together with explanations or clarifications as applicable.

Table 3

Accounting and explanations for consumption that exceeds the reduction schedules for parties not operating under paragraph 1 of Article 5 for 2013

Party	Annex/ group	ODP-tonnes			Explanation or comment
		Baseline	2013 limit	2013 consumption	
1. Australia	E/I	422.4	0	18.6	Critical uses = 18.6 ODP-t. Exempted amount = 19.3 ODP-t in decision XXIII/4
2. Canada	B/II	6 167.7	0	0.2	Laboratory and analytical uses = 0.2 ODP-t
	E/I	120.1	0	10	Critical uses = 7.9 ODP-t. Exempted amount = 7.9 ODP-t in decision XXIII/4. Emergency uses = 2.8 ODP-t allowed under decision IX/7
3. European Union	C/II	–	0	0.2	Stockpile for export for allowed or exempted uses = 0.2 ODP-t
4. Israel	C/III	–	0	3.5	Stockpile for feedstock use or export for that use in a future year (paragraph 1(c) of decision XVIII/17) = 3.50 ODP-t
	E/I	2 148.0	0	9.7	Clarification pending
5. Japan	B/II	74 879.2	0	14.5	Laboratory and analytical uses = 14.5 ODP-t
	E/I	3 664.1	0	0.7	Critical uses = 0.7 ODP-t. Exempted amount = 2.0 ODP-t in decision XXIII/4
6. Kazakhstan	C/I	39.5	9.9	83.32	Non-compliance under consideration by the Meeting of the Parties (decision XXV/12) and the Implementation Committee (recommendation 52/2)
	E/I	15.6	0	19	
7. New Zealand	A/II	490.0	0	25.3	Clarification pending
8. Russian Federation	A/I	100 352.0	0	288	Essential-use consumption = 288 ODP-t. Exempted amount = 288 ODP-t in decisions XXIV/4(1) and XXIV/3(1)
9. Ukraine	C/I	164.2	86.9	59.4	Within benchmark commitment of 86.9 ODP-t in decision XXIV/18

⁴ Paragraph 3 bis of Article 7 of the Protocol provides that, for annual data on recovered substances, each party shall provide to the Secretariat separate statistical data on its annual imports and exports of each of the controlled substances listed in group II of Annex A and group I of Annex C that have been recycled.

Party	Annex/ group	ODP-tonnes			Explanation or comment
		Baseline	2013 limit	2013 consumption	
10. United States of America	E/I	15 317.4	0	26.6	Critical uses = 337.2 ODP-t. Exempted amount = 337.4 ODP-t in decision XXIII/4.

Abbreviation: ODP-t, ozone-depletion potential tonnes.

17. Table 4 lists all cases of production for 2013 that exceeded the reduction schedules for parties not operating under paragraph 1 of Article 5, together with explanations or clarifications as applicable.

Table 4

Accounting and explanations for production that exceeds the reduction schedules for parties not operating under paragraph 1 of Article 5 for 2013

Party	Annex/ group	ODP-tonnes			Explanation or comment
		Baseline	2013 limit	2013 production	
1. France	B/II	5 119.4	0	131.7	Stockpile for destruction or export for destruction in a future year (paragraph 1(b) of decision XVIII/17) = 131.7 ODP-t
2. Israel	C/III	–	0	3.5	Stockpile for feedstock use or export for that use in a future year (paragraph 1 (c) of decision XVIII/17) = 3.50 ODP-t
	E/I	16 800.0	0	730.9	Clarification pending. Excess = 10.10 ODP-t. Production for export for exempted uses = 46.20 ODP-t. Production for basic domestic needs of A5 parties = 674.60 ODP-t
3. Japan	B/II	19 602	0	14.5	Laboratory and analytical uses = 14.50 ODP-t
	E/I	3 376.1	0	0.7	Critical uses = 0.70 ODP-t. Exempted amount = 2.0 ODP-t in decision XXIII/4
4. Russian Federation	A/I	105 296	0	76	Essential use production = 76.00 ODP-t. Exempted amount = 288.0 ODP-t in decision XXIV/4(1) and XXIV/3(1)
5. United States of America	E/I	16 908	0	664	Critical uses = 337.2 ODP-t. Exempted amount = 337.4 ODP-t in decision XXIII/4. Production for export for critical uses = 38.9 ODP-t. Production for BDN for Article 5 Parties = 333.6 ODP-t.

Abbreviation: ODP-t, ozone-depletion potential tonnes.

E. Status of compliance with the control measures for production and consumption for 2013 by parties operating under paragraph 1 of Article 5

18. Table 5 lists all cases of consumption for 2013 that exceeded the reduction schedules for parties operating under paragraph 1 of Article 5, together with information on all parties that have decisions with agreed benchmarks under plans of action for returning to compliance.

Table 5

Accounting and explanations for consumption that exceeds the reduction schedules and information on parties with agreed benchmarks under plans of action for parties operating under paragraph 1 of Article 5 for 2013

Party	Annex/ group	ODP-tonnes			Explanation or comment
		Baseline	2013 limit	2013 consumption	
1. Armenia	E/I	0	0	0	Within benchmark commitment of 0.0 ODP-t in decision XVIII/20
2. Bosnia and Herzegovina	B/III	1.6	0	0	Within benchmark commitment of 0.0 ODP-t in decision XVII/28
	C/I	4.7	4.7	5.13	Clarification pending
	E/I	3.5	0	0	Within benchmark commitment of 0.0 ODP-t in decision XV/30

