Chemical Manufacturers Association

In connection with the fluorocarbon research program being conducted by Chemical Manufacturers Association, we have, at your request, compiled the following schedules of production and sales data from responses furnished to us by participating companies.

- Schedule 1 - Listing of Reporting Companies
- Schedule 2 - A Tabulation of the Total Production of FC-11 on an Annual Basis for the Period 1931 Through 1980 (from Reporting Companies)
- Schedule 3 - A Tabulation of the Total Production of FC-12 on an Annual Basis for the Period 1931 Through 1980 (from Reporting Companies)
- Schedule 4 - A Tabulation of the Deviation Estimate of Total Production of FC-11 and FC-12 Applying the Submitted Estimate of Probable Error (from Reporting Companies)
- Schedule 5 - A Tabulation of the Total FC-11 and FC-12 Sales by Category for Year 1980 (from Reporting Companies)
- Schedule 6 - A Tabulation of the Total FC-11 and FC-12 Sales by Hemisphere for the Period 1931 Through 1980 (from Reporting Companies)
- Schedule 7 - A Tabulation of the Total FC-11 Sales for Refrigeration and Closed Cell Foam Blowing Agent on an Annual Basis for the Period 1956 Through 1980 (from Reporting Companies)
- Schedule 8 - A Tabulation of the Total FC-12 Sales for Refrigeration and Closed Cell Foam Blowing Agent on an Annual Basis for the Period 1956 Through 1980 (from Reporting Companies)

Schedule 9 - A Tabulation of the Total Production of
FC-11 and FC-12 on an Annual Basis
from Four India and Argentina Companies
(note 3)

Schedule 10 - A Tabulation of the Estimated Production
of FC-11 and FC-12 of Countries Other Than
Those Listed in Schedule 1 and Other Than
India and Argentina Companies

We have compiled these tabulations from questionnaires submitted directly to us from the chemical manufacturers solicited by Chemical Manufacturers Association. We made no attempt to independently verify the information submitted in the questionnaires.

Alexander Grant Company

Washington, D. C.
May 1, 1981

LISTING OF REPORTING COMPANIES

The following is a listing of the reporting companies inclusive of any related subsidiaries and/or joint ventures that reported production and release data:

1. Akzo Chemie B.V. (Holland)
2. Allied Chemical Corporation (U.S.)
 - (a) Allied Chemical Canada Limited (Canada)
 - (b) Quimobasicos, S.A. (Mexico)
3. Asahi Glass Co., Ltd. (Japan)
4. Australian Fluorine Chemical Pty. Ltd. (Australia)
5. CHLOE' Chimie (France) (Formerly Rhone-Poulenc Industries)
6. Daikin Kogyo Co., Ltd. (Japan)
7. E.I. du Pont de Nemours & Company, Inc. (U.S.)
 - (a) Du Pont de Nemours (Nederland) N.V.
 - (b) Ducilo S.A. (Argentina)
 - (c) Du Pont do Brasil S.A. (Brazil)
 - (d) Halocarbuos S.A. (Mexico)
8. Du Pont Canada, Inc. (Canada)
9. Essex Chemical Corporation (Racon) (U.S.)
10. Hoechst AG (West Germany)
 - (a) Hoechst Iberica (Spain)
 - (b) Hoechst do Brasil Quimica e Farmaceutica S.A.
11. Imperial Chemical Industries Limited (England)
 - (a) African Explosives & Chemical Industries, Ltd.

12. I.S.C. Chemicals Ltd. (England)
13. Kaiser Aluminum & Chemical Corporation (U.S.)
14. Kali-Chemie Aktiengesellschaft (West Germany)
 - (a) Kali-Chemie Iberia SA (Spain)
15. Mitsui Fluorochemicals Co., Ltd. (Japan)
16. Montedison Intermedi e Ausiliarichimiei per l'Industria
(Formerly Montedison S.P.A. (Italy)
17. Pennwalt Corporation (U.S.)
18. ShowaDenko, K.K. (Japan)
19. Ugine Kuhlmann, Produits Chimiques (France)
 - (a) Pacific Chemical Industries Pty. Ltd. (Australia)
 - (b) Ugimica S.A. (Spain)
 - (c) Produven (Venezuela)
20. Union Carbide Corporation (U.S.)
(for years through 1977 only)

NOTES TO 1980 WORLD PRODUCTION AND SALES OF
FLUOROCARBONS FC-11 AND FC-12

NOTE 1 - PRODUCTION AMOUNTS

These amounts exclude any production of a product used as an intermediate for chemical or plastic production.

NOTE 2 - CALCULATION OF DEVIATION

The deviation presented in Schedule 4 was computed by the square root of the sum of the squares method. A 95% confidence level was used for this calculation.

NOTE 3 - INDIA AND ARGENTINA PRODUCTION AMOUNTS

The amounts included were compiled based on previous years' data for the following companies:

- (1) Tool Research S.A.
- (2) I.R.A., S.A.
- (3) Everest Refrigerents, Ltd.
- (4) Navin Fluorine Industries

NOTE 4 - PRODUCTION OF OTHER COUNTRIES

The data reported as the estimated production of countries other than those listed in Schedule 1 and other than India and Argentina Companies were compiled from averages of the estimates of production by the reporting companies who responded to the questionnaire on production from those countries.

WORLD PRODUCTION AND RELEASE OF
CHLOROFLUOROCARBONS 11 AND 12
THROUGH 1980

CHEMICAL MANUFACTURERS ASSOCIATION
FLUOROCARBON PROGRAM PANEL

July 29, 1981

Calculations by E. I. du Pont de Nemours & Company
from data published by Alexander Grant & Company
report, "1980 World Production and Sales of Fluoro-
carbons FC-11 and FC-12," of May 1, 1981.

WORLD PRODUCTION AND RELEASE OF
CHLOROFLUOROCARBONS 11 AND 12 THROUGH 1980

The world production and release of FC-11 and FC-12 are tabulated through 1980. The 1980 production figures were compiled by Alexander Grant and Company from data reported by the nineteen companies participating in the CMA Fluorocarbon Program.

The procedure used to compute annual and cumulative figures for world production and release is described by McCarthy, Bower, and Jesson (Ref. 1). In order to conserve space, fluorocarbon production and release figures are not printed for the years 1931-1949, although this production is incorporated into the cumulative production and release figures reported for 1950-1980. The figures for 1931-1949 are given in previous editions of this report which are available from CMA.

Russian and Eastern European (CMEA) production is based on published USSR production data for 1968-1975 (Ref. 2). Total production for this region was estimated to be 1.15 times the reported USSR production. Data for 1976-1979 were extrapolated from the 1968-1975 history. For 1980, the production of CMEA countries, Argentina, and India were estimated to be the same as 1979. The CMA is attempting to estimate the CFC 11 and CFC 12 production of China. Accordingly, this report may be revised to include new information. Any revisions are expected to be minor in nature.
