Montreal Protocol on Substances that Deplete the Ozone Layer

Distr.: General
26 October 2026

English only

Thirty-Eighth Meeting of the Parties to the Montreal Protocol on Substances that Deplete the Ozone Layer
Kigali, 2–6 November 2026
Item 10 of the provisional agenda for the preparatory segment*

Compliance and data reporting issues: work and recommendations of the Implementation Committee

Implementation Committee under the Non-Compliance Procedure for the Montreal Protocol
Seventy-seventh meeting
Kigali, 30 and 31 October 2026
Items 3, 5, 6 and 7 of the provisional agenda**

Presentation by the Ozone Secretariat on data and information submitted under Articles 7 and 9 of the Montreal Protocol and on related issues

Follow-up on previous decisions of the parties and recommendations of the Implementation Committee on issues related to non-compliance

Consideration of other possible non-compliance issues arising from the data report

Requests for changes in baseline data

Information provided by parties in accordance with Articles 7 and 9 of the Montreal Protocol on Substances that Deplete the Ozone Layer

Report of the Secretariat

Addendum

I. Introduction

1. The present addendum summarizes the additional information related to compliance with the control measures (Articles 2A–2J and Article 5) and reporting obligations (Article 7) received by the Ozone Secretariat as at 26 October 2026, after the preparation of the report on information provided by parties in accordance with Articles 7 and 9 of the Montreal Protocol on Substances that Deplete the Ozone Layer (UNEP/OzL.Pro.38/6–UNEP/OzL.Pro/ImpCom/77/2). The addendum supplements and updates the information in that report.

* UNEP/OzL.Pro.38/1.

** UNEP/OzL.Pro/ImpCom/77/R.1.

II. Information provided by parties

A. Status of compliance with the requirement to report annual data and hydrofluorocarbon baseline data (Article 7, paras. 2, 3, 3 *bis* and 3 *ter*)

2. For 2025, an additional 48 parties submitted their Article 7 data, bringing the total number of parties that have submitted those data to 184 (137 parties operating under paragraph 1 of Article 5 (Article 5 parties) and 47 not so operating). The data for those additional parties are set out in annex I to the present document. Of the total number of parties that have submitted their Article 7 data, 170 parties reported their data by 30 September 2026.

3. The following parties have not yet submitted data for 2025 as required under paragraph 3 of Article 7: Algeria, Central African Republic, Côte d'Ivoire, Croatia, Democratic People's Republic of Korea, Djibouti, Nepal, Nicaragua, Republic of Moldova, Romania, San Marino, Somalia, Sri Lanka and State of Palestine.

4. Armenia, which was listed in document UNEP/OzL.Pro.38/6–UNEP/OzL.Pro/ImpCom/77/2 and in decision XXXVII/8 as having outstanding data under paragraph 3 of Article 7 for 2024, has since submitted the outstanding information.

5. Azerbaijan and Saint Kitts and Nevis, which were listed in document UNEP/OzL.Pro.38/6–UNEP/OzL.Pro/ImpCom/77/2 as having outstanding baseline data for hydrofluorocarbons (HFCs), have since submitted the required information.

6. On the basis of the information contained in document UNEP/OzL.Pro.38/6–UNEP/OzL.Pro/ImpCom/77/2 and in the present addendum, and taking into account any updates that may be presented to the Implementation Committee during its seventy-seventh meeting, and in conformity with existing practice, the Committee may wish to forward for consideration by the Thirty-Eighth Meeting of the Parties the draft decision set out in annex II to the present addendum, after incorporating pertinent updates into the draft decision.

B. Status of compliance with the control measures for 2025

7. Tables 1 and 2 list the additional cases reported to date of consumption and production of ozone-depleting substances for 2025 that exceed the prescribed limits, together with explanations or clarifications provided by the Secretariat or by the party, as applicable.

Table 1
Cases of consumption exceeding the amount permitted by the reduction schedules under the Montreal Protocol for 2025, with associated explanations

		Consumption in ODP-t for ODS and in CO_2-equivalent tonnes for HFCs			
Party	*Annex/ group*[a]	*Baseline*	*2025 limit*	*2025 consumption*	*Explanation or comment*
Non-Article 5 parties					
Israel	B/II	473	0	65.2	Unintentional by-product: stockpiled to be destroyed in a future year (scenario (a) of decisions XVIII/17 and XXII/20)
	E/I	2 148	0	25.8	Unintentional by-product: stockpiled to be exported or used for feedstock in a future year (scenario (b) of decisions XVIII/17 and XXII/20)
Article 5 parties					
Mozambique	F	655 255	655 255	677 198	Clarification pending
Myanmar	E/I	3.4	0	66	Clarification pending
Qatar	C/I	86.9	28.2	28.23	Clarification pending
Saint Kitts and Nevis	F	34 434	34 434	46 396	Clarification pending

		Consumption in ODP-t for ODS and in CO_2-equivalent tonnes for HFCs			
Party	*Annex/ group*[a]	*Baseline*	*2025 limit*	*2025 consumption*	*Explanation or comment*
United Arab Emirates	C/I	557.1	181.1	181.3	Clarification pending
	E/I	7.2	0	24	Clarification pending

Abbreviations: HFC – hydrofluorocarbon; ODP-t – ozone-depleting-potential tonnes; ODS – ozone-depleting substances.

[a] The B/II substance is carbon tetrachloride; the C/I substances are hydrochlorofluorocarbons; the E/I substance is methyl bromide; and the F substances are HFCs.