3. Botswana	E/I	0.2	0	0	Within benchmark commitment of 0.0 ODP-t in decision XV/31
4. Chile	B/III	6.4	1.9	0	Within benchmark commitment of 1.9 ODP-t in decision XVII/29
	E/I	212.5	170	165.9	Within benchmark commitment of 170.0 ODP-t in decision XVII/29
5. China	B/II	49142.1	0	219.7	Laboratory and analytical uses = 219.7 ODP-t
6. Democratic People's Republic of Korea	C/I	78	78	90.6	Non-compliance: excess consumption = 12.6 ODP-t. To be considered by the Implementation Committee at its fifty-third meeting
7. Democratic Republic of the Congo	B/III	4.7	0	0	Within benchmark commitment of 0.0 ODP-t in decision XVIII/21
8. Ecuador	B/III	2	1.4	0	Within benchmark commitment of 1.4 ODP-t in decision XVII/31
	E/I	66.2	52.8	0	Within benchmark commitment of 52.8 ODP-t in decision XX/16
9. Fiji	E/I	0.7	0.5	0	Within benchmark commitment of 0.5 ODP-t in decision XVII/33
10. Guatemala	C/I	8.3	8.3	11.3	Non-compliance: excess consumption = 3.0 ODP-t. To be considered by the Implementation Committee at its fifty-third meeting
	E/I	400.7	320.6	240	Within benchmark commitment of 320.6 ODP-t in decision XVIII/26
11. Honduras	E/I	259.4	207.5	0	Within benchmark commitment of 207.5 ODP-t in decision XVII/34
12. Mozambique	C/I	6.5	6.5	8.25	Consumption exceeds current limit. A revision of the baseline of the party, a request which has been recommended for approval by the Implementation Committee at its 52nd meeting, would, if approved by the Meeting of the Parties, confirm the party to be in compliance
13. South Sudan	C/I	1.0	1.0	14.19	Clarification pending
14. Uganda	E/I	6.3	0	0	Within benchmark commitment of 0.0 ODP-t in decision XV/43
15. Uruguay	E/I	11.2	0	0	Within benchmark commitment of 0.0 ODP-t in decision XVII/39

Abbreviation: ODP-t, ozone-depletion potential tonnes.

19. Table 6 lists all cases of production for 2013 that exceed the reduction schedules for parties operating under paragraph 1 of Article 5, together with explanations or clarifications as applicable.

Table 6

Accounting and explanations for production that exceeds the reduction schedules for parties operating under paragraph 1 of Article 5 for 2013

Party	Annex/ group	ODP-tonnes			Explanation or comment
		Baseline	2013 limit	2013 production	
1. China	B/II	32 479.7	0.0	219.7	Laboratory and analytical uses = 219.7 ODP-t
2. Democratic People's Republic of Korea	C/I	27.6	27.6	31.8	Non-compliance: excess production = 4.2 ODP-t. To be considered by the Implementation Committee at its fifty-third meeting

Abbreviation: ODP-t, ozone-depletion potential tonnes.

F. Accounting for exemptions granted for 2013 for essential uses and critical uses

20. Table 7 summarizes information regarding exemptions for essential uses of chlorofluorocarbons (CFCs) for 2013 granted to parties under decisions XXIV/3 and XXIV/4. The table includes information on the status of submission of accounting reports⁵ by those parties in accordance with decision VIII/9.

Table 7

Essential-use exemptions granted to parties for chlorofluorocarbons for 2013

(Metric tonnes)

<i>Party</i>	<i>Status</i>	<i>Exempted amount</i>	<i>Application</i>	<i>Status of submission of accounting report</i>
1. China	A5	388.82	MDI uses	Submitted
2. Russian Federation	NA5	212	MDI uses	Submitted
		95	Aerospace applications	Submitted

Abbreviations: A5, party operating under paragraph 1 of Article 5 of the Montreal Protocol; NA5, party not operating under paragraph 1 of Article 5 of the Montreal Protocol; MDI, metered-dose inhaler.

21. Table 8 summarizes information regarding exemptions for critical uses of methyl bromide for 2013 granted to parties not operating under paragraph 1 of Article 5 under decision XXIII/4. The table includes information on the status of submission of the accounting reports of the parties in accordance with decision XVI/6.

Table 8

Critical-use exemptions granted to parties not operating under paragraph 1 of Article 5 for methyl bromide use for 2013

(Metric tonnes)

<i>Party</i>	<i>Exempted amount</i>	<i>Status of submission of accounting report</i>
1. Australia	32.134	Submitted
2. Canada	13.109 4.703 ^a	Submitted, including for 4.703 MT emergency use exemption
3. Japan	3.317	Submitted
4. United States of America	562.326	Submitted

^a Emergency use under decision IX/7.

G. Reporting of exports and trade with non-parties (decision XVII/16 and Article 4)

22. For 2012, which is the latest year with complete data, parties reporting exports⁶ of ozone-depleting substances specified the destinations for about 98 per cent of those substances (by weight). A total of 33 parties reported exports, of which 29 specified the destination countries for some or all of their exports. Out of the 29 parties, 26 reported destination information for all of their exports.

23. For 2013, only 23 parties so far have reported exports to other parties, and all of them have specified the destination countries for some or all of their exports.

24. In reviewing the reported exports for 2012 and 2013 together with the information on the destination of those exports, and taking into account the trade restrictions imposed by Article 4 of the Montreal Protocol, the Secretariat did not identify any exports to non-parties in either of the two years.

⁵ In paragraph 9 of decision VIII/9, parties that have been granted essential-use exemptions for previous years are requested to submit such reports by 31 January each year.

⁶ In decision XVII/16, the Seventeenth Meeting of the Parties requested the Secretariat to revise the reporting formats to cover exports and re-exports of all controlled ozone-depleting substances and urged the parties to implement the revised reporting format expeditiously.

H. Reporting of import sources (decision XXIV/12)

25. For 2012, parties reporting imports⁷ of ozone-depleting substances specified the exporting countries for about 43 per cent of those substances (by weight). A total of 164 parties reported imports, and 31 of those parties specified the source countries for some or all of their imports. Of the 31 parties, 18 specified the source countries for all of their imports.

26. For 2013, 142 parties have so far reported importing ozone-depleting substances from other parties, of which 38 specified the source countries for some or all of their imports. A more comprehensive summary of the aggregate information will be provided in the future once more parties have reported 2013 data.

27. In reviewing the reported imports for 2012 and 2013 together with information on their source, and taking into account the trade restrictions imposed by Article 4 of the Montreal Protocol, the Secretariat did not identify any imports by parties from non-parties in either of the two years.

28. However, in reviewing the imports reported by non-parties, Kazakhstan reported imports of bromochloromethane in both 2012 and 2013 while it was still a non-party to the Beijing Amendment. Given that all producers and exporters of this substance are parties to the Beijing amendment and should not be exporting bromochloromethane to Kazakhstan, these exports represent illegal trade by the exporters since the exports contravene the trade restrictions imposed by Article 4⁸ of the Montreal protocol. Kazakhstan did not provide the names of the exporting countries as the provision of this information is optional under decision XXIV/12.

