4. Papua New Guinea and United Arab Emirates, which were listed in document UNEP/OzL.Pro.37/6–UNEP/OzL.Pro/ImpCom/75/2 as having outstanding hydrofluorocarbon (HFC) data, have since submitted the required information.

5. On the basis of the information contained in document UNEP/OzL.Pro.37/6–UNEP/OzL.Pro/ImpCom/75/2 and in the present addendum, and in conformity with existing practice, the Implementation Committee may wish to forward for consideration by the Thirty-Seventh Meeting of the Parties the draft decision set out in annex II to the present addendum.

### B. Status of compliance with the control measures for 2024

6. Tables 1 and 2 list the additional cases reported to date of consumption or production of ozone-depleting substances for 2024 that exceed the prescribed limits, together with explanations or clarifications provided by the Secretariat or by the party, as applicable.

\* Production and Consumption numbers are rounded to a uniform number of decimal places for each annex group. Display of zero consumption or production has been suppressed for annex groups that have been phased out (namely annex A, annex B, groups II and III of annex C, and annex E) to make it easier to view non-zero consumption.

\*\* Population in thousands.

\*\*\* The party has not ratified the Kigali Amendment and is not obligated to submit Article 7 data for HFCs.

\*\*\*\* Submitted before the party ratified the Kigali Amendment.

• % Chng = Percentage change of the annual figure when compared to the baseline.

• Per Cap. = Per capita consumption.

*The Thirty-Seventh Meeting of the Parties decides:*

1. To note that [182] parties of the 198 parties that should have reported data for 2024 have done so [by 31 October 2025], and that 170 of those parties had reported their data by 30 September 2025 as required under paragraph 3 of Article 7 of the Montreal Protocol on Substances that Deplete the Ozone Layer;
2. To note with appreciation that 74 of the reporting parties submitted their data for 2024 by 30 June 2025, in accordance with the encouragement in decision XV/15, and that reporting by 30 June each year greatly facilitates the work of the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol in assisting parties operating under paragraph 1 of Article 5 of the Protocol to comply with the Protocol's control measures;
3. To note with concern that [16] parties, namely [Armenia, Austria, Bahamas, Burundi, Cabo Verde, Comoros, Equatorial Guinea, Honduras, Iceland, Myanmar, Panama, Republic of Moldova, Romania, Sao Tome and Principe, Suriname and Syrian Arab Republic], have not reported their data for 2024 [by 31 October 2025], and that this places them in non-compliance with their data reporting obligations under paragraph 3 of Article 7 of the Protocol until such time as the Secretariat receives their outstanding data;
4. To note that a lack of timely data reporting by parties impedes the effective monitoring and assessment of parties' compliance with their obligations under the Montreal Protocol;
5. To urge the parties listed in paragraph 3 above [that have not yet done so] to report the required data to the Secretariat as soon as possible;
6. To request the Implementation Committee under the Non-Compliance Procedure for the Montreal Protocol to review the situation of those parties at its seventy-sixth meeting;
7. To encourage parties to continue to report consumption and production data as soon as the figures are available, and preferably by 30 June each year, as encouraged in decision XV/15 and subsequent decisions on the matter.