Table 2
Cases of production exceeding the amount permitted by the reduction schedules under the Montreal Protocol for 2025, with associated explanations

		Production in ODP-t			
Party	*Annex/ group*[a]	*Baseline*	*2025 limit*	*2025 production*	*Explanation or comment*
Non-Article 5 parties					
Israel	B/II	0.0	0.0	65.2	Unintentional by-product: stockpiled to be destroyed in a future year (scenario (a) of decisions XVIII/17 and XXII/20)
	E/I	16 800.0	0.0	25.8	Unintentional by-product: stockpiled to be exported or used for feedstock in a future year (scenario (b) of decisions XVIII/17 and XXII/20)
Article 5 parties					
Republic of Korea	C/I	395.10	128.40	287.07	Clarification pending

Abbreviation: ODP-t – ozone-depleting-potential tonnes.

[a] The B/II substance is carbon tetrachloride; the C/I substances are hydrochlorofluorocarbons (HCFCs); and the E/I substance is methyl bromide.

8. Argentina and Congo, which were listed in table 7 of document UNEP/OzL.Pro.38/6–UNEP/OzL.Pro/ImpCom/77/2 as having excess consumption in 2025 for methyl bromide and HCFCs respectively, have since submitted clarificatory information and revised their data, there confirming their compliance with the control measures.

Annex I

Production and consumption of controlled substances - comparison of 2025 with baseline: Parties submitting Article 7 data between 29 August 2026 and 23 October 2026 (ODP/CO2-eq tonnes)

Key

AI - Annex A, Group I (CFCs). Base for Article 5 parties is the average of 1995, 1996 and 1997. Base for non-Article 5 Parties is 1986.
AII - Annex A, Group II (Halons). Base for Article 5 parties is the average of 1995, 1996 and 1997. Base for non-Article 5 Parties is 1986.
BI - Annex B, Group I (Other Halogenated CFCs). Base for Article 5 parties = average of 1998, 1999 and 2000. Base for non-Article 5 Parties is 1989.
BII - Annex B, Group II (Carbon Tetrachloride). Base for Article 5 parties is the average of 1998, 1999 and 2000. Base for non-Article 5 Parties is 1989.
BIII - Annex B, Group III (Methyl Chloroform). Base for Article 5 parties is the average of 1998, 1999 and 2000. Base for non-Article 5 Parties is 1989.
CI - Annex C, Group I (HCFCs). Base for Article 5 parties is the average of 2009 and 2010. Base consumption for non-Article 5 Parties is 1989 consumption of HCFCs plus 2.8% of 1989 consumption of CFCs. Base production for non-Article 5 Parties is Average of 1989 HCFC production + 2.8% of 1989 CFC production and 1989 HCFC consumption + 2.8% of 1989 CFC consumption.
CII - Annex C, Group II (HBFCs). Phase-out requirement was from 1996.
CIII - Annex C, Group III (Bromochloromethane). Phase-out requirement was from 2002.
EI - Annex E, Group I (Methyl Bromide). Base for Article 5 parties is the average of 1995, 1996, 1997 and 1998. Base for non-Article 5 Parties is 1991.
F - Annex F Hydrofluorocarbons (HFCs). Base for Article 5 Group 1 parties is the average HFC for 2020–2022 + 65% of HCFC baseline. Base for Article 5 parties- Group 2 is the average HFC for 2024-2026 + 65% of HCFC baseline. Base for non-Article 5 parties is the average HFC for 2011-2013 + 15% (25% for Belarus, Kazakhstan, the Russian Federation, Tajikistan and Uzbekistan) of HCFC baseline.

Annex II

Draft decision XXXVIII/[--]: Data and information provided by the parties in accordance with Article 7 of the Montreal Protocol

The Thirty-Eighth Meeting of the Parties decides:

1. To note that [--] parties of the 198 parties that should have reported data for 2025 had done so by 30 October 2026, that [--] parties had done so through the online reporting system, and that 170 parties had reported their data by 30 September 2026 as required under paragraph 3 of Article 7 of the Montreal Protocol on Substances that Deplete the Ozone Layer;

2. To note with appreciation that 95 of the reporting parties had submitted their data for 2025 by 30 June 2026, in accordance with the encouragement in decision XV/15, and that reporting by 30 June each year greatly facilitates the work of the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol in assisting parties operating under paragraph 1 of Article 5 of the Protocol to comply with the control measures under the Protocol;

3. To note with concern that [--] parties, namely [XXX, XXX], had not reported their data for 2025 by 30 October 2026, and that this places them in non-compliance with their data reporting obligations under paragraph 3 of Article 7 of the Montreal Protocol until such time as the Ozone Secretariat receives their outstanding data;

4. To also note with concern that three parties operating under paragraph 1 of Article 5, namely the Central African Republic, Mauritania and Nepal, that have ratified the Kigali Amendment to the Montreal Protocol and should have submitted baseline data for Annex F substances (hydrofluorocarbons) as required under paragraph 2 of Article 7 of the Montreal Protocol, had not done so by 30 October 2026, and that this places those parties in non-compliance with their data reporting obligations under the Montreal Protocol until such time as the Ozone Secretariat receives their outstanding baseline data for hydrofluorocarbons;

5. To note that a lack of timely data reporting by parties impedes the effective monitoring and assessment of parties' compliance with their obligations under the Montreal Protocol;

6. To urge the parties listed in paragraphs 3 and 4 above that have not yet done so to report the required data to the Ozone Secretariat as soon as possible;

7. To request the Implementation Committee under the Non-Compliance Procedure for the Montreal Protocol to review the situation of those parties at its seventy-eighth meeting;

8. To encourage parties to continue to report consumption and production data as soon as the figures are available, and preferably by 30 June each year, as encouraged in decision XV/15 and subsequent decisions on the matter.