I. Consolidated record of cases of excess production and consumption prepared in accordance with decision XXII/20

29. In accordance with decision XXII/20, the Secretariat has included the latest version of the consolidated record of cases of excess production and consumption⁹ in annex XII to the present report. The latest cases recorded are for 2013 and are based on information received from the European Union, France and the United States of America. The parties also indicated that they had the necessary measures and regulations in place to prevent the stockpiled substances from being diverted to unauthorized uses, as required under paragraph 3 of decision XXII/20.

J. Reporting of process-agent uses for 2012 (decisions XXI/3 and X/14)

30. Decision XXI/3 requests the Secretariat to bring cases of non-reporting of process-agent uses of ozone-depleting substances to the attention of the Implementation Committee for consideration.

31. Only four parties (China, the European Union, Israel and the United States of America) still report the use of ozone-depleting substances as process agents. Their latest allowed limits for make-up (or consumption) and emissions are provided in table B of the annex to decision XXIII/7.

32. All four parties have submitted their reports for 2012. However, only China, the European Union and the United States of America have submitted their reports for 2013.

K. Requests for revision of baseline data

⁷ In decision XXIV/12, the Twenty-fourth Meeting of the Parties requested the Secretariat to revise the reporting format, before 1 January 2013, to include an annex in which reporting parties could, on a voluntary basis, identify the exporting parties for any ozone-depleting substance reported as imports.

⁸ Paragraph 2 sex. of Article 4 provides that each party shall ban the export of the controlled substance in Group III of Annex C to any State not party to this Protocol within one year of the date of entry into force of the provision.

⁹ By decision XXII/20, the Meeting of the Parties requested the Secretariat to continue to maintain a consolidated record of cases in which parties, when reporting data under Article 7 of the Protocol, had identified excess production and consumption that was a consequence of ozone-depleting substance production in the reporting year: (a) for domestic destruction or export for destruction in a future year; (b) for domestic feedstock use or export for that use in a future year; (c) for export to meet basic domestic needs of developing countries in a future year. Paragraph 3 of the decision directed that in any case mentioned in paragraph 2 of that decision, no follow-up action from the Implementation Committee was deemed necessary if the relevant party had reported that it had the necessary measures in place to prohibit the use of the ozone-depleting substances for any purpose other than those designated in paragraph 2 of the decision.

33. Table 9 below summarizes information on requests for revision of baseline data that have been submitted¹⁰ and that have been considered during the current year.

Table 9

Requests for revision of HCFC baseline data under consideration in the current year

Party	Existing HCFC data (ODP-tonnes)		Proposed HCFC data (ODP-tonnes)		Status of consideration of the request
	2009	2010	2009	2010	
1. Libya	– ^a	131.91	– ^a	139.26	Recommended for approval by the Implementation Committee
2. Republic of Moldova	– ^a	0.7	– ^a	2.67	To be considered by the Implementation Committee at its fifty-third meeting
3. Mozambique	4.3	– ^a	8.68	– ^a	Recommended for approval by the Implementation Committee

^a Data for these years was not the subject of a request for revision from the relevant country.

L. Production in 2012 of CFCs, halons, carbon tetrachloride and other phased-out substances

34. The present section presents summarizes information on the production of CFCs, halons, carbon tetrachloride and other phased-out substances¹¹ in 2012, which updates information presented to the Twenty-Fifth Meeting of the Parties in 2013 (see UNEP/OzL.Pro/25/7-UNEP/OzL.Pro/ImpCom/51/2).

35. Table 10 below summarizes information received from parties with production of these substances whose phase-out dates have passed. Substances that have been produced in small amounts of less than 0.1 metric tonnes, usually for exempted uses such as laboratory and analytical uses, have been excluded from the summary below.

Table 10

Production of phased-out ozone-depleting substances in 2012
(Metric tonnes)

Annex/group	A/I	A/II	B/II ^a	C/II	C/III ^b
Number of parties reporting production	3	3	11	3	2
Total production for all uses and for exports	221 798	1 491	200 289	77.6	1 463
Production for own feedstock uses	219 275 (99%)	1 471 (99%)	191 969 (96%)	77.5 (100%)	496 (34%)
Production for own essential uses	100				
Exported for feedstock uses	1 368 (1%)	20 (1%)	435		1 098 (75%)
Exported for essential uses	229				
Amounts destroyed by the producers	816	3	2 039 (2%)		

^a Total production of annex B, group II, substance (carbon tetrachloride) is not fully accounted for by the reported feedstock uses plus destroyed amounts. The shortfall is unintentional by-production stockpiled for destruction in later years.

^b Feedstock uses plus destroyed amounts of annex C, group III, substance (BCM) exceed the total production. The extra amount for export comes from stockpiled substances produced in previous years.

36. As may be noted, the bulk of the production of these substances is for feedstock uses.

¹⁰ Paragraph 5 of decision XIII/15 advised parties that request changes in reported baseline data for the base years to present their requests before the Implementation Committee, which will in turn work with the Ozone Secretariat and the Executive Committee to confirm the justification for the changes and present them to the Meeting of the Parties for approval.

¹¹ Under the control measures, production and consumption of CFCs (annex A, group I, and annex B, group I), halons (annex A, group II) and carbon tetrachloride (annex B, group II) should have been phased out by all parties by 2010, save for uses exempted by the Meeting of the Parties. In addition, substances in annex C, groups II (HBFCs) and III (bromochloromethane), were phased out immediately upon their inclusion in the Protocol in 1996 and 2002, respectively.

M. Feedstock uses of ozone-depleting substances

37. At previous meetings of the Implementation Committee, some members of the Committee expressed an interest in getting regular information on the amounts of ozone-depleting substances being used for feedstock applications.¹² The reported information on production and imports of ozone-depleting substances for feedstock uses is presented in annex XIII of the present report, while annex XIV shows the number of parties reporting those feedstock uses.

38. In addition, figure I presents the feedstock use information on a bar chart, while figure II below shows the number of parties reporting feedstock uses.

Figure I

Quantities of ozone-depleting substances imported or produced for feedstock uses (in metric tonnes)

Abbreviation: ODS, ozone-depleting substances.

Figure II

Number of parties reporting ozone-depleting substances imported or produced for feedstock uses

39. The Implementation Committee and the Meeting of the Parties are invited to consider the information on ozone-depleting substances used as feedstock.

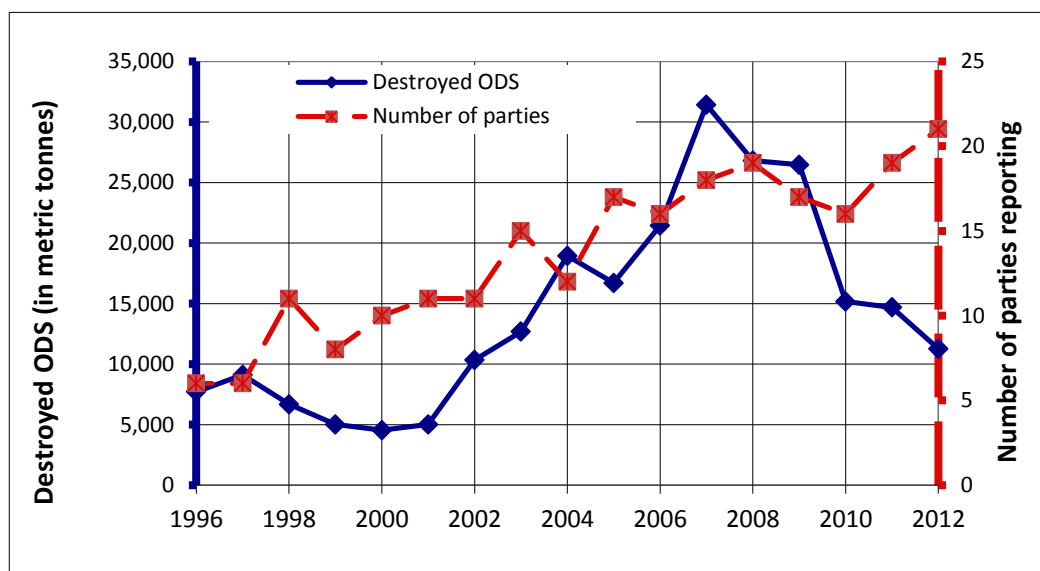

¹² The Protocol specifies in Article 1 that amounts of ozone-depleting substances entirely used as feedstock in the manufacture of other chemicals are to be subtracted in the calculation of production and consumption.

N. Destruction of ozone-depleting substances

40. To facilitate the consideration of the issue of destroyed ozone-depleting substances¹³ by the Committee and the Meeting of the Parties, annex XV to the present report sets out a table showing non-zero data on the destruction of ozone-depleting substances reported by parties under Article 7 for the period 1994–2012. The annual data for each party are aggregated for all substances reported for the year and are presented in metric tonnes.

Figure III

Quantities of ozone-depleting substances destroyed

Abbreviation: ODS, ozone-depleting substances.

O. Response by parties to decision XXIV/14 (reporting of zero in Article 7 data reporting forms)

41. At a previous meeting of the Implementation Committee, a member of the Committee expressed an interest in getting information on the response of the parties to decision XXIV/14.¹⁴ Table 11 below shows the number of parties submitting Article 7 data forms that are not fully completed, and those that responded to the follow-up requests by the Secretariat for clarification.

Table 11

Response by parties to decision XXIV/14 on reporting of zero in Article 7 data reporting forms

Description of activity	Number of parties	
	2012	2013 ^a
Reporting annual data	197	162
Submitting Article 7 data forms with some blank cells	72	53
Rate of submission	37%	33%
Responding to the Secretariat's request for clarification	15	13
Rate of response	21%	26%

^a Data for 2013 is not complete and will be updated in future data reports.

¹³ The subtraction of destroyed ozone-depleting substances in the calculation of production and consumption was specified in Article 1 of the original Montreal Protocol signed in 1987. The requirement to report amounts destroyed by technologies approved by the parties, however, was formally introduced under Article 7 through the London Amendment, which was adopted in 1990.

¹⁴ Decision XXIV/14 requested parties, when reporting production, imports, exports or destruction, to enter a number in each cell in the data reporting forms that they submit, including zero, where appropriate, rather than leaving the cell blank. The decision further asked the Secretariat to request clarification from any party that submits a reporting form containing a blank cell.

42. It should be noted that some parties do not submit Article 7 data forms when reporting data. Some parties with zero consumption or those with very few imports notify the Secretariat in a letter, while some Article 5 parties submit their Article 7 data using the country programme forms of the multilateral fund secretariat.

Annex I

Deriving calculated production and calculated consumption

1. A party recently expressed concern that the Secretariat did not adequately publicize information on how the Secretariat calculates the production and consumption by the parties of substances controlled under the Montreal Protocol. The present section provides the requested information to address that concern.
2. According to the definitions in paragraphs 5 and 6 of Article 1 of the Protocol, the formulas, in their most basic form, for calculating production and consumption are as follows:
 - (a) $\text{Production} = \text{Amount produced} - \text{amount destroyed} - \text{feedstock uses};$
 - (b) $\text{Consumption} = \text{Production} + \text{imports} - \text{exports}.$
3. The control measures apply to groups of substances rather than individual substances. According to Article 3 and paragraph 7 of Article 1, therefore, consumption and production for each group of substances are calculated by multiplying each component in the formulas (i.e., amount produced, imports, exports, amount destroyed and amount used as feedstock) by the ozone depleting potential for each substance in the group and then aggregating the results.
4. When parties report data on feedstock uses, they report it in three areas: amounts “produced for feedstock uses within the producing country”, amounts “imported for feedstock uses” and amounts “exported for feedstock uses”. Paragraph 1 of decision VII/30 clarified that controlled substances produced and exported for feedstock uses should not be included in the calculation of “production” or “consumption” in exporting countries, while paragraph 2 of that decision clarified that controlled substances used as feedstock should not be included in the calculation of “consumption” in importing countries.
5. Adjusting the formulas for calculating production and consumption to accommodate these aspects of reporting feedstock uses yields the following:
 - (a) $\text{Production} = \text{amount produced} - \text{amount destroyed} - \text{production for feedstock}^1 - \text{exports for feedstock}^2;$
 - (b) $\text{Consumption} = \text{Production} + (\text{imports} - \text{imports for feedstock}) - (\text{exports} - \text{exports for feedstock}^2).$
6. Decision X/14 provides for process agent uses to be treated in a manner similar to feedstock uses. Thus, process agent uses should not be taken into account in the calculation of production and consumption. The decision outlines conditions under which the exclusion is available, specifying among other things the uses to which the exclusion applies, the parties allowed to make use of it and the maximum emissions and make-up limits for each allowed party.
7. Where the term “feedstock” appears in the formulas above, therefore, it includes process agent uses as well, but only for qualifying parties satisfying the provisions of decision X/14.
8. Paragraph (c) of Article 3 of the Protocol provides that controlled substances exported to non-parties should not be subtracted in calculating the consumption level of the exporting party.
9. Finally, paragraph 6 of Article 2H excludes methyl bromide used for quarantine and pre-shipment (QPS) applications from the calculation of consumption and production. Parties report production for such uses (both within the country and for export) and, separately, amounts exported for such uses and amounts imported for such uses. It should be noted that the quarantine and pre-shipment exclusion applies only to methyl bromide and is not available for any other controlled substance.
10. Adjusting the formulas for calculating production and consumption to take into account exports to non-parties and quarantine and pre-shipment uses yields the following:
 - (a) $\text{Production} = \text{amount produced} - \text{amount destroyed} - \text{production for feedstock}^1 - \text{exports for feedstock}^2 - \text{production for quarantine and pre-shipment}^3;$

¹ This “production for feedstock” component is production for feedstock uses within the producing party.

² “Exports for feedstock uses” are deducted only for parties that report production and export of a given substance within the same year.

(b) Consumption = Production + (imports – imports for feedstock – imports for QPS) – (exports – exports for feedstock² – exports for QPS⁴ – exports to non-parties).

11. The figures are then rounded to one decimal point in accordance with the guidance provided by the Eighteenth Meeting of the Parties (UNEP/OzL.Pro.18/10, paras. 145–147). Two decimal places have been used, however, in presenting and analysing HCFC data reported after 25 November 2011, as directed by the parties in decision XXIII/30.

12. Throughout the present report and its annexes, negative values for calculated production for a given year imply that quantities destroyed or quantities exported for feedstock uses exceeded production for that year, meaning that some of the destroyed or exported quantities were taken from stockpiles. Similarly, negative values for calculated consumption indicate that quantities destroyed or quantities exported for the year exceeded production and imports, implying that some of the destroyed or exported quantities came from stockpiles.

13. The Implementation Committee and the Meeting of the Parties are invited to consider the information presented in this section and to provide any appropriate guidance to the Secretariat.

³ “Production for quarantine and pre-shipment” includes production for use within the producing party and production for export purposes.

⁴ “Exports for quarantine and pre-shipment” are only deducted if the exporting party reported production of methyl bromide for that purpose within the same year.

Annex II

Key obligations associated with the Protocol and its amendments

<i>Instrument</i>	<i>Key obligations</i>
1. Montreal Protocol	<ul style="list-style-type: none"> • Report production and consumption of Annex A substances (CFCs and halons) • Control production and consumption of Annex A substances (CFCs and halons)
2. London Amendment	<ul style="list-style-type: none"> • Report consumption and production of Annex B substances (other CFCs, carbon tetrachloride and methyl chloroform) and Annex C, group I, substances (HCFCs) • Control production and consumption of Annex B substances (other CFCs, carbon tetrachloride and methyl chloroform) • Ban imports and exports of Annex A and Annex B substances (CFCs, halons, carbon tetrachloride and methyl chloroform) to any State not party to the amendment
3. Copenhagen Amendment	<ul style="list-style-type: none"> • Report production and consumption of Annex C, groups I and II, substances (HCFCs and hydrobromofluorocarbons (HBFCs)) and the Annex E substance (methyl bromide) • Control consumption of Annex C, group I, substances (HCFCs) • Control production and consumption of Annex C, group II, substances (HBFCs) and the Annex E substance (methyl bromide) • Ban imports and exports of Annex C, group II, substances (HBFCs) to any State not party to the amendment
4. Montreal Amendment	<ul style="list-style-type: none"> • Establish, implement and report on a system for licensing the import and export of controlled substances • Ban imports and exports of the Annex E, group I, substance (methyl bromide) to any State not party to the amendment
5. Beijing Amendment	<ul style="list-style-type: none"> • Control production of Annex C, group I, substances (HCFCs) • Report production and consumption of the Annex C, group III, substance (bromochloromethane) • Control production and consumption of the Annex C, group III, substance (bromochloromethane) • Ban imports and exports of Annex C, group I, substances (HCFCs) from and to any State not party to the amendment (for parties operating under paragraph 1 of Article 5 of the Protocol, the ban commenced on 1 January 2013 based on decision XX/9)

Annex III

Control measures for 2013 for parties not operating under paragraph 1 of Article 5

1. The control measures applicable to parties not operating under paragraph 1 of Article 5 for 2013 are summarized in the table below.

Control measures applicable to parties not operating under paragraph 1 of Article 5 for 2013

<i>Annex/group(s)</i>	<i>Control measures applicable in 2013 to production and consumption</i>
A/I (CFCs), A/II (halons), B/I (other CFCs), B/II (carbon tetrachloride), C/II (hydrobromofluorocarbons), C/III (bromochloromethane) and E/I (methyl bromide)	Total phase-out except for quantities allowed, approved or exempted by the Protocol or the Meeting of the Parties
C/I (HCFCs)	No greater than 25 per cent of the baseline

2. For parties not operating under paragraph 1 of Article 5, excess production or consumption is allowed for exempted amounts approved for essential uses or critical uses, laboratory and analytical uses and increased production for satisfying the basic domestic needs of parties operating under paragraph 1 of Article 5. In reviewing compliance, the Secretariat also takes into account the transfer of production rights between parties.

3. Excess production and consumption attributable to stockpiling under the scenarios described in decision XXII/20 are recorded for information purposes only and are not subject to the non-compliance procedure, as directed by the Meeting of the Parties in that decision. The latest update to the consolidated record of cases of excess production or consumption attributable to stockpiling is set out in annex XII to the present report.

Annex IV

Control measures for 2013 for parties operating under paragraph 1 of Article 5

1. The control measures applicable to parties operating under paragraph 1 of Article 5 for 2013 are summarized in the table below.

Control measures applicable to parties operating under paragraph 1 of Article 5 for 2013

<i>Annex/group(s)</i>	<i>Control measures applicable in 2013 to production and consumption^a</i>
A/I (CFCs), A/II (halons), B/I (other CFCs), B/II (carbon tetrachloride), C/II (hydrobromofluorocarbons) and C/III (bromochloromethane)	Total phase-out
B/III (methyl chloroform)	No greater than 30 per cent of the baseline
C/I (Hydrochlorofluorocarbons)	No greater than the baseline
E/I (methyl bromide)	No greater than 80 per cent of the baseline

^a Except for quantities allowed, approved or exempted by the Protocol or the Meeting of the Parties.

2. For parties operating under paragraph 1 of Article 5, excess production or consumption is allowed for exempted amounts approved for essential uses, laboratory and analytical uses specified under decisions XXIII/6 and XXI/6, subject to the conditions specified in those decisions, and increased production for meeting the basic domestic needs of parties operating under paragraph 1 of Article 5.

3. Similar to non-Article 5 parties, excess production or consumption attributable to stockpiling under the scenarios described in decision XXII/20 is recorded for information purposes only and parties reporting any such excess production or consumption are not subject to the non-compliance procedure. See annex XII for the consolidated record of cases of excess production or consumption attributable to stockpiling in accordance with decision XXII/20.

4. For parties that may previously have been in non-compliance and are the subject of decisions outlining plans of action with time-specific benchmarks for returning to compliance, the limits specified in those decisions are used as the primary determinant of the adherence of those parties to their obligations to reduce their production and consumption levels.

Annex Va: Summary for All Parties - Production and Consumption of ODSs -

Comparison of 2013 with Base (ODP Tons)

Key

- AI - Annex A, Group I (CFCs). Base for Article 5 parties is the average of 1995, 1996 and 1997. Base for non-Article 5 Parties is 1986.
- All - Annex A, Group II (Halons). Base for Article 5 parties is the average of 1995, 1996 and 1997. Base for non-Article 5 Parties is 1986.
- BI - Annex B, Group I (Other Halogenated CFCs). Base for Article 5 parties = average of 1998, 1999 and 2000. Base for non-Article 5 Parties is 1989.
- BII - Annex B, Group II (Carbon Tetrachloride). Base for Article 5 parties is the average of 1998, 1999 and 2000. Base for non-Article 5 Parties is 1989.
- BIII - Annex B, Group III (Methyl Chloroform). Base for Article 5 parties is the average of 1998, 1999 and 2000. Base for non-Article 5 Parties is 1989.
- CI - Annex C, Group I (HCFCs). Base for Article 5 parties is the average of 2009 and 2010. Base consumption for non-Article 5 Parties is 1989 consumption of HCFCs plus 2.8% of 1989 consumption of CFCs. Base production for non-Article 5 Parties is Average of 1989 HCFC production + 2.8% of 1989 CFC production and 1989 HCFC consumption + 2.8% of 1989 CFC consumption.
- CII - Annex C, Group II (HBFCs). Phase-out requirement was in 1996.
- CIII - Annex C, Group III (Bromochloromethane). Phase-out requirement was in 2002.
- EI - Annex E, Group I (Methyl Bromide). Base for Article 5 parties is the average of 1995, 1996, 1997 and 1998. Base for non-Article 5 Parties is 1991.

Annex Via: Summary for All Parties - Production and Consumption of ODSs -**Comparison of 2012 with Base (ODP Tons)****Key**

- AI - Annex A, Group I (CFCs). Base for Article 5 parties is the average of 1995, 1996 and 1997. Base for non-Article 5 Parties is 1986.
 AII - Annex A, Group II (Halons). Base for Article 5 parties is the average of 1995, 1996 and 1997. Base for non-Article 5 Parties is 1986.
 BI - Annex B, Group I (Other Halogenated CFCs). Base for Article 5 parties = average of 1998, 1999 and 2000. Base for non-Article 5 Parties is 1989.
 BII - Annex B, Group II (Carbon Tetrachloride). Base for Article 5 parties is the average of 1998, 1999 and 2000. Base for non-Article 5 Parties is 1989.
 BIII - Annex B, Group III (Methyl Chloroform). Base for Article 5 parties is the average of 1998, 1999 and 2000. Base for non-Article 5 Parties is 1989.
 CI - Annex C, Group I (HCFCs). Base for Article 5 parties is the average of 2009 and 2010. Base consumption for non-Article 5 Parties is 1989 consumption of HCFCs plus 2.8% of 1989 consumption of CFCs. Base production for non-Article 5 Parties is Average of 1989 HCFC production + 2.8% of 1989 CFC production and 1989 HCFC consumption + 2.8% of 1989 CFC consumption.
 CII - Annex C, Group II (HBFCs). Phase-out requirement was in 1996.
 CIII - Annex C, Group III (Bromochloromethane). Phase-out requirement was in 2002.
 EI - Annex E, Group I (Methyl Bromide). Base for Article 5 parties is the average of 1995, 1996, 1997 and 1998. Base for non-Article 5 Parties is 1991.

** Consumption and Production numbers are rounded to a uniform number of decimal places.

Display of zero consumption or production has been suppressed for annex groups that have been phased out (namely annex A, groups I and II, annex B groups I, II and III, and annex C groups II and III) to make it easier to view non-zero consumption.

- = Data Not Reported and Party has no Obligation to have Reported that data at this time.

N.R. = Data Not Reported but Party is required to have reported | DIV0 = Division was not evaluated due to a zero or negative base.

AFR = Africa | ASIA = Asia | EEU = Eastern Europe | LAC = Latin America & the Caribbean | WEUR = Western Europe & others

A5 = Article 5 Party | CEIT = Country with Economy in Transition | EU = Member of the European Union | Non-A5 = Non-Article 5 Party

Annex VIb: Non-Article 5 Parties - Production and Consumption of ODSs -**Comparison of 2012 with Base (ODP Tons)****Key**

- AI - Annex A, Group I (CFCs). Base for Article 5 parties is the average of 1995, 1996 and 1997. Base for non-Article 5 Parties is 1986.
 All - Annex A, Group II (Halons). Base for Article 5 parties is the average of 1995, 1996 and 1997. Base for non-Article 5 Parties is 1986.
 BI - Annex B, Group I (Other Halogenated CFCs). Base for Article 5 parties = average of 1998, 1999 and 2000. Base for non-Article 5 Parties is 1989.
 BII - Annex B, Group II (Carbon Tetrachloride). Base for Article 5 parties is the average of 1998, 1999 and 2000. Base for non-Article 5 Parties is 1989.
 BIII - Annex B, Group III (Methyl Chloroform). Base for Article 5 parties is the average of 1998, 1999 and 2000. Base for non-Article 5 Parties is 1989.
 CI - Annex C, Group I (HCFCs). Base for Article 5 parties is the average of 2009 and 2010. Base consumption for non-Article 5 Parties is 1989 consumption of HCFCs plus 2.8% of 1989 consumption of CFCs. Base production for non-Article 5 Parties is Average of 1989 HCFC production + 2.8% of 1989 CFC production and 1989 HCFC consumption + 2.8% of 1989 CFC consumption.
 CII - Annex C, Group II (HBFCs). Phase-out requirement was in 1996.
 CIII - Annex C, Group III (Bromochloromethane). Phase-out requirement was in 2002.
 EI - Annex E, Group I (Methyl Bromide). Base for Article 5 parties is the average of 1995, 1996, 1997 and 1998. Base for non-Article 5 Parties is 1991.

Display of zero consumption or production has been suppressed for annex groups that have been phased out (namely annex A, groups I and II, annex B groups I, II and III, and annex C groups II and III) to make it easier to view non-zero consumption.

- = Data Not Reported and Party has no Obligation to have Reported that data at this time.

N.R. = Data Not Reported but Party is required to have reported | DIV0 = Division was not evaluated due to a zero or negative base.

AFR = Africa | ASIA = Asia | EEUR = Eastern Europe | LAC = Latin America & the Caribbean | WEUR = Western Europe & others

A5 = Article 5 Party | CEIT = Country with Economy in Transition | EU = Member of the European Union | Non-A5 = Non-Article 5 Party

Annex VIc: Article 5 Parties - Production and Consumption of ODSs -**Comparison of 2012 with Base (ODP Tons)****Key**

- AI - Annex A, Group I (CFCs). Base for Article 5 parties is the average of 1995, 1996 and 1997. Base for non-Article 5 Parties is 1986.
 AII - Annex A, Group II (Halons). Base for Article 5 parties is the average of 1995, 1996 and 1997. Base for non-Article 5 Parties is 1986.
 BI - Annex B, Group I (Other Halogenated CFCs). Base for Article 5 parties = average of 1998, 1999 and 2000. Base for non-Article 5 Parties is 1989.
 BII - Annex B, Group II (Carbon Tetrachloride). Base for Article 5 parties is the average of 1998, 1999 and 2000. Base for non-Article 5 Parties is 1989.
 BIII - Annex B, Group III (Methyl Chloroform). Base for Article 5 parties is the average of 1998, 1999 and 2000. Base for non-Article 5 Parties is 1989.
 CI - Annex C, Group I (HCFCs). Base for Article 5 parties is the average of 2009 and 2010. Base consumption for non-Article 5 Parties is 1989 consumption of HCFCs plus 2.8% of 1989 consumption of CFCs. Base production for non-Article 5 Parties is Average of 1989 HCFC production + 2.8% of 1989 CFC production and 1989 HCFC consumption + 2.8% of 1989 CFC consumption.
 CII - Annex C, Group II (HBFCs). Phase-out requirement was in 1996.
 CIII - Annex C, Group III (Bromochloromethane). Phase-out requirement was in 2002.
 EI - Annex E, Group I (Methyl Bromide). Base for Article 5 parties is the average of 1995, 1996, 1997 and 1998. Base for non-Article 5 Parties is 1991.

** Consumption and Production numbers are rounded to a uniform number of decimal places.

Display of zero consumption or production has been suppressed for annex groups that have been phased out (namely annex A, groups I and II, annex B groups I, II and III, and annex C groups II and III) to make it easier to view non-zero consumption.

Annex VIIa: Summary by region - Production and Consumption of ODSs -**Comparison of 2013 with Base (ODP Tons)****Key**

- AI - Annex A, Group I (CFCs). Base for Article 5 parties is the average of 1995, 1996 and 1997. Base for non-Article 5 Parties is 1986.
 AII - Annex A, Group II (Halons). Base for Article 5 parties is the average of 1995, 1996 and 1997. Base for non-Article 5 Parties is 1986.
 BI - Annex B, Group I (Other Halogenated CFCs). Base for Article 5 parties = average of 1998, 1999 and 2000. Base for non-Article 5 Parties is 1989.
 BII - Annex B, Group II (Carbon Tetrachloride). Base for Article 5 parties is the average of 1998, 1999 and 2000. Base for non-Article 5 Parties is 1989.
 BIII - Annex B, Group III (Methyl Chloroform). Base for Article 5 parties is the average of 1998, 1999 and 2000. Base for non-Article 5 Parties is 1989.
 CI - Annex C, Group I (HCFCs). Base for Article 5 parties is the average of 2009 and 2010. Base consumption for non-Article 5 Parties is 1989 consumption of HCFCs plus 2.8% of 1989 consumption of CFCs. Base production for non-Article 5 Parties is Average of 1989 HCFC production + 2.8% of 1989 CFC production and 1989 HCFC consumption + 2.8% of 1989 CFC consumption.
 CII - Annex C, Group II (HBFCs). Phase-out requirement was in 1996.
 CIII - Annex C, Group III (Bromochloromethane). Phase-out requirement was in 2002.
 EI - Annex E, Group I (Methyl Bromide). Base for Article 5 parties is the average of 1995, 1996, 1997 and 1998. Base for non-Article 5 Parties is 1991.

Page 1 of 1

** Consumption and Production numbers are rounded to a uniform number of decimal places.

Display of zero consumption or production has been suppressed for annex groups that have been phased out (namely annex A, groups I and II, annex B groups I, II and III, and annex C groups II and III) to make it easier to view non-zero consumption.

- = Data Not Reported and Party has no Obligation to have Reported that data at this time.

N.R. = Data Not Reported but Party is required to have reported | DIV0 = Division was not evaluated due to a zero or negative base.

AFR = Africa | ASIA = Asia | EEUR = Eastern Europe | LAC = Latin America & the Caribbean | WEUR = Western Europe & others

A5 = Article 5 Party | CEIT = Country with Economy in Transition | EU = Member of the European Union | Non-A5 = Non-Article 5 Party

Annex VIIb: Summary by region - Production and Consumption of ODSs -

Comparison of 2012 with Base (ODP Tons)

Key

- AI - Annex A, Group I (CFCs). Base for Article 5 parties is the average of 1995, 1996 and 1997. Base for non-Article 5 Parties is 1986.
- All - Annex A, Group II (Halons). Base for Article 5 parties is the average of 1995, 1996 and 1997. Base for non-Article 5 Parties is 1986.
- BI - Annex B, Group I (Other Halogenated CFCs). Base for Article 5 parties = average of 1998, 1999 and 2000. Base for non-Article 5 Parties is 1989.
- BII - Annex B, Group II (Carbon Tetrachloride). Base for Article 5 parties is the average of 1998, 1999 and 2000. Base for non-Article 5 Parties is 1989.
- BIII - Annex B, Group III (Methyl Chloroform). Base for Article 5 parties is the average of 1998, 1999 and 2000. Base for non-Article 5 Parties is 1989.
- CI - Annex C, Group I (HCFCs). Base for Article 5 parties is the average of 2009 and 2010. Base consumption for non-Article 5 Parties is 1989 consumption of HCFCs plus 2.8% of 1989 consumption of CFCs. Base production for non-Article 5 Parties is Average of 1989 HCFC production + 2.8% of 1989 CFC production and 1989 HCFC consumption + 2.8% of 1989 CFC consumption.
- CII - Annex C, Group II (HBFCs). Phase-out requirement was in 1996.
- CIII - Annex C, Group III (Bromochloromethane). Phase-out requirement was in 2002.
- EI - Annex E, Group I (Methyl Bromide). Base for Article 5 parties is the average of 1995, 1996, 1997 and 1998. Base for non-Article 5 Parties is 1991.

Annex XII: Consolidated record of cases of excess production or consumption attributable to stockpiling in accordance with decision XXII/20 – Last updated September 2014.

<i>Year</i>	<i>Party</i>	<i>Annex group</i>	<i>Deviation due to stockpiling ODP-tonnes</i>	<i>Expected use for the stockpile resulting in deviation</i>
2013	USA	E/I	15.4	Exports for Critical Uses
2013	European Union	C/II	0.2	Feedstock use in future years
2013	France	B/II	131.7	Destruction: Unintentional by-production.
2013	Israel	C/III	3.5	Export for feedstock in future years
2012	European Union	B/II	1075.3	Unintentional production - to be Destroyed in future years
			786.5	Production for feedstock - for export in future years.
2012	France	B/II	1,940.1	Destruction: Unintentional by-production.
2012	Israel	E/I	649.4	Export for basic domestic needs of Article 5 parties - was to be exported in 2013
2012	United States of America	E/I	5.8	Exports for Critical Uses
2011	Germany	B/II	1,677.5	Destruction: Unintentional by-production.
2011	Israel	C/III	14	Export for feedstock – was exported in 2012
2011	United States of America	E/I	166.2	BDN 153.8 ODP-t and Export for critical uses 12.4 ODP t
2010	India	A/I	24.4	Destruction
2010	Israel	E/I	13.8	Feedstock
2010	United States of America	E/I	16.5	Export for critical uses - was exported in 2011
			445.9	Export for basic domestic needs of Article 5 parties
2009	Israel	E/I	284.2	Operational reserve. Was included in 2010 exports
2009	United Kingdom of Great Britain and Northern Ireland	C/II	1.2	Export for feedstock in future years
2008	European Union	C/II	0.4	Feedstock uses or for export for feedstock
		E/I	90.7	Exported in subsequent years.
2007	China	B/I	0.1	Export for basic domestic needs of Article 5 parties
2007	Romania	B/II	34.6	Destruction
2007	United Kingdom	B/II	1,901.9	Destruction/feedstock uses or for export for feedstock
2007	United States	C/II	2.7	Destruction
		E/I	17.5	Export for basic domestic needs of Article 5 parties
2006	Czech Republic	B/II	67.4	Destruction
2006	India	A/I	219.8	Export for basic domestic needs of Article 5 parties
2006	Spain	B/II	136.4	Destruction
2006	United Kingdom	B/II	2,214.3	Destruction or feedstock uses or for export for feedstock
2006	Venezuela (Bolivarian Republic of)	A/I	985.1	Export for basic domestic needs of Article 5 parties
2005		A/I	190.0	Feedstock uses or for export for feedstock
2004	Netherlands	B/I	2.0	Destruction
2004	United States	B/III	0.5	Export for basic domestic needs of Article 5 parties
		E/I	1,986.2	
2003	Czech Republic	B/II	94.6	Destruction
2003	Germany	A/I	118.8	Feedstock uses or for export for feedstock
2003	Russian Federation	B/II	40.4	Feedstock uses or for export for feedstock
2003	United States	B/III	1.6	Export for basic domestic needs of Article 5 parties
2002	Czech Republic	B/II	132.0	Destruction
2002	Netherlands	B/I	3.0	Destruction or feedstock uses or for export for feedstock
2001	United States	B/II	812.9	Export for basic domestic needs of Article 5 parties
		B/III	3.5	
2000	France	B/II	426.8	Export for basic domestic needs of Article 5 parties
2000	United States	A/I	0.8	Export for basic domestic needs of Article 5 parties
		B/III	287.8	
1999	Germany	A/I	99.8	Feedstock uses or for export for feedstock
1999	United States	A/I	0.8	Export for basic domestic needs of Article 5 parties
		B/III	241.2	

Note:

- Some of these explanations were derived from the data reports submitted by the parties concerned in accordance with Article 7 of the Protocol and recorded in the annual data report of the Ozone Secretariat to the Meeting of the Parties.
- The quantities are rounded to one decimal place.
